Affidavit of Publication

STATE OF IDAHO,
COUNTY OF TWIN FALLS) ss.

Nº 13109

I, Sherry Kessler being first duly sworn upon oath, depose and say that I am Print Clerk of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for two consecutive publications, commencing with the issue dated September 8, 1983, and ending with the issue dated September 15, 1983.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Affidavit of Publication

STATE OF IDAHO,
COUNTY OF TWIN FALLS

N^o 13109

I, Mary Kestner being first duly sworn upon
oath, depose and say that I am 100 Clerk of the TIMES-NEWS,
published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of
the notice of advertisement, as per clipping attached, was published in the regular and
entire issue of said newspaper, and not in any supplement thereof, for

consecutive publications, commencing with the issue dated
September 8, 1983, and ending with the issue dated
September 12, 1983.

And I do further certify that said newspaper is a consolidation, effective February 16,
1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin
Falls News, published theretofore daily except Monday, both of which newspapers prior to
consolidation had been published under said names in said city and county continuously and
uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday,
until July 31, 1978, at which time said newspaper began daily publication under said name
in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week
has been designated as the day on which legal notice by law or by order of any court of com-
petent jurisdiction within the state of Idaho, to be published weekly, will be published; and
that at the head of the editorial column of said combined newspapers, and in each issue there-
of, Thursday is announced as the day on which said legal notices will be published.

MEMORANDUM

TO: Files 47-04477 & 47-04478

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5240

DATE: November 3, 1999

Transfer 5240 adds a new point of diversion, corrects the legal for an existing point of rediversion and changes the place of use under Rights 47-04477 & 47-04478. The applicant is modifying the place of use to reflect changes resulting from the installation of sprinklers and other modifications creating a 1569.0 acre permissible place of use.

The applicant provided proof of ownership of the land these rights are appurtenant to except for two (2) quarter quarters that are being removed through this transfer. 30 acres in the NENE and 25 acres in the NWSE, S21, T12S, R17E are being shifted to other lands. These quarter-quarters are owned by USDI, BLM according to the Twin Falls County Assessor's office. I have requested that the applicant obtain a letter of agreement/release from BLM. The approval will be withheld until the release has been received.

These rights were transferred in 1995 verifying the extent of historic use at that time. Recommended conditions include non-confirmation of claim, subject to review of SRBA & recommendations, drilling permit requirements, supplemental groundwater, irrigation overlap, right-of-way, multiple points of diversion/measuring devices, injection & rediversion/measuring devices, future annual reporting, permissible place of use limits, combined right limits, extended season of use limits and standard transfer conditions.

=====

Mr. Williams telephoned today in response to my letter of 10-25-95 regarding the draft approval for Transfer Nos. 4570 and 4571. We discussed the transfers and I answered his questions regarding the measuring device requirements. He will discuss his plans with the region office prior to installation.

After reviewing the draft, Mr. Williams checked the exact location of the redirection point listed on the application as SWNW, S26 and confirmed that it is actually located in SENE, S27. The approval will be modified to reflect Section 27.

The total diversion rate was incorrectly identified as 6.18 cfs and will also be corrected to 6.68 cfs per review.

RE: Transfer Application Nos. 4570 & 4571
Water Right Nos. 47-04477 & 47-04478

Dear Mr. Williams:

I have just completed review of the above referenced transfers that were forwarded from our regional office in Twin Falls. Some minor adjustments were made in preparing these transfers for approval to reflect the use of these rights in a common system. This should provide you with more flexible use of these rights within the irrigated land parcel while including the use of the new well.

A "draft" approval has been prepared and enclosed for your review. If you have any questions or objections to this approval, please respond to this office within 10 days of receipt of this letter. If no response or inquiry is received within that time, the transfer will be forwarded for approval and signature.

I hope I have answered all your questions regarding this matter. If you require any further assistance, please contact me directly at 327-7943 and I will be happy to help you.

Sincerely,

PAMELA SKAGGS

MEMORANDUM

TO: FILE NO. 47-04477 & 47-04478
FROM: PAM SKAGGS^{PS}/STATE OFFICE
SUBJECT: TRANSFER NO. 4570 & 4571
DATE: October 23, 1995

=====

These transfers were filed simultaneously to add points of diversion and change the place of use under both of these rights. These groundwater rights supplement surface water rights to irrigate a total of 1,257 acres within 1,477 irrigated acre land parcel.

The applications described minor differences in use of these rights and included the addition of both original wells. Either of these wells could serve any of the irrigated acres using the same system to deliver surface and groundwater.

The approval has been prepared including all the points of diversion, injection and redirection, old and new, under both rights to serve a common permissible place of use. This will allow for more flexibility for the right holder in the use of these rights within the common system and more accurately reflect the use of water under these rights. A single transfer approval has been prepared for both transfers.

The total number of acres under Right No. 47-04477 was reduced from 1,331 acres to the 1,257 acres confirmed irrigated. The rate of diversion under Right No. 47-04478 was reduced from 2.0 cfs to the 1.68 cfs actually measured from the original well. These rights are limited to the historical use of water from the wells to supplement surface rights. The reduced, non-standard season, reflects the annual use of these rights and limits the maximum diversion volume as recommended.

Other recommended conditions include non-confirmation of claims, right-of-way, irrigation overlap, future annual reporting, multiple points of diversion/measuring devices, supplemental groundwater, combined right limits and standard transfer conditions.

SUBJECT: Review and Recommendation

These two transfers are related. They propose to add diversion points to two beneficial use rights and identify the place of use of the rights. The beneficial use rights stem from two wells drilled in North Cottonwood Creek Canyon years ago which have historically been used to augment the creek flows. Transfer #4570 deals with 47-04477 (south well; 5.0 cfs) and transfer #4571 deals with 47-04478 (north well; 2.0 cfs). 47-04477 was originally claimed statutorily for irrigation of 1331 acres then in the SRBA it was claimed on 1477 acres. 47-04478 was originally claimed statutorily for irrigation of 856 acres which are included in the 1331 above and then in the SRBA it was claimed on the same 1477 acres as 47-04477. Physically either well could serve any of the lands irrigated since each well dumps into North Cottonwood Creek and then the water is then re-diverted from the creek below to the place of use.

Transfer #4570 (south well) proposes to use both old wells in Section 11 (north & south wells) and also add another well in Section 16 that exists but presently not in service. It also splits the right into two different use areas within the 1477 acre place of use with associated flow rates.

Transfer #4571 (north well) proposes to use both old wells in Section 11 (north & south wells) but does not propose to be diverted from the other well in Section 16. It does not split the right but spreads the right over the entire 1477 acres.

The logic behind both of these transfers escapes me other than they want to add another well to the system. For some reason when Mel Schulte helped Mr. Williams draft the transfers he seemed to put a lot of emphasis on the number of acres originally claimed in the statutory claims; so much so that he placed limits on these transfers based on these claimed acreage amounts. I do not believe this is warranted and more weight should be given the SRBA claimed acres or to the place of use review done in the SRBA. Jim Stanton has reviewed the place of use and found approximately 1028 acres under the system. I have checked Jim's figures against landsat mapping and giving the benefit of doubt to the applicant I find 1257 acres irrigated. (See attached sheet) Jim's analysis of the rate of diversion and volume appear to be appropriate.

RECOMMENDATION

I recommend that both transfers be approved with the same points of diversion, points of re-diversion, and same place of use of 1257 acres limited to 1257 acres in any one season. The total diversion rate

NOV 07 1995

from all three wells is limited to $(5.0+1.68)$ 6.68 cfs at any one time. The total diversion volume from all three wells is limited to 1669 afa. When combined with other rights the diversion rate shall not exceed 0.02 cfs/acre nor the diversion volume exceed 4.0 afa/acre. Additionally all wells must have totalizing meters installed and the volumes subject to reporting to the department annually. All rights are subject to SRBA review and specifically the 1477 acres PPU may be adjusted downward in the process.

SUBJECT: W T Williams Apps. for Transfer

On 8-25-95, I accompanied Tom Williams to these two wells in North Cottonwood Creek Canyon. Using a Polysonic flow meter, the smaller north well was measured at 1.54 to 1.68 cfs. I tried to measure the larger (south) well, but was not able to get a steady R value at higher discharge rates. The SRBA claim file has a driller's pump test showing up to 5.3 cfs. So this well appears to be capable of pumping the 5.0 cfs claimed. Both wells pump open discharge into the creek. Both wells are run with variable-speed diesel engines and gear heads. Mr. Williams said that the big well runs 90-120 days a year, whereas the smaller well is only used as needed in dry years. The small well may be used for 4-5 years in a row, followed by 2-3 years of no use. Well has been used for up to 150 days a year, but averages 120 days in years when it is pumped. At an average flow of 1.61 cfs, 150 days of use would pull 479 AFA. At 120 days of use, 383 AFA would be pumped.

It is time-consuming and expensive to operate these wells due to their location and the lack of electric power, so it would certainly be reasonable to re-locate them to a better site. But instead of doing this, the transfers propose to add an additional well while keeping the two existing wells. So there is a potential for expansion of historic groundwater usage if these transfers are not properly conditioned. At a rate of 5.0 cfs for 120 days, the large well would pump 1190 AFA. Based on the usage data supplied by Mr. Williams, it appears that the maximum historic usage of these two wells is 1669 AFA; transfer, if approved, should be limited to this amount. Totalizer meters should be required for all wells, as this is the only way to be sure of how much water is actually used.

With regard to the place of use, the latest ASCS photos show 986.3 acres by adding up the listed field acreages. By using a dot grid, the same photos show 1028 irrigated acres. Although the transfers state that they only wish to describe the land that is presently irrigated, the transfers as filed constitute an enlargement of at least 449 acres. This is obviously not allowable under Sec. 42-222 of the Idaho Code. I have prepared a list of the apparent present p/u, which I recommend as what we allow if the transfers are approved. The SRBA claims obviously show an incorrect p/u. I have rounded off my figures to the nearest whole acre. I have not discussed this discrepancy with Mr. Williams; my figures come from the aerial photos supplied with the transfer app. There is a 34.7-acre field south of the pivot in Sec. 16, that is marked "surface water only". This field is not included in my acreage figures for this reason, although I don't know how groundwater would be kept off of the parcel.

RE: Re-publication of Proposed Change of Water Right No. A47-04478,
Transfer No. 4571 (W.T. Williams)

Dear Ms. Dickman:

Enclosed you will find a legal notice which we wish to have published in your newspaper. We have inserted the required publication dates.

We have attempted to submit this legal as camera ready. Please call me at your earliest convenience and prior to your staff re-typing the legal if it does not meet your specifications so I can possibly make adjustments.

Since this legal was previously published solely on 3/30/95, a billing adjustment for this re-publication seems appropriate. Please confer with Linda McGuire regarding your newspaper publication problems for this particular situation.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

MEMORANDUM

TO: Files T#4570, 4571 (W.T. Williams, Inc.)
FROM: Mary Baldwin
DATE: May 10, 1995
SUBJECT: Times News Publications

Camera ready legals for T#4570 and T#4571 were scheduled for publication on 3/30 & 4/6/95.

Affidavit #26991 for T#4571 was received on 4/20/95. An telephone inquiry was made on 4/24/95 to Linda McQuire of the Times News regarding the lack of a publishing affidavit for T#4570.

A follow-up telephone call to Ms. McGuire on this date reveals the following:

Affidavit # 26991 on T#4571 published on 3/30 & 4/6/95 should be for T#4570.

T#4571 was published solely on 3/30. No affidavit has been received.

Plan of action:

Ms. McGuire will send a corrected affidavit for T#4570.

IDWR will submit a camera ready re-publication of T#4571 scheduled for 5/18 and 5/25/95. The Times News would not accept a camera ready legal for the 5/11/95 newspaper.

Re: Transfer No. 4571 (A47-04478)

Dear Mr. Williams:

We regret to inform you that the Times News failed to publish the above referenced transfer for two consecutive weeks; therefore, publication has been re-scheduled for 5/18 & 5/25/95 with a final protest period ending on June 5, 1995.

In addition, as requested in our correspondence dated March 16, 1995 evidence of ownership of the land to which the water is appurtenant such as copies of deeds, tax records, etc. and/or a notarized statement from any lien holder on the property is needed before Transfer No. 4570 and Transfer No. 4571 can be forwarded to our state office for approval.

We appreciate your patience in view of the multiple problems encountered in the processing of your transfer applications.

If you have any questions, please feel free to contact our office.

Dear Mr. Williams:

The Department of Water Resources acknowledges receipt of your Applications for Transfer.

This office has scheduled advertising the applications in the Times News for 3/30 and 4/6/95. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

Before we can forward your applications to our state office for approval we must include in the file evidence of ownership of the land to which the water is appurtenant such as copies of deeds, tax records, etc. and a notarized statement from any lien holder on the property agreeing to the proposed change.

The department's review process may have to include field investigation and verification of the claims which is required as part of the Snake River Basin Adjudication.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.
