APR 11 1957

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-26834

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Earl Salles

2. Source of water supply: Subterranean flow from a deep well

3. Location of point of diversion: Is in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30

T. 11 S R. 19 E.B.M. County of Twin Falls

4. Describe works as they exist, giving dimensions and capacities of same: 40 H.P. U.S. Motor

#923461, F.M. Pump #PN2860, 18.5' x 10" Column, 10" bolts, 300' x 10"
discharge pipe - Well - 29.5' x 16", 120' x 16" Cas. h: 90', dd 8.5'
Sump - 5 H.P. Motor w/ centrifugal pump and 400' x 10" concrete pipe

5. Water is used for: domestic and irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 19., NW $\frac{1}{4}$ Sec. 30., Twp. 11 S., Rge. 19 E.B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Mr. Earl Salles along

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

APPLICATION FOR PERMIT 45- 2546

To Appropriate the Subterranean Waters of The State of Idaho

Blandford and Blandford
Box 363, Kimberly, Idaho

Application No. G- 34741
Permit No. G- 26834
District No.

1. Name of Applicant: EARL SALIEE
 Postoffice address: Rt. #2, Kimberly County: Twin Falls State: Idaho
2. Quantity of water claimed: 3.64 cfs
 (a) Rate of withdrawal in cubic feet per second. 3.64 or Idaho
 Miners' inches 182 or gallons per minute.
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean water from deep well.
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 30
 Twp. 11 S. , Rge. 19 E. , B.M., County of Twin Falls, Idaho
5. Water is to be used for: Domestic and irrigation purposes.
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Deep well, electric pump, 150' of pipeline, and ditches.
8. Estimated cost of works: \$ 8,000.00.
9. (a) Is reservoir to be used? No
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: Rock Creek flood water right gone by middle of May of each year (120 miner's inches); two deep wells producing 35 and 60 miner's inches.
 (a) 200" (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) (cubic feet per second, inches or gallons per minute) is for new lands.

SCANNED
JAN 23 2002

This well is located approximately 200 feet North of the South boundary line of said SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 30, Tp. 11 S., R. 19 E.B.M.

Remarks: If this well produces 200 miner's inches, then use of the other two wells producing a total of 95 miner's inches will be discontinued for economical reasons, according to the present plan of irrigation of this applicant. Thirty acres of the above lands is very gravelly soil and has a decided slope to the same, which will require more than one miner's inch of water per acre for beneficial irrigation.

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

s/ EARL SALLEE

Applicant.

Re: Permit No. G-26834

Earl Sallee
Route #2
Kimberly, Idaho

Dear Sir:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26834 shows the well is (are) capable of conveying 68 miner's inches, or 1.36 c.f.s. of water for the irrigation of 175 acres.

Upon receipt of the statutory fees, totaling \$ 17.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 12.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of April 8, 1957 to the use of 1.36 second feet of subterranean water with the point of diversion in SE 1/4, Sec. 30, for the irrigation of 175 acres in S 1/4, Sec. 19; NW 1/4, Sec. 30, T. 11 S., R. 19 E., B. M.

Dear Mr. Sallee:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Kimberly Advertiser, all submitted in proof of completion of works and beneficial use on Permit No. G-26834.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER

Permit No. G-26834

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Earl Saltee, Route 2, Kimberly, Idaho, with occupation
of farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-26834, dated April 8, 1957, with priority date of April 8, 1957.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water from deep well with point of diversion in the
SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Township 11 South, Range 19 E.B.M., in Twin
Falls County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The well has a depth of 295 feet, with 120 feet of 18-inch casing
installed, and with depth to water of 100 feet. The pump installed is a
40 H. P. Layne and Bowler Electric Pump. The discharge is approximately
80 miner's inches. A 10-inch pipeline 300 feet long is also installed
and used.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to irrigate the following cultivated lands, all of
which has actually been irrigated from this well for the past four years:
Lot 4 and the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19; and Lots 1 and 2, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and
SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30; all in Township 11 South, Range 19 E.B.M., in
Twin Falls County, Idaho.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Mack Gray, Route 1, Kimberly, Idaho.

26834 *RG*

7
Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 182 miner's inches (3.64 cubic feet per second) of water.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Used during the crop seasons of 1957 to 1960, inclusive, for irrigation of the above lands, to the extent of all water produced from said well.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Rock Creek flood water right of 120 miner's inches is available until the middle of May. Deep wells with point of diversion located on the above-described lands produces 35 and 60 miner's inches of water.

(Sign) Earl Wallis

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Kimberly, County of Twin Falls, State of Idaho, on this 30th day of September, A. D. 1960.

BOISE, IDAHO

Permit
Department of Reclamation

Permit No. G-26834.....

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ralph Banning, age of 52 years, occupation of farmer,
residence and post office address at Route 2, Kimberly, Idaho.

Ques. 2. Are you acquainted with Earl Sallee, the
holder of Permit No. G-26834? How long have you known him and where does
he reside?

Ans. Yes, I have known him for approximately 20 years. He resides
at Route 2, Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26834, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Deep well 295 feet deep in the SE 1/4 of Section 30, Township
11 South, Range 19 E.B.M. Layne and Bowler 40 H.P. pump and 300 feet
of 10-inch pipeline used to convey water to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Works will convey, and I have seen them convey, at least 1.6
second feet of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the pump deliver at least 80 miner's inches of water.
I estimate this after seeing the water pumped into the ditches and the
number of acres of land irrigated with the same.

26834

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to irrigate the following cultivated lands..... all of which has actually been irrigated from this well for the past four years: Lot 4 and the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19; and Lots 1 and 2, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30; all in Township 11 South, Range 19 E.B.M. in Twin Falls County, Idaho.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam soil with slope on north end of same and requiring one miner's inch per acre for profitable cultivation.....

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Used during the crop seasons of 1957 to 1960, inclusive, for irrigation of the above lands, to the extent of all water produced from said well.....

(Signed) Ralph Banning

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in..... The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Raymond Johnson, age of 29 years, occupation of farmer, residence and post office address at Route 2, Hansen, Idaho.

Ques. 2. Are you acquainted with Earl Sallee, the holder of Permit No. G-26834? How long have you known him and where does he reside?

Ans. Yes, I have known him for approximately ten years. He resides at Route 2, Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-26834, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Deep well 295 feet deep in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Township 11 South, Range 19 E.B.M. Layne and Bowler 40 H.P. pump and 300 feet of 10-inch pipeline used to convey water to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will convey, and I have seen them convey, at least 1.6 second feet of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver at least 80 miner's inches of water. I base my estimate on the amount of water available for irrigation done by me as a tenant on the land.

26834

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used to irrigate the following cultivated lands, all of which has actually been irrigated from this well for the past four years: Lot 4 and the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19; and Lots 1 and 2, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30; all in Township 11 South, Range 19 E.B.M. in Twin Falls County, Idaho.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam soil with slope on north end of same and requiring one miner's inch per acre for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Used during the crop seasons of 1957 to 1960, inclusive, for irrigation of the above lands, to the extent of all water produced from said well.

(Signed) _____

Raymond Johnson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in _____ Kimberly _____, County of Twin Falls _____, State of Idaho, on this 30th day of September _____, A. D. 1960.

Re: Permit No. G-26834.

Gentlemen:

I am enclosing herewith the following papers in the above matter:

Deposition of holder.

Deposition of two witnesses.

Affidavit of Publication.

I had considerable trouble locating the affidavit of publication, and this is the reason why I am so late in forwarding the papers.

I have forgotten whether the fee for issuance of the license is payable now or after the well has been inspected by your Department, but I presume that it is after inspection has been completed. If there are any fees due at the present time, you can let me know and I will forward my check.

Please forward all correspondence in the future to me.

Yours very truly,

BLANDFORD and BLANDFORD

Blandford & Blandford,
Attorneys at Law,
Kimberly, Idaho.

Attention: A. L. Blandford

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26834, in the name of Earl Sallee. Final Proof is to be made before you, as Notary on the 30th day of September, 1960, at 10:00 o'clock A.M., at Kimberly, Idaho.

As of this date we have mailed the Notice to the Kimberly Advertiser with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

RECEIVED
AUG 24 1960

Department of Reclamation

Notice is hereby given that at 10:00 A.M., on the 30th day of September 1960, at Kimberly, County of Twin Falls, State of Idaho, before A. L. Blandford, Notary Public, at (address) Kimberly, Idaho, proof will be submitted of the completion of works for the diversion of 3.64 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26834, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Earl Sallee, Route 2, Kimberly, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.64 cubic feet per second.

3. The use to which said water has been applied is Domestic and Irrigation purposes, and the amount applied to beneficial use is 3.64 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 30, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho.

5. The place where said water is used is Lot 4 and SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 19; and Lots 1 and 2, NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 30; all in Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho.

6. The date of priority which said user is prepared to establish is April 8, 1957.

Publish: Sept. 8, 15, 22, and 29, 1960.

Re: Water Licenses No. 18104 & 20237
Clyde E. Edminister

Permit No. G-26834 - Earl Salles

A. L. Blandford
Attorney at Law
Kimberly, Idaho

Dear Mr. Blandford:

Your letter of August 9, 1960 received in regard to the noted licenses and permit.

Permit No. G-26834 has a remark that the other two wells on the property would be abandoned if sufficient water was developed under the permit.

We believe that the Water Licenses can be cancelled or held for nought by the State Reclamation Engineer upon petition of the owners of such Water Licenses signed before a Notary Public. Proof of ownership should accompany the petitions, one petition for each Water License.

Or the Certificate of Completion of Works and Water License under Permit G-26834 can be issued for the amount produced by the well or at the rate of one miners inch per acre of irrigated land, which ever is least. The Water License would have the condition - "Not over one miners inch of subterranean water for each acre irrigated shall be diverted from all diversions for irrigation of the above described land" - or "Total amount of water diverted under Water Licenses 18104 and 20237 and G-26834 shall not be in excess of one miners inch of water for each acre of irrigated land."

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-26834

Blanford & Blanford
Lawyers
Kimberly, Idaho

Attention: Mr. A. L. Blanford

Gentlemen:

In answer to your letter of May 17, 1957 relative to the above captioned Permit; it is the policy of this department not to approve any Application for Permit to appropriate more than one inch per acre for irrigation purposes. While the statute does say "That no one shall be authorized to divert for irrigation purposes more than one cubic foot for fifty acres of land unless it can be shown to the satisfaction of the Department of Reclamation that more is necessary", the State Engineer has refused to approve an application for filing in excess of one inch per acre, especially on a subterranean filing, for the reason that the point of diversion is on the land to be irrigated and the water can be delivered to the land without carriage loss.

We regret that error was made by this department in inserting the amount of 364 inches on the Application in place of 182 inches. Our recorded record on Permit No. G-26834 in this department was 3.64 c.f.s. or 182 inches. You are hereby authorized to correct the Application for Permit to read 182 inches or you may return same to this department and we will gladly make the correction.

Thank you for calling this to our attention.

Very truly yours,

MARK R. KULT
State Reclamation Engineer

Attention: Mr. Roy W. Thompson, Office Manager

Re: Permit No. G-26834

Dear Mr. Thompson:

I am in receipt of your letter of May 15th, advising me why the amount of water filed on under the above permit was changed from 4 second feet to 3.64 second feet.

I realize that the statutes provided that more than one inch of water per acre cannot be filed upon as a general rule. However, the statutes also provide that if one is in the position to show that additional water is necessary for proper irrigation, then a greater quantity of water can be filed upon. Under "remarks" I mentioned that 30 acres of the land described in the application had a decided slope and the soil was very gravelly and would require more water.

I presume that if we could not prove at a later date that additional water was necessary for proper irrigation, then your Department would allow the application only to the extent of one inch per acre. However, I did not want to be in the position of filing on a smaller quantity of water and then being prohibited from increasing the amount of water at a later date (which the statutes do not permit).

Inasmuch as there is only a difference of 18 inches involved and it is improbable that the well will produce 200 inches, I have no particular objections to the change in the quantity of water or in the time required for completion of application to use. However, the application as changed is in error, as whoever changed the same correctly changed the amount of water from 4 to 3.64 second feet but erroneously changed the Miner's inches of water from 200 to 364, whereas the number of inches of water claimed should be 182.

26834

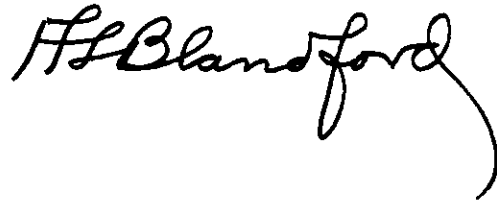

Roy W. Thompson
Page 2 5/17/57

I believe that the application in this particular should be corrected, and I am wondering if you want me to return the application to be recorded again, or whether you can change it on your records without re-recording the instrument. I do not want to be in a position of having someone at a later date contest the validity of the application on the grounds that the same is in error on its face and therefore invalid and void.

Yours very truly,

BLANDFORD and BLANDFORD

Re: Permit No. G-26834
Earl Sallee

Blandford & Blandford
Attorneys-at-Law
Kimberly, Idaho

ATTENTION: Mr. A. L. Blandford

Dear Mr. Blandford:

Regarding your letter of May 10, 1957, in which you ask why the amount of water filed on under Permit No. G-26834 was changed from 4.0 cubic feet per second to 3.64 cubic feet per second, this is to inform you that the maximum amount of water allowed by this department is one inch per irrigable acre. The application stated that Mr. Sallee proposed to irrigate 182 acres. Therefore, we changed the amount of water filed on to read 182 miner's inches which is equivalent to 3.64 cubic feet per second.

The time required for completion of works and application to proposed use was changed from four to five years because the maximum time allowed for said proofs is five years. Since three out of five of the permits filed in this department have been requesting an extension of time which constitutes an over-load of work in this office, we are showing the maximum time on all applications. However, the applicant has the right to make the said proofs at any time prior to the stated five years.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
