Dear Mr. Degner:

We are pleased to advise you that your application for a loan in the amount of \$210,000 with the Federal Land Bank of Spokane has been approved. Your FLBA stock will be in the amount of \$10,500 which will be held from the loan proceeds.

Special requirements for the water rights are attached. Your loan is subject to a 3% loan fee to the Federal Land Bank and 1% on the first \$100,000 and 1/2% thereafter to the association.

The closing of this loan is contingent upon your providing the Bank with a first lien upon the land offered as security. Loan fees described will remain as quoted if the note and mortgage are signed on or before June 9, 1982. This loan will be closed in accordance with the Bank's variable rate plan under which the interest rate is subject to change. This commitment for a Federal Land Bank loan expires on October 9, 1982.

This commitment is subject to availability of funds and may be modified or withdrawn prior to recording the mortgage.

We are enclosing a mortgage loan insurance brochure from Minnesota Mutual for your consideration. This is a voluntary insurance program and if you desire coverage please advise us at the time of signing your mortgage papers.

We will notify you upon receipt of mortgage papers in our office.

Sincerely,

A handwritten signature in cursive script that reads "D L McKinley".

ANALYSIS By Jim Johnson 2-16-83

TRANSFER APPLICANT PROPOSES TO
Remove 2 hts from lands w/in S. 31
and divert full amt of rights on land
in S. 6.

There are several existing rts. on
lands w/in S. 31. That have a
groundwater source but different
wells.

Rights 47-2554 & 47-2557 Irrigate lands
in both Sec 31 & Sec 6. The transfer
will not irrigate new lands but will
increase the rate of diversion per acre
on lands in Sec. 6 & 7 ^{in sec.} lands will continued
to be irrigated by remaining rts. in

TRANSFER Approval will probably not result
in expansion SINCE No new lands are irrigated
and the transfer will not exceed a rate
of diversion of 0.02 cts/ac. when reduced.

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 26299 are due not later
than April 19, 1961.

Before these proofs can be made, the statutory requirement is that a notice of
your intention of proof be published once a week for four consecutive weeks in
a newspaper within the county in which the land is located. In completing the
Notice of proof for publication, the information should be taken from your Per-
mit, including any amendments made in connection with a change of point of diver-
sion or land list which has been recorded in this department. If changes have
been made and no amendments are on record, we advise that you request a form
for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to
this department at least forty (40) days before the above mentioned date,
(allowing for four weeks publication). Please give the name of the town, the
address of the place where the depositions will be executed, and, the name of
notary public before whom you will appear to make the depositions of proof
(this may be at any place convenient for you and your two witnesses), the
quantity of water filed; for what purpose it is used; the point of, or points of
diversion; and the location of use or the lands which are irrigated -- all by
legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice
published in the designated county newspaper at your expense. This is to be
returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms
for the depositions of holder and two disinterested witnesses. It is important
that the depositions be executed at the time, on the date set, at the place
named and before the notary public, as advertised in the publication notice.

Ans. I am acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit G-26299 - 4/19/56; date of priority - 4/17/56

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. This is all gravity irrigation & my main ditches are all capable of carrying 200" and my pipeline is capable of carrying 200". From my well, going south, I have 1400'-10" steel pipeline w/valves to take off into my laterals. The rest of the ditches are of earth construction. Well was drilled to depth of 800', water stands at 100' & pumps from 300'. Well is 18" for 500' & rest is 12". Equipped w/10" discharge pump & 200 hp turbine type motor. Under free flow, I feel this will pump 200". It has been measured at 168" if all the water is going through the pipeline which has a friction loss when all the water goes that way. (Idaho Power Co. measured this with a weir.)

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is for irrigation in T12S-R19E., B.M., Sec. 31, Lots 1 (19.81) 2 (19.92), 3 (20.03), 4 (20.14), NE $\frac{1}{4}$ NW $\frac{1}{4}$ (40), SE $\frac{1}{4}$ NW $\frac{1}{4}$ (40), NE $\frac{1}{4}$ SW $\frac{1}{4}$ (40), SE $\frac{1}{4}$ SW $\frac{1}{4}$ (40); T12S-R19E., B.M., Sec. 6, Lots 3 (39.97), 4 (20.14), 5 (20.10), NE $\frac{1}{4}$ SW $\frac{1}{4}$ (40), SE $\frac{1}{4}$ SW $\frac{1}{4}$ (30); SW $\frac{1}{4}$ SE $\frac{1}{4}$ (36); Sec. 7, NW $\frac{1}{4}$ NE $\frac{1}{4}$ (38), NE $\frac{1}{4}$ NW $\frac{1}{4}$ (30), SE $\frac{1}{4}$ NW $\frac{1}{4}$ (30), NE $\frac{1}{4}$ SW $\frac{1}{4}$ (26), NW $\frac{1}{4}$ SE $\frac{1}{4}$ (28), SW $\frac{1}{4}$ NE $\frac{1}{4}$ (38). There is no natural meadow and all improvements have been a direct result of this use.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. This well was drilled by Edward Ginder at Kimberly, Idaho

G26299

JB

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This is used for irrigation purposes only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. This water is spread just as thin as possible; I could use more water.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. This permit was assigned to me by Margaret E. Gray; Rt. 2, Hansen, Idaho

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This development was started right after the permit was issued and was put to use for irrigation all of last year.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Permit #21153 was issued to Mack Gray for a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 6, T12S-R19E., B.M. and for a well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7, T12S-R19E., B.M. I also have Rock Creek water here - 60" of 1882 water and I have some flood water too that varies with the amount that is available. I think we have another right here from Rock Creek that has a priority date somewhere in the 1890's. These are the only water rights we ever use, and all of them together don't make an inch to the acre, (except when I get alot of flood water.)

Also Permit #G-28305 was issued to me and I am taking proof on this at the same time. This irrigates the same lands that this Permit does.

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 26299 are due not later
than April 19, 1961.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
