Dear Father:Heeran:

Enclosed please find an order which removes the measuring device requirement from the above referenced permit.

A representative from this Department made an examination of your works covered by permit 47-7002. The works were found capable of producing 0.10 c.f.s. of which 0.10 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for irrigation of 5 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 36, T. 9S, R. 14E, B.M. If you disagree with the findings, please advise within 10 days. Otherwise, a license will be issued showing the findings as set forth in this letter.

If we may be of further assistance in any way, please advise.

Re: Permit No. 47-7002

Dear Don:

With respect to the above-referenced permit, we have been advised by Father Heeran, the Catholic priest in Buhl, that water is pumped from the ground and into a sprinkler system, which is used to water the grounds of the Catholic church and school in Buhl, exclusively. We are advised that it would cost some several hundred dollars to install a proper measuring device and it is the hope of the Father and the Church that this same amount of money could be otherwise better diverted to the Lord's work. In any event, we hereby formally request a waiver of the measuring device requirement and further request the issuance of a water license at your convenience.

If an affidavit from Father Heeran is desired, please advise and we will be happy to prepare the same.

Gentlemen:

Our field examiner has completed the field examination for the above referenced permit. As there was not a measuring device installed at the point of diversion, our examiner could not measure the amount of water being diverted.

As permit 47-7002 was approved with the condition that a measuring device be permanently installed as part of the diverting works, the Department cannot license this permit until this requirement has been met.

I would appreciate hearing from you as soon as possible as to your intentions regarding the installation of a measuring device. Please indicate what type and when you intend to install said device.

If you have any questions, please contact this office.

One of the conditions of the approval of your permit 47-7002 was that proof of application of the water to beneficial use be submitted to this office on or before August 1, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for proofing before publication.

After sending us a galley proof proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

The expense of this publication is to be paid by the Department of Reclamation to whom you must furnish an affidavit of publication with the bill as soon as the publication is completed.

Very truly yours,

Donald W. McElDowney
Water Rights Clerk

Buhl, Idaho

Dear Rev. O'Connor:

We are in receipt of your application to appropriate the public waters of the State of Idaho; however, further action will be delayed on your permit until we are in receipt of the required \$10.00 statutory fee for filing.

Please contact us if we may be of further assistance.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk
