DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT
Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant Margaret Engl c/o Farm Management Dept., Fidelity National Bank
post office address Box 509, Twin Falls, Idaho 83301
2. The point of diversion is in NE $\frac{1}{4}$ of SW $\frac{1}{4}$ Section 7 Township 11 South
Range 19 East B.M. located on N.A. groundwaters (see letter of 11-13-69)
(name of source)
tributary to N.A. in Twin Falls County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
 - a. Date of priority claimed:
April 10, 1951 amount: 1.24 c.f.s. or 2.46 acre feet
amount: _____ c.f.s. or _____ acre feet
amount: _____ c.f.s. or _____ acre feet
Total claimed 1.24 c.f.s. or 2.46 acre feet.
 - b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
use Irrigation of crop period of use from April 1 to Nov. 15 (both dates inclusive)
use Livestock watering period of use from Jan. 1 to Dec. 31 (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive).
4. Description of diverting works:
 - a. Surface water diversion dam and/or headgate: material is composed of N.A.
; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; with at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

 - b. Underground water diverting works: is well flowing or pumped pumped; depth of well is 400 feet; diameter of well is 16 inches; type of pump is electric
capacity of pump is 600 g.p.m.; name and address of well driller is Mack Gray,

6. Where water is used for stock watering, give number of each kind of stock watered varies with year and whether livestock are pastured on farm at all during the year.

7. Where water is used for domestic or municipal purposes give number of families served N.A. name of town supplied N.A.

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion. Be as specific as possible, giving dates and quantities N.A.

9. Remarks: please explain any details of your claim which you feel need clarification or additional explanation A sump is located along the east line of the NE 1/4 of SW 1/4 Sec. 7, T. 11 So., R. 19E., B.M. This water is pumped by a sump pump (presently a 5 H.P. electric motor) back north up the hill and into the same pipe that comes out of the irrigation pump. The sump water is then recirculated with the "new" water from the well and put on the farm land. There is not always adequate water to allow pumping fo the sump.

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with all attached information and certifies that all statements are true and accurate to the best of his knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s. or</u>	<u> </u>	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s. or</u>	<u> </u>	acre feet
		Total claimed:	<u>1.2 c.f.s. or</u>	<u> </u>	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Dear Mrs. Engl:

The Department of Reclamation has completed the processing of your claim to a water right, and no further action is authorized under Section 42-225 of the Idaho Code. Notice of your claim was published and no one has filed an exception to your claim. Your claim will remain in our files and will be available at any time for your or the courts use.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or evidence that you would like to have included in your claim file, you may add that information at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions or if we can be of further assistance, please feel free to call upon us.

Very truly yours,

Donald W. McElowney
Appropriation Examiner
