Dear Mr. Trembler:

In reviewing the field examination, I find some additional information is required before a Water License can be issued. The Department needs to know the volume of water used annually by the Magic Valley Growers from the well specified in the above referenced permit for Pacific Supply Co-Operative of Portland, Oregon. If recorded data are not available, estimates of the volume of water used will suffice. If estimates are submitted, please state your method of arriving at these estimates. As soon as we receive this information, we will continue to process your permit.

Gentlemen:

The Department of Reclamation has received your affidavit submitted as proof of beneficial use for the above referenced permit. Before the affidavit is accepted as acceptable proof, the Department will require some additional information.

Please be advised that the priority date under your permit is the first date of receipt. In this case, the first date of receipt was August 2, 1967 and is the priority rather than the date of June 7, 1967. On June 7, 1967 the application was submitted, however, it was unacceptable as it was submitted without the proper fees.

The Department will require that you submit an answer under Item 4a of the affidavit. This is believed to be a subterranean source or a well.

Item 5a requires that you list the amount of water for each beneficial use listed under the permit.

If we may be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney

Thank you for your letter of September 6, 1968. Enclosed is a copy of the above referenced application. Beneficial use proof is required on this permit on or before October 1, 1968. We hope that this copy of the permit will help you in determining which of your properties this concerns.

Also enclosed is a revised beneficial use proof form. The department would appreciate it very much if you would use this form to submit your proof rather than the previous form sent to you.

If you have any further questions, please contact us.
