Dear Mr. Stivers:

As you requested in your letter of February 29, 1972, we have entered the assignment form in the file for the above referenced license. However, we do wish to remind you that once a permit is licensed, we have no procedure to change the name on the license. A licensed water right will remain with the land unless the right was specifically withheld in the sale of the land.

If you should have any questions concerning this matter, please feel free to contact this Department.

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Works and~~ Application of Water to Beneficial Use under Permit No. 21848. The proofs are to be made at 10:00 o'clock A.M., on the 3rd day of January, 1963, before James Hall, 233 Shoshone St., N., Twin Falls, Idaho, Notary Public.

As of this date we have mailed the Notice to the Kimberly Advertiser Kimberly, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

DEPARTMENT OF RECLAMATION

Re: Permit No. 21848

Date: Nov. 1, 1961

Woma Wilton Creed & J. Woodson Creed
550 Cindy Drive
Twin Falls, Idaho

Dear Mr. & Mrs. Creed:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 21848 is due not later than January 5, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Noma Milton Creed & J. Woodson Creed
194 Tyler Street
Twin Falls, Idaho

Boise, Idaho

Dear ~~Mr.~~ **Mr. & Mrs. Creed**

Under the terms of your permit No. 21848 you are required to complete your diversion works on or before January 5, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Dear Mrs. Creed:

Reference is made to your letter of April 29 inquiring as to the status of Permit No. 21848 in the name of Norma Milton Creed and J. Woodson Creed.

In regard to the amendment to location of the well, we returned your application for such amendment on November 25, 1953, for the reason stated that since the Permit already described one well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 21, Township 11 South, Range 18 East B.M. and since the new location was in the same 40, amendment was not necessary.

On January 12, 1954, we sent you the forms in connection with the notice for pr of of completion of works and beneficial use but as you may have misplaced these, we are enclosing other forms.

Before these proofs are made, notice must be published once a week in Twin Falls County and this notice should be made in duplicate on Form 36 setting the time and place and naming the Notary Public before whom the proofs are to be made.

The proofs may be made at Twin Falls or any place convenient for you and your two witnesses and the time must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper. Reference to our files shows that you suggested the Kimberly Advertiser. This newspaper will be all right, or any other newspaper in Twin Falls County.

Reclamation Department,
Office of State Engineer,
Boise, Idaho;

Dear Sir;

I am not yet clear as to the status of our water right on place described in Permit 21848, from Record Book 78. The land is 160 A. 11 South 19 East B.M. Section 21 - the S. W. $\frac{1}{4}$ of the Section. The permit was filed January 5, 1951. (application #29567)

I inquired in May, 1953 about amending the location of wells and that Amendment was signed by us on November 23, 1953 and received at your office November 24, 1953. Now in looking it over I see that in one place I mis wrote the number as 21818. At the bottom the usual signature of Mr. Kulp is lacking. Should I send this back to you?

Some time later I assumed we needed more paper work, such as a statement by a witness, plus advertising in a local paper. You send some forms for this purpose as I recall but it is still not clear to me. Will you, please, repeat and re-send any necessary forms? Thank you.

The irrigation well has been successful and we have now drilled a domestic well. Will enclose a chart but locations are same as shown on amendment. The well driller chose to drill on other than the high spot, struck good water and we take it by dike to higher areas.

Thank you for your patience with me.

Dear Mrs. Creed:

We have your post card stating that you wish the forms for use by neighbors or tenants to fill out to prove up on the well under Permit No. 21848.

If you will refer to office letter addressed you on January 12, 1954, you will note that before this proof is made, notice must be published once a week for four weeks in a county newspaper.

RE: Permit No. 21848

Mrs. J. Woodson Creed
194 Tyler Street
Twin Falls, Idaho

Dear Mrs. Creed:

In reply to your letter of January 8, 1954, we enclose the necessary forms for notice of Completion of Works and Beneficial Use on Permit No. 21848.

Form 36 should be made out in duplicate stating the time and place and naming the Notary Public before whom the proofs are to be made.

The proofs may be made at Twin Falls or any place convenient for you and your two witnesses and the time must be set sufficiently far ahead to allow for four weeks publication prior to the date set for proof.

Both copies of form 36 to be returned to this Department together with form 11 which is your authorization for us to have the notice published at your expense in the ^{designated} county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the necessary forms of deposition to be used in making these proofs.

Very truly yours,

Dear Mrs. Creed:

We return your application for amendment to Permit No. 21818 for the reason that while you give the subdivision of the point of diversion you do not give the section, township and range.

However, on referring to your previous letter in regard to this change you mention Permit No. 21818 (Application No. 29567). Our records show that the permit issued under Application No. 29567 is Permit No. 21848 and not 21818, and we further find that Permit No. 21848 describes 2 wells, one in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ and one in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 21, Township 11 South, Range 19 East, B.M., so it will not be necessary to make an amendment if the well as drilled is actually located in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said section.

Dear Miss Anderson,

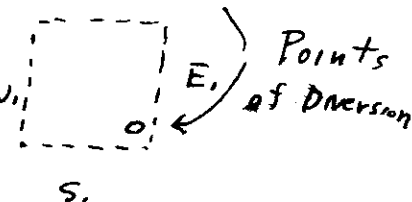

Your conclusions above are correct. The only difference would be that on the map the location of well is slightly different — as map is filed — SE $\frac{1}{4}$ SW $\frac{1}{4}$ section 21 —

We need to correct or amend -
Water Permit #21818 (application # 29567)

The points of diversion ~~are~~ now incorrect. The well driller insisted on drilling in the S.E. corner of the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 21, altho it was not the highest point of land. The well was successful, drawing about 110 inches and water is carried by a dike along that east boundary to the point of ^{northern} diversion shown on our original application.

No present plan for a domestic well, so it could remain as shown. New diagram should look thus.

Will you advise if this takes a fee?

Dear Mrs. Creed:

Both of your special delivery letters reached us about noon today. The one enclosing your application to appropriate 3.2 second feet of water from wells, which, according to the plat and according to your letter of December 21, are located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 21, Township 11 South, Range 19 East, B.M., although this is not so stated in Question 4 of the application.

We note your statement that you feel you did finish the filing on or about October 6, 1950, and in referring to your undated letter received October 5, we note that you did answer Questions 12, 13 and 15, but the application itself was not enclosed, nor was it received until today.

Even yet, the application has not been signed and we return it herewith, with the request that you sign it on the line indicated on Page 3.

In regard to your priority, we cannot give you an earlier priority than the date the application reaches this Department. Your letters giving the information do not take the place of the formal application itself.

Dear Miss Anderson;

I am distressed at the delay in this filing for water right. A letter concerning this came to us after being mis directed to Nampa. We sincerely hope our original filing date is still effective. I'll review the correspondence.

On October 2, 1950 - after noon -
I mailed the following to you.
Request for water right - 160 in or 3.2
Source - Subterranean flow from well or wells
Use - Irrigation and domestic purposes.
Estimated Cost \$10,000 Kind of work, well
or wells - pumps and ditches.

SW 1/4 of Section 21
Township 11 S - Range 19 E
E B. M.

x - well - irrigation
⊗ - well - domestic
Enclosed check for \$575

Within a day I had heard from you concerning an earlier filing and you pointed out the need for additional information. (See Permit # 21737 on Idaho ^{Desert} 01493)
I supplied the requested additional information on permit # 21737 and also enclosed in that same letter the additional information on SW 1/4 - Section 21 Township 11S - Range 19E

Thus I feel we did finish the filing on or about October 6, 1950.

Now I'll repeat the added information sent Oct 3 or 4.

12 - Time required ----- Five (5)

13 - Time " ----- Six (6)

15 - Existing H₂O rights ----- none -----

Enclosed is the blank you sent for the same additional information, plus the chart included in my first letter.

Thank you.
