Gentlemen:

The Twin Falls Canal Company after researching filed water right permit has concluded that water sought to be appropriated is waste water, which would accrue below the Company's last delivery. However, we are advised that many others hold prior rights to this waste water and of course the holder has a right to cease wasting water.

The Canal Company will continue to make deliveries to their shareholders to the extent possible, but makes no effort to put additional water in the ditches so as to insure that waste water would be available for permits such as this one.
