Diagram illustrating the steps of the bubble sort algorithm on the array [15, 40, 30, 40, 30]:

- Step 1: 15 and 40 are compared. Since 15 < 40, they remain in their positions.
- Step 2: 40 and 30 are compared. Since 40 > 30, they are swapped. The array becomes [15, 30, 40, 40, 30].
- Step 3: 30 and 40 are compared. Since 30 < 40, they remain in their positions.
- Step 4: 40 and 30 are compared. Since 40 > 30, they are swapped. The array becomes [15, 30, 30, 40, 40].
- Step 5: 30 and 40 are compared. Since 30 < 40, they remain in their positions.
- Step 6: 40 and 40 are compared. Since 40 = 40, they remain in their positions.

The final sorted array is [15, 30, 30, 40, 40].

ATTENTION: Mr. Edward H. Heap

Dear Mr. Heap:

We have your letter of October 5th with enclosures as stated in connection with the above numbered permits.

We note, however, that Mr. Stephan's depositions on both permits fail to include the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 15 which is included in the permits and also in the published notices.

We think this is an oversight because the witnesses all describe 280 acres in Section 15 which would include the NE $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, and SE $\frac{1}{4}$ of the Section.

Upon your authorization we shall be glad to correct these depositions to include this additional 40.

ATTENTION: Mr. Edward H. Heap

Dear Mr. Heap:

In reply to your letter of July 28th, in reference to the above numbered permits in the name of Robert W. Stephan, Trustee, if the wells have ever produced the water and it was put to Beneficial Use, you should have taken the depositions.

Depositions should be taken for the greatest amount of water put to use under the permit, even though it is greater than the amount filed upon.

Under state statutes there is a check required in regard to any permit being brought to license. An inspection and report is required to be made by this Department on all such permits. This report serves as a basis for ironing out any irregularities.

If the permit holder and witnesses can truthfully say that the water has been produced and used beneficially the proof will be accepted, but the depositions should be accompanied by your affidavit stating that your office was open at the time set for proof in the published notice, that no protests were filed and that the taking of the proofs was postponed until the later date.

Otherwise it may be necessary to republish and take the proof at a later date.
