Permit No. 22010

Mr. Summer on place
Examination for Completion of Works
and Beneficial Use
County Twin Falls

S. 33 - 115 - 19E

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

N^o 4759

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 4th day of May, 1953, at Twin Falls, County of Twin Falls, State of Idaho, before Leonard H. Jacob, proof will be submitted of the completion of works for the diversion of 3.20 cubic feet per second of the waters of subterranean source, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 22010 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Harry Wohllaib, Route 2, Twin Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.20 cubic feet per second.

3. The use to which said water has been applied is for irrigation and domestic purposes, and the amount applied to beneficial use is 3.20 cubic feet per second.

4. The place where said water is used is Northwest Quarter (NW $\frac{1}{4}$) of Section Thirty-three (33), Township Eleven (11) South, Range Nineteen (19) East of the Boise Meridian.

5. The date of priority which said user is prepared to establish is March 31, 1951.

MARK R. KULP,

State Reclamation Engineer

Publish: April 8, 15, 22, 29, 1953

22010

I, June Lee, being first duly sworn upon oath depose and say that I am Principal Clerk of the TIMES-News, published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice or advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for

4 consecutive Wednesdays, commencing with the issue dated April 8, 1953, and ending with the issue dated April 29, 1953.

And I do further certify that said newspaper is a consolidation, effective Feb. 16, 1942, the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-News, since such consolidation, has been published as a daily paper except Saturday, under said name in said city and county continuously, and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code Thursday of each week has been designated as the day on which legal notice required by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Subscribed and sworn to before me this June 30th day of

April, 1953.

Al Anderson
Notary Public in and for the County of Twin Falls,
State of Idaho, residing at Twin Falls, Idaho.

RE: Permit No. 22010

Mr. Harry Wohllaib
Route 3
Twin Falls, Idaho

Dear Mr. Wohllaib:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 22010 shows that your well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 33, Township 11 South, Range 19 East B.M. will deliver 70 inches of water; that you have irrigated 160 acres in the NW $\frac{1}{4}$ of said section.

Certificate of Completion of Works and License can therefore be issued for 1.4 second feet of water upon receipt of the statutory fees which amount to \$5.00 for Certificate of Completion of Works and \$8.00 License fee, the latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Re: Permit No. 22010

Gentlemen:

Enclosed herewith are the following documents relative to subject water permit, which is in the name of Harry Wohllaib:

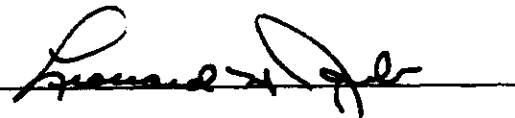

Affidavit of publication
Deposition of holder
Deposition of witness, R. S. High
Deposition of witness, S. A. High

Mr. Wohllaib has advised us that his well has recently plugged up to some extent, and it will be necessary to clean out the well next fall after the irrigation season. If it is convenient for your office, it is requested that the inspection be made either late in the fall or early next spring, since it would not have been necessary to make proof of completion of works until April of 1954.

Any consideration you might extend to Mr. Wohllaib would be appreciated.

Very truly yours,

SMITH & JACOB

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Harry Wohllaib, Route 3, Farmer, Twin Falls, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 22010 and dated March 31, 1951 with date of priority April 7, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean source with well located approximately 1250 feet from the SE corner of the Northwest Quarter, located in SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 33-11-19.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Water raised by pump and capable of delivering approximately 3 cubic feet per second of water. Well is approximately 740 feet deep, 12" inches in diameter at top and 8" at bottom. Pump is powered by 50 h.p. electric motor. Well is not cased. Water is 230 feet from top but drops. Pump will deliver approximately 3 cubic feet per second of water, and same was measured by instruments when installed.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes over the entire 160 acres in the Northwest Quarter of section 33. The land has been under cultivation for the past two seasons and row crops have been grown. Land was desert land which was cleared for cultivation. Land is level with no rocks. A house has been built on the premises since the well was drilled and pump installed.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3.2 cubic feet of water will be necessary to properly irrigate the premises covered in the permit.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the original applicant and permit holder.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water has been disbursed over the entire 160 acres during the growing seasons of 1951 and 1952. Water was disbursed by means of ditches and feeder ditches from the well and pump.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water, other than a little waste water from the neighbors which came on the place.

(Sign) _____

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Twin Falls, County of Twin Falls, State of Idaho, on this 4th day of May, A. D. 19 53,

My commission expires May 15, 1956.

Lawrence J. Paul
Notary Public for Idaho
Residence: Twin Falls.

22010

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 22010

Proof of Application of Water to Beneficial Use
Deposition of Witness *and Completion of Works*

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. S. A. High, age 58, dealer in pumping equipment, 1716 Kimberly
Road, Twin Falls, Idaho.

Ques. 2. Are you acquainted with Harry Whallaib, the
holder of Permit No. 22010? How long have you known him and where does
he reside?

Ans. Yes. He resides on the northwest edge of Twin Falls,
Twin Falls County, Idaho.

Ques. 3. Have you read or heard read said Permit No. 22010, and are you
familiar with its provisions and conditions?

Ans. yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Subterranean source, well located in southeast quarter of North-
west quarter of Sec. 33, twp 11, S, R 19 E.B.M. Well is 740 feet deep,
and 12" diameter narrowing down to 8 inches. Electrical driven pump,
which is 50 h.p. Water is conveyed over area by means of feeder ditches.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Will safely carry approximately 3 cubic feet per second,
and have seen approximately 3 cubic feet per second conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. Have seen approximately 3 cubic feet per second of water
delivered by the pump and this was estimated. I based this on my
experience as a pump man in watching the amount of water delivered
and spread over the ground area.

22010

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation purposes, and used over the entire 160 acres as set out in the permit. Land had been desert land which was ~~burned and cleared for cultivation~~. Some land leveling had been done and a house has been built on the premises. Ditches and feeder ditches have been installed, all as the result of the use of the water. All land is cultivated and crops were raised on land in 1951 and 1952.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land was level with no rocks, with good soil for agriculture purposes. 3.2 cubic feet per second of water is necessary for irrigation purposes.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I installed the pump and since that time for more than two years, have been on the premises on numerous occasions and have seen the crops grow and have seen the water from the well applied to beneficial use on the land.

(Signed) _____

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 4th day of May, A. D. 1953.

Permit No. 22010

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R.S. High, age 35 of 1716 Kimberly Road, Twin Falls, Idaho.

Ques. 2. Are you acquainted with Harry Wohllaib, the holder of Permit No. 22010? How long have you known him and where does he reside?

Ans. Yes, and he resides on the edge of Twin Falls, Twin Falls County, Idaho.

Ques. 3. Have you read or heard read said Permit No. 22010, and are you familiar with its provisions and conditions?

Ans. yes, and I am acquainted with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean source and well located in the southwest part of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of 33-11-19 E.B.M. Water is surfaced by means of a pump, which is ~~also~~ powered by a 50 h.p. electric pump. Well is a little over 700 feet deep, 12" in diameter at the top and narrowing to 8" at the bottom. Water is spread over land area by means of ditches and feeder ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will safely conduct approximately 3 cubic feet per second of water and I have seen approximately 3 cubic feet per second used.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver approximately 3 cubic feet per second of water. I base this amount from my experience as a pump dealer and distributor and have seen the water from the well spread over the land area set out in the permit.

22010

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water is used for irrigation purposes and on the entire 160 acres
Ans. as set out in the permit. All the 160 acres have been under
cultivation for the past two years. A house has been built on the
premises, the pump has been installed and ditches and feeder ditches
have been constructed to carry the water over the land area.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil is good for agriculture purposes. Land was desert land
until well drilled and pump installed and cleared for purposes of
raising row crops. 3.2 cubic feet per second of water necessary.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I helped install the pump and since that time have been on
the premises on numerous occasions for the past two years or more.
I have seen crops growing and harvested on the entire 160 acre tract.
I have also seen the pump disperse the water which was used over
the entire area.

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 4th day of May, 19 53, at Twin Falls, County of Twin Falls, State of Idaho, before Leonard H. Jacob, proof will be submitted of the completion of works for the diversion of 3.20 cubic feet per second of the waters of subterranean source, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 22010 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Harry Wohlschlag.
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.20 cubic feet per second.
3. The use to which said water has been applied is for irrigation and domestic purposes, and the amount applied to beneficial use is 3.20 cubic feet per second.
4. The place where said water is used is Northwest Quarter (NW1) of Section Thirty-three (33), Township Eleven (11) South, Range Nineteen (19) East of the Boise Meridian.
5. The date of priority which said user is prepared to establish is March 31 April 7, 1951.
