Dear Mr. Creed:

We received the legal notices in duplicate with authorization for publication.

The legal notice for Permit No. G-27953 is in order with the deletion of Creed Concern, Inc., as Noma M. Creed is the holder of the permit.

The legal notice for Permit No. 21737 also shows Creed Concern, Inc. which must be deleted. It also shows land in Section 5, Township 12 S., Range 19 E., and Section 32, Township 11 South, Range 19 E., which is not in our record of the permit. That land must be deleted or you can amend the permit to include that land on the enclosed form.

You can also assign the permits on the enclosed forms if you want the certificates in the name of Creed Concern, Inc.

Kindly reply promptly or the date for making the proofs will have to be advanced. There is a recording fee of \$1.00 for each amendment and \$0.50 for each assignment.

Very truly yours,

Re: Permits No. G-26055
21737

J. Woodsen and Noma M. Creed
550 Cindy Drive
Twin Falls, Idaho

Dear Mr. Creed:

Your letter of October 12 shows you have a well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 32, T. 11 S., R. 19 E. which you want to use under this permit for domestic use in an amount of 1 cubic foot per second.

Your permit shows only irrigation as the use of the water. That much water is an excessive amount for domestic use as the usual amount allowed is one miner inch or one fiftieth of a second foot of water. Are you actually using one cubic foot per second of water for only domestic use?

You are irrigating the SW $\frac{1}{4}$, Sec 32 from across the road. We assume that must be wells under Permit No. 21737. The wells being in SE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 12 S., R. 19 E. A Certificate of Completion of Works was issued October 21, 1957 for 6.4 cubic feet per second from those wells to irrigation 320 acres in Sections 6 and 7. If those wells produce over 6.4 cubic feet per second you can amend Permit No. G-26055 point of diversion to include one of the wells in Section 6. Permit No. 21737 can be amended to include irrigation of the land in SW $\frac{1}{4}$, Section 32, which is probably the method you should follow. We cannot advise without knowing how much water is produced from your wells and what land can be irrigated.

You have Permits G-27953 in Section 5 and 21737 in Section 6, T. 12 S., R. 19 E.; G-26055 in Section 32 and 21680 in Section 33, T. 11 S., R. 19 E. besides two other isolated 160 acre tracts.

Kindly advise at your earliest convenience and the forms will be sent to you.

Very truly yours,

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 21737 as amended Aug. 14, 1952.

That one point of diversion is described in said permit as being located in SW Corner of the NE¹ NE¹ Section 7 - 12 S - 19 E.

That he now requests that the point of diversion be changed to a point located in SE Corner of the SE¹ SE¹ Section 6, 12 S - 19 E.

That his reasons for desiring to make such change are as follows: drilling in former location proved unsuccessful, so rig needs to come lower to avoid crevices.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

RE: Application for Transfer #4412

Dear Mr. Uhlig;

I have finally been contacted by the Winding Brook Corporation, the present owner of the property covered by this transfer. I have prepared an amended transfer for the corporation, but the status of the original application needs to be clarified before they can proceed. If you will sign and return the enclosed Relinquishment of Application for Transfer form, we can proceed with this matter. Once this form is received here, we will take action to refund your \$50. filing fee. All future correspondence will then be done with Rodney Moore, the Corporation's Idaho representative.

Thank you for your assistance in this matter.

Sincerely,

James E. Stanton
Sr. Water Resource Agent

MEL,

I AM CURRENTLY WORKING ON SOME CHANGE OF OWNERSHIPS FOR UHLIG RANCH AND I HAVE DETERMINED THERE IS A NUMBER ERROR ON THE BASIN ASSIGNED FOR AN OLDER LICENSED RIGHT.

A45-02306 SHOULD BE A BASIN 47 RIGHT NUMBER. IT LIES WITHIN BASIN 47 BUT HAS NOT BEEN RENUMBERED LIKE SIMILAR LICENSES WERE FROM THAT AREA.

THIS RIGHT IS GOING THROUGH A TRANSFER UNDER #4412 AND SHOULD BE CORRECTED BEFORE THE TRANSFER IS APPROVED. MARY AND I TRACKED THE TRANSFER AND FILES TO YOU, PLEASE LET ME KNOW IF YOU HAVE THE FILES.

AS A SIDE NOTE THERE ARE CHANGES OF THE OWNERSHIP THAT HAVE OCCURRED AND MAY NEED TO BE SHOWN ON THE TRANSFERED RIGHTS ALSO. WE SHOULD PROBABLY COORDINATE THIS EFFORT.

RE: Application for Transfer #4412, Philip C. Uhlig

Dear Sirs;

The above-referenced transfer application covers the former Van Diest property at the mouth of Rock Creek Canyon south of Hansen. While Mr. Uhlig was involved with this property at the time the application was filed, he has informed me that you now own this ground. The purpose of the transfer was to tie all the groundwater rights together in a permissible place of use and also to add a well to the system.

We have been holding this transfer, as I assumed that you would be contacting us. Since it has been several months since you obtained the property, I am writing to you to find out what you want to do with the transfer. If you wish to continue with the proposal, the transfer should be put into your name. If you are no longer interested in pursuing this matter, the transfer needs to be withdrawn. Please contact me at your earliest convenience on this matter.

Thank You,

James E. Stanton
Sr. Water Resource Agent

MAR 28 1995

TO: File SUBJECT: Uhlig Transfer

FROM: Jim Stanton DATE: 9-28-93

This transfer was originally filed by Randy Bauscher as operator of the new p/u. This was incorrect, however, as Phil Uhlig actually owns the property described in Part 1. The water to be transferred has been leased for the last 2 years from Flora Larsen, who formerly owned the original p/u. The original p/u was sold, but this water right was retained by Mrs. Larsen. The original p/u is still irrigated with other water rights. I prepared this transfer in consultation with Mr. Bauscher & Mr. Uhlig. The permissible place of use was described based on my field inspection of the ground; a dot grid overlaid on the aerial photos determined the acreage distribution. Mr. Uhlig told me that he straightened this all out with Mr. Bauscher, so I do not plan to contact Bauscher. The original Bauscher transfer is not in the file now. Since Uhlig does not own the water right or the original p/u, I'm not sure what proof of ownership is required. The former watermaster allowed this lease situation to happen without proper documentation. I verified with the county assessor that Mr. Uhlig bought this property on 7-13-93, which is a week before Bauscher filed the original transfer. The original P/U in Sec. 25 (about 84 acres south of the High Line Canal) is still mostly irrigated with late-priority Rock Creek rights, but will be mined for gravel over a long period of time by owner Keith Sligar. Irrigation of this land will gradually decrease as the grain fields are dug up to get at the underlying gravel (about 12 acres have already been dug up). Except for about 20 acres that Uhlig may irrigate in the future, this transfer does not represent an increase in the amount of irrigated land. Except for the 20 acres, all the other land is already irrigated. Mr. Uhlig made the decision to add the additional 20 acres to the land list.

SUBJECT: Whlig Groundwater Transfer

FROM: Jim Stanron

DATE: 5-6-94

I examined the property under this system last year as part of Transfer #4250. The actual
place of use of this system will be found in that file. Since this new transfer does not
seek to change the place of use, we probably don't need to worry about it at this time.
In this system, the surface and groundwater rights on this farm co-mingle in a pond and/or
common mainline in order #4 to sprinkle the entire farm and to provide as much flexibility
in system operation as possible. This is a permissible place of use for all rights involved.

Dear Mrs. Creed:

Our field engineer's report on his inspection of proof of beneficial use of water under the terms of Permit No. 21737 shows the wells are capable of conveying 166.5 miner's inches of water for domestic use and irrigation of 258 acres.

Upon receipt of the statutory fee of \$16.00, based at the rate of \$2.00 for each 40-acre subdivision, we will issue the License and Certificate of Water Right, confirming the right with priority of October 5, 1950, to the use of 3.33 c.f.s. of subterranean water for domestic use and irrigation of 258 acres with the points of diversion in SE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6 for irrigation of 258 acres in the NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, S $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 7, T. 12 S., R. 19 E., E.M. Dear Mr. Creed:

We received the legal notices in duplicate with authorization for publication.

The legal notice for Permit No. G-27953 is in order with the deletion of Creed Concern, Inc., as Norma M. Creed is the holder of the permit.

The legal notice for Permit No. 21737 also shows Creed Concern, Inc. which must be deleted. It also shows land in Section 5, Township 12 S., Range 19 E., and Section 32, Township 11 South, Range 19 E., which is not in our record of the permit. That land must be deleted or you can amend the permit to include that land on the enclosed form.

You can also assign the permits on the enclosed forms if you want the certificates in the name of Creed Concern, Inc.

Kindly reply promptly on the date for making the proofs will have to be advanced. There is a recording fee of \$1.00 for each amendment and \$0.50 for each assignment.

Will you kindly advise the status of the following  
well permits in Twin Falls and Cassia Counties as to  
whether proof has been completed and water licenses  
issued:

Permit No. 21737 in the name of J. Woodson Creed *BL - Oct 15, 1963*  
Permit No. G-27953 in the name of Noma M. Creed *May 28, 1964*

If licenses have not been issued, when will the time  
for filing proof expire?

Yours very truly,

Mrs. Noma M. Creed

Twin Falls, Idaho

Dear Mrs. Creed:

We have the report of the field engineer on Permit No. G-26055, Well No. 7, in SW $\frac{1}{4}$ NE $\frac{1}{4}$ , Section 6, Twp. 12 S., Rge. 19 E., S. F., drilled under Permit No. 21737. One-eighth of the production of this well was assigned to land under Permit No. G-26055, 11/25 to land under Permit No. G-27953, with the balance to land in Section 6, under Permit No. 21737.

The report shows all of the water from this well is pumped through a 10" pipe to the NE $\frac{1}{4}$ NE $\frac{1}{4}$ , Section 5, T. 12 S., R. 19 E., S. F. to irrigate land under Permit No. G-27953 and to the SW $\frac{1}{4}$ , Section 32, T. 11 S., Rge. 19 E. to irrigate land under Permit No. G-26055. None going to the NE $\frac{1}{4}$ , Section 6 under Permit No. 21737. This well was measured at 2.7 cubic feet per second, or 135 miners inches.

Well No. 10, NW $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 5, drilled under Permit No. G-27953 irrigates land in Section 5; also land in Section 6 under Permit No. 21737. This well is not shown under Permit No. 21737. The flow from the well was measured at 70 miners inches. This well was measured due to a misunderstanding that the proofs were to be made in the near future.

This leaves our records on these three permits in a wonderful state of confusion.

We suggest that you should make the necessary proofs under Permits No. 21737 and G-27953 as soon as possible. We should be able to arrive at some solution with the three reports of the water and lands under the three permits

This report will be filed to wait for the other reports, if we do not hear otherwise from you.

Very truly yours,

Dear Mrs. Creed:

Enclosed are approved amendments to point of diversion for Permits G-26055 and G-27953, and the amendment to place of use of the water under Permit No. 21737. Photo-copies are in our file and the changes have been recorded. Two photo-copies of the change in point of diversion for Permit G-27953 and the amendment to the land list under Permit 21737 are being sent to the Bureau of Land Management with a copy of this letter.

You have four irrigation wells:

Well No. 7, SE $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 6, T. 12 S., R. 19 E., produces 200 inches of which 25" goes to SW $\frac{1}{4}$ , Sec. 32, T. 11 S., R. 19 E., 11/25 or 58" goes to NE $\frac{1}{4}$ SW $\frac{1}{4}$ , Sec. 5 and 87" remains in NE $\frac{1}{4}$ , Sec. 6.

Well No. 9, NW $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec. 6, produces 80" to irrigate the land in Sec. 6.

Well No. 8, SE $\frac{1}{4}$ SE $\frac{1}{4}$ , said Sec. 6 produces 90" of which 2/9 or 20" goes to W $\frac{1}{2}$ SW $\frac{1}{4}$ , Sec. 5 and 70" remains on Sec. 6 and 7.

Well No. 10, NW $\frac{1}{4}$ SW $\frac{1}{4}$ , Sec. 5, produces 75" for Sec. 5, under Permit No. G-27953

Total inches from four wells 455.

Permit G-26055, 130 acres in SW $\frac{1}{4}$ , Sec. 32, T. 11 S., R. 19 E. will have 25" from well in SE $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 6, T. 12 S., R. 19 E. plus your waste water, about 75", from Sec. 5 and Sec. 6.

Permit No. 21737, 260 acres in NE $\frac{1}{4}$ , NE $\frac{1}{4}$ SE $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec. 6; NE $\frac{1}{4}$ NE $\frac{1}{4}$ , Sec. 7, will have 237" from wells #7, 8, and 9, plus waste water.

Permit No. G-27953, 190 acres in NE $\frac{1}{4}$ NE $\frac{1}{4}$ , SW $\frac{1}{4}$ NW $\frac{1}{4}$ , W $\frac{1}{2}$ SW $\frac{1}{4}$ , Sec. 5, will have 183" from wells No. 7, 8 and 9.

making a total of . . . . . acres.

That an additional amount of water is not asked for, and that the rights of others  
will not be adversely affected by such change.

Signed at Twin Falls this 23rd . . . day of February, 1961  
J. Woodson Creed . . . . .

Date of receipt at office of Department of Reclamation . . . February 24, 1961 . . . . .

## APPROVAL OF STATE RECLAMATION ENGINEER

I, Geo. N. Carter, State Reclamation Engineer of the State of Idaho, hereby approve  
the above and foregoing application for amendment to Permit to appropriate the Public  
Waters of the State of Idaho, No. 21737 . . . . . This approval constitutes a new permit  
and is issued as an amendment to the original permit, to which it refers, and of which  
it becomes a part, and said application is approved only insofar as the rights of others  
will not be adversely affected thereby.

Re: Permits No. 21680; 21737; G-26055  
G-27953

Mrs. Noma M. Creed  
194 Tyler Street  
Twin Falls, Idaho

Dear Mrs. Creed:

You relinquished Permit No. 21681 on July 31, 1959

Permit 21737 is for 6.4 c.f.s to irrigate your land in Sections 6 and 7. Points of diversion on your permit checks the wells shown on your map. Production from the three wells, Nos. 7, 8 and 9, will total 370 inches according to your plans. From Well No. 7 you will use 25 inches to land under Permit No. G-26055 and 88 inches to land under Permit No. G-27953, which will also get 20 inches from Well No. 8. A total of 133 inches will be used on other land, leaving 237 inches under Permit No. 21737.

Permit G-26055 will have only 25 inches from Well No. 7 plus waste water from higher land for land in Section 32.

Permit G-27953 will have 75 inches from Well No. 10, 88 inches from Well No. 7 and 20 inches from Well No. 8 or a total of 183 inches for land in Section 5.

Permit No. 21680 will have the water from the well in  $SE\frac{1}{4}SW\frac{1}{4}$ , Sec. 33, for which you have a Certificate of Completion of Works for 1.5 c.f.s., plus your waste water from Section 5. Beneficial use of the water is due August 31, 1961.

The above checks your summary of the water.

To accomplish this our records must be amended.

Permit No. G-26055 amend the points of diversion to show well you drilled and 0.5 c.f.s from well in  $SE\frac{1}{4}NE\frac{1}{4}$ , Sec. 6, T. 12 S., R. 19 E.

Permit No. G-27953 amend the points of diversion to show  $NW\frac{1}{4}SW\frac{1}{4}$ , Sed. 5; 1.76 c.f.s from  $SE\frac{1}{4}NE\frac{1}{4}$  and 0.4 c.f.s from  $SE\frac{1}{4}SE\frac{1}{4}$ , Sec. 7, T. 12 S., R. 19 E.

21737

February 10, 1961

Permits 21680 and 21737 will not have to be amended.

The amendment forms are simple. The existing points of diversion are the points shown on your permit, if they have not been changed by prior amendments. The points you wish to use go on the next blank line as indicated on the form. Reason for the amendment could be "better distribution of water".

This plan will work very satisfactory as long as these lands are operated as a unit. If later sold to different parties, there may be an argument about the water from Wells No. 7 and 8 if the production does not remain at the quantities you have proposed. Instead of the definite amount of water it might be better to show  $2/9$  of the water from Well No. 8 to Section 5,  $1/8$  of the water from Well No. 7 to Section 32 and  $11/25$  to Section 5.

Kindly complete the amendments to Permit G-26055 and enclose with the completed Forms 36 and 11 at your earliest convenience before that permit is cancelled. Forms 36 and 11 relate to the legal notice of intention to make proof of completion of works and beneficial use of the water.

Dear Mr. Creed:

Your letter of October 12 shows you have a well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ , Section 32, T. 11 S., R. 19 E. which you want to use under this permit for domestic use in an amount of 1 cubic foot per second.

Your permit shows only irrigation as the use of the water. That much water is an excessive amount for domestic use as the usual amount allowed is one minor inch or one fiftieth of a second foot of water. Are you actually using one cubic foot per second of water for daily domestic use?

You are irrigating the SW $\frac{1}{4}$ , Sec 32 from across the road. We assume that must be wells under Permit No. 21737. The wells being in SE $\frac{1}{4}$ NE $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$ , Sec. 6, T. 12 S., R. 19 E. A Certificate of Completion of Works was issued October 21, 1957 for 6.4 cubic feet per second from those wells to irrigation 320 acres in Sections 6 and 7. If those wells produce over 6.4 cubic feet per second you can amend Permit No. G-26055 point of diversion to include one of the wells in Section 6. Permit No. 21737 can be amended to include irrigation of the land in SW $\frac{1}{4}$ , Section 32, which is probably the method you should follow. We cannot advise without knowing how much water is produced from your wells and what land can be irrigated.

You have Permits G-27953 in Section 5 and 21737 in Section 6, T. 12 S., R. 19 E.; G-26055 in Section 32 and 21600 in Section 33, T. 12 S., R. 19 E. besides two other isolated 160 acre tracts.

Kindly advise at your earliest convenience and the forms will be sent to you.

Dear Mr. Creed:

We are in receipt of your letter of January 6th, stating that you are proving up on your Desert Entry with the Bureau of Land Management and you requested of this department a copy of the water permit to be sent to the Bureau of Land Management.

In taking the matter up with the Bureau of Land Management, you find out exactly what they required of you in order to complete your proofs, and they advised us that they had all the necessary information regarding your water right in connection with your Desert Entry. However, if anything comes up that the Bureau of Land Management requires additional information, we will be glad to furnish such information.

Dear Sir;

Will you, please, send from your office a statement or duplicate copy concerning Water Permit # 21737 that pertains to Idaho Desert Filing # 01493? Notify me, please, if there is a fee for this service.

Am proving up or showing final proof to-day on this Desert Entry.

As you may recall, because of the early date on this Permit I needed to show only Completion of Work by the five year deadline of October 15 1957. We can soon show Beneficial Use on this permit as all is going well with this development.

Thank you. Send your paper to Bureau of Land Management, Boise, Idaho.

Re: Permit No. 21737

Mr. J. Woodson Creed  
194 Tyler Street  
Twin Falls, Idaho

Dear Mr. Creed:

Enclosed is the application for amendment to Permit No. 21737 which changed the points of diversion as described in the original permit to read: NW $\frac{1}{4}$ SE $\frac{1}{4}$ , SE $\frac{1}{4}$ SE $\frac{1}{4}$  and to include a new point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ , all in Section 6, Township 12 South, Range 19 East, B.M.

This amendment was approved and signed by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 78 of Permits at Page 21737. It should now be attached to the original permit to which it refers and of which it becomes a part.

Very truly yours,

APPLICATION FOR AMENDMENT  
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS  
OF THE STATE OF IDAHO, NO. 21737

RECEIVED  
SEP 5 1957  
Department of Reclamation

Comes now J. Woodson Creed and represents to the State Reclamation Engineer of the State of Idaho;

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 21737.

That the point of diversion is described in said permit as being located NW $\frac{1}{4}$ SE $\frac{1}{4}$  and SE $\frac{1}{4}$ SE $\frac{1}{4}$  of Sec. 6., Twp. 12 S., Rge. 19 E., B.M.

That he now requests that the point of diversion be changed to <sup>include</sup> a new point located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$  of Sec. 6., Twp. 12 S., Rge. 19 E., B.M.

That his reasons for desiring to make such change are as follows:  
To complete water needs for the total 320 acres

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Boise, Idaho, this 5th day of September 1957

**PROOF OF COMPLETION OF WORKS**

Mr. J. Woodson Creed  
194 Tyler St.  
Twin Falls, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21737 you are required to complete your diversion works on or before October 15, 1957. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

RECEIVED  
AUG 10 1956  
Department of Reclamation

Comes now J. Woodson Creed and represents to the State  
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public  
Waters of the State of Idaho, No. 21737 as amended Aug 14-1952

That <sup>one</sup> ~~the~~ point of diversion is described in said permit as being  
located <sup>in</sup> SW corner of the NE  $\frac{1}{4}$  NE  $\frac{1}{4}$  Section 7-12S-19E

That he now requests that the point of diversion be changed to a  
point located <sup>in</sup> SE corner of the SE  $\frac{1}{4}$  SE  $\frac{1}{4}$  Section 6-12S-19E

That his reasons for desiring to make such change are as follows:

drilling in former location proved unsuccessful,  
so rig needs to come lower to avoid crevices

That no one will be injured by such change, and that such change  
will be made at Permit Holder's own risk.

Dept of Reclamation  
Boise Idaho,  
Dear Sir;

Concerning Permit # 21848, for  
land SW  $\frac{1}{4}$  Section 21, Township 11 South,  
Range 19 East, B. M. We wish to  
comply with Section XII - Session Laws <sup>1951</sup>  
Chapter 200. May we, please, have  
the form on which to do this?

Concerning Permit # 21680 for  
land SW  $\frac{1}{4}$  Section 33 Township 11 South,  
Range 19 East B.M. We have completed  
more than  $\frac{1}{5}$  of work as required  
before Feb 28 1953. At present we  
receive sufficient waste water under  
a permit filed in your office. However,  
we must go deeper on our well if  
this supply should lessen or cease.  
Therefore we do not wish completion  
form for this land. Is a form  
provided when we ask extension of  
the original five year permit? If so,  
please, send that form now.

21737

Concerning Permit #21737 on Desert Filing #Idaho 01493. Permission to "go on the land" was granted Oct 15, 1952. A detailed survey has been made by a licensed engineer so all irrigation slope is known and is available on a map. In April 1953 a well drill was moved into position and before May 9, 1953 a 12" hole was down 150 feet. At 385 the hole was decreased to 10" and is to-day at 500 feet. The 150 a. to first receive water has been cleared, plowed and 100 acres of it grew one crop of dry land wheat. Is a form necessary to report the above which we estimate is easily the one fifth of development promised?

Concerning Permit #24016 on Desert Filing - Amended #Idaho 01437 It has been slow to receive action by the Bureau of Land Management. Not until June 29, 1953 did I receive a letter. It was from Portland office and said I'd hear "after irrigating season of '53". To-day, not having yet heard I have written them. However,

should I meanwhile fill out some form to show your office "why" I did not start work ~~July~~ 23, 1953? If so, please, send necessary papers.

Concerning Waste Water rights on above filing — Permit #22119 — work to start July 28, 1951. It has to do with the same Circumstance — I await action by the Land Bureau. Please advise how it may be extended.

Concerning Permit #23167 on Land in Owyhee County — "Work to begin on or before December 24, 1952". The government has held all that land pending Bombing Permits. Naturally no one can meet those stated deadlines. Is there something he should request — an extension?

We appreciate your prompt reply this week which included copy of New Idaho laws. We had no desire to miss any deadlines but were un-informed until now.

Most Sincerely  
Mrs J. Woodson Creed

Dear Mr. Creed:

We have your letter of June 30th, and note your request for certain changes in the location of the wells, and the land, as described in the above numbered permit.

In order to make these changes it will be necessary to file an application for amendment, and we enclose a form for such application. If this meets with the conditions, you may sign and return same, for approval and record in connection with Permit No. 21737.

We can then furnish Mr. Paul Shepherd, of the Idaho Land and Survey Office, with two copies of the approved amendment (one certified) to be used in connection with your desert entry.

There is no fee in connection with the amendment application, but there will be a fee of \$2.00 for the copies for the Land and Survey Office.

Dear Mr. Creed:

We enclose a form of application for permit to appropriate the public waters of the State of Idaho, which we have partially filled out in accordance with your memorandum received this morning.

This memo does not state the location of the wells, but we have indicated same under Question 4, as shown on the little sketch which you enclosed. If this is not right, please make necessary corrections.

Please answer Questions 12, 13 and 15, and sign on the line indicated on the third page.

The correct filing fee on this amount of water is \$6.50, being at the rate of \$5.00 for the first second foot (or 50 inches), and 25 cents for each additional second foot or fraction thereof. This, in addition to the \$2.50 for the two certified copies for the Land Office, will total \$9.00

We therefore return your check for \$8.25 and request that you substitute for it one for \$9.00.
