Attention Mr. W. R. Nutting

Dear Mr. Nutting:

In replying to your letter of August 27 it is first necessary to explain that our research is based on the deduction that you referred to licensed permits filed on or owned by Mr. W.A. Coiner. However, after a permit has matured to a license this office does not as a rule record any other matter, ownership or otherwise. Hence, our records do not show any permits under the name of Coiner Land & Livestock Co.

Therefore, our search was limited to eight licensed permits enumerated on the attached exhibit "A". At present there is no well defined trend indicated in regards to water level in this area. No doubt great changes have taken place since licenses were issued which could have changed the amount of water available.

Schedule "A" refers to the list of 10 questions in your letter.

The cost of this research is \$10 for which you may send a check to this office at your earliest convenience.

Very truly yours,

CARL E. TAPPAN

Attention Mr. W. H. Nutting

Dear Mr. Nutting:

In replying to your letter of August 27 it is first necessary to explain that our research is based on the deduction that you referred to licensed permits filed on or owned by Mr. W.A. Coiner. However, after a permit has matured to a license this office does not as a rule record any other matter, ownership or otherwise. Hence, our records do not show any permits under the name of Coiner Land & Livestock Co.

Therefore, our search was limited to eight licensed permits enumerated on the attached exhibit "A". At present there is no well defined trend indicated in regards to water level in this area. No doubt great changes have taken place since licenses were issued which could have changed the amount of water available.

Schedule "A" refers to the list of 10 questions in your letter.

The cost of this research is \$10 for which you may send a check to this office at your earliest convenience.

Very truly yours,

Dear Mr. Coiner:

Reference is made to your Application for Permit sent us by Mr. Frank L. Stephan on August 25, 1950, for the diversion of 3 second feet of water from a well in Lot 4, Section 30, Township 11 South, Range 19 East, B.M., which application has been held up awaiting a complete check of your other filings in the same locality.

As you know, these prior filings have been fully checked and Licenses issued, covering amounts from several wells, and we are making amended application to take the place of the one filed last August. We find the correct location of this well to be in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ (or Lot 3) of Section 30 and that it is capable of producing approximately 170 inches of water.

The land to which this water has been made appurtenant is the S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 24, N $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ and E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 25, Township 11 South, Range 18 East, B.M., and Lots 3 and 4, Section 30, Township 11 South, Range 19 East, B.M.

Since these lands already have water rights under Licenses Nos. 20280 and 20281, we can allow an additional 167 inches from this new well, the filing fee for which will amount to \$5.75. We are therefore returning Mr. Stephan's check for \$5.50 in order that you may replace it with one for \$5.75. *To Stephan*

I will call on you the next time I am in your neighborhood to go over the matter with you personally.

Very truly yours,
