State of Idaho
License and Certificate of Water Right

Water License No. 21668

Amount 2.52 second feet

Water District No.

Priority August 19, 1950

THIS IS TO CERTIFY that FLOYD V. & MERLEN STANGER
of Hansen, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated August 19, 1950; that Permit No. 21668
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3.2 second feet, was issued thereunder on March 23, 1954, showing that said works
were completed on the 16th day of March, 1954; and that on the 15th
day of February, 1955,

FLOYD V. & MERLEN STANGER

of Hansen, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of three wells
, tributary of (subterranean flow), for the purpose of irrigation and dom-
estic use, under Use Permit No. 21668 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5599, on the 8th day of November, 1955;

The right hereby confirmed dates from August 19, 1950;

The Points of Diversion are located in the SW 1/4 SW 1/4 and

in the SE 1/4 SW 1/4 Sec. 28, Tp. 11 S., R. 19 E., B. M. / Boise County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2.52 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
11 S.	19 E.	28	NE 1/4 SW 1/4	40	40
			NW 1/4 SW 1/4	40	40
			SW 1/4 SW 1/4	40	40
			SE 1/4 SW 1/4	40	40
			Number of Acres Actually Irrigated		

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

8th day of November, 1955.

MARK R. KULP

State Reclamation Engineer.

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 29378
PERMIT No. 21668
DISTRICT No.

1. Name of Applicant **FLOYD V. STANGER and MERLEN STANGER**

Postoffice address: **Hansen**

County: **Twin Falls**

State: **Idaho**

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(b) Treasury stock:

(d) Other resources: **Real Estate \$28,000.00**

(a) Cash on hand: **Approx. \$10,000.00**

(c) Bonds to be issued:

2. Quantity of water claimed: **3.2**

cubic feet per second.

3. Source of water supply: **Subterranean flow from three wells** which is a tributary of

4. Location of point of diversion: **See Remarks**

feet distant from the

corner of Section , T. , R. , B. M., and is in the **SW¹₄**

of Section **28** , T. **11 S.** , R. **19 E.** , B.M., County of **Twin Falls**

5. Water is to be used for **Irrigation and domestic purposes.**

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: **\$15,000.00**

8. Kind of works: **Three wells, pumps and open irrigation ditches.**

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom **3** feet; width at water line **3** feet; depth of water **1** feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile **gentle slope** feet.

12. The time required for the completion of such work is **Three (3)** years.

13. The time required for the complete application of the water to the proposed use is **Two (2)** additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**

16. (a) Is reservoir to be used? If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

FLOYD V. STANGER *Applicant.*
MERLEN STANGER *Agent.*

Date of first receipt at Department of Reclamation: 9:00 A. M. August 19, 1950

RE: Permit No. 21668

RECEIVED
NOV 4 1955
Department of Reclamation

Messrs. Floyd V. & Merlen Stanger
Hansen
Idaho

Gentlemen:

The report of our field engineer on examination for beneficial use on Permit No. 21668 shows that your three wells in the SW¹/₄SW¹/₄ and SE¹/₄SW¹/₄ Section 28, Township 11 South, Range 19 East, B.M. will deliver 126 inches of water which has been used to irrigate 160 acres in the SW¹/₄ of this Section.

Therefore, upon receipt of the statutory license fee of \$8.00 a license can be issued for 126 inches or 2.52 second feet of water.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21668This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant Floyd V. & Merlen Stanger
2. Source of water supply: Subterranean from three wells
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ (2) of Section 28
T. 11 S. R. 19 E. County of _____
4. Describe works as they exist, giving dimensions and capacities of same: Three wells: Irrigation is by gravity. Well # 1: 40 hp U. S. Motor, No. 951505. Layne Bowler Turbine Pump No. 20237. Delivery is to the North through a short pipe into an open ditch. Water measured at 41" through a Sparling Meter. Well # 2: G. E. 40 hp Motor, No. 1 GJ 6873063. Layne Bowler Turbine Pump No. 16087. Water measured at 45" through Sparling Meter. Well # 3: 40 hp G. E. Motor No. TGJ 6873062. Layne Bowler Turbine Pump No. 16086. Delivery to the South through 6" by 10' steel pipe into an open ditch. Water was not measured because it was practically impossible to measure. Estimated at 40". Water in all of these wells stands at approximately 145'. And the lift on all pumps is approximately 270' or more.
5. Water is used for: Irrigation and domestic purposes
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Southwest Quarter Section 28, Twp. 11 South, Range 19 East, B. M.See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Messrs. Stephan, Stephan and Heap
Bank and Trust Building
Twin Falls, Idaho

ATTENTION: Mr. Edward H. Heap

Dear Mr. Heap:

We have your letter of February 19 enclosing depositions of Floyd V. Stanger and Merlen Stanger, also two witnesses and affidavit of publication in the Twin Falls Times News all in proof of beneficial use on the above numbered Permits.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made but our field engineer will try and contact Messrs. Stanger at the time he makes the examination so that arrangements may be made to show him over the grounds.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21668

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. W. H. PEARSON, age 29 years - residence and postoffice address - R.F.D. 2, Hansen, Idaho - occupation irrigator.

Ques. 2. Are you acquainted with Floyd V. Stanger and Merlen Stanger, the holder of Permit No. 21668? How long have you known him and where does he reside?

Ans. Yes, I have known them for about 7 or 8 years. They reside at Hansen, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21668, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. Subterranean water from 3 wells. Place of diversion at the 3 wells. Well #1 - 50 ft. north and 80 rods east from SW ~~Ans.~~ corner SW $\frac{1}{4}$ Sec. 28; Well #2 - 50 ft. north and 50 ft. west from SE Corner; Well #3 - 50 ft. west and 60 rods north from SE corner of SW $\frac{1}{4}$ Sec. 28-11-19. Works consist of pumps electrically driven on the three wells and open ditches for conveying water to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will safely convey more than 160 inches of water and I have seen about 160 inches of water being so conveyed to place of use.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount? I have seen the pumps deliver: On Well #1 approximately 54 inches; Well #2 approximately 51 inches and Well #3 approximately 55 inches. I estimated the flow from my experience in irrigating and measuring irrigation water.

21667

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use. All of the water from said wells is used for irrigation of 40 acres of NW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres of NE $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres ~~Ans. of SW $\frac{1}{4}$ SW $\frac{1}{4}$ and 40 acres of SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 28-11-19.~~ All land is cultivated land - none is natural meadow land. Land has been converted from sage-brush covered land to cultivated land irrigated by gravity. Improvements consist of 2 residences, potato cellar, granaries, hen-house, feed yards and fencing.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is lava-ash soil and needs at least one inch to the acre of water for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All the water from Wells #1 and #2 has been used for irrigation of the above described land for the irrigation seasons of 1951 and all subsequent irrigation seasons. Well #3 has been pumped and all water used from it during the irrigation season of 1954. I have seen the water so diverted and used on many occasions during said irrigation seasons on the above described lands.

(Signed) W. H. Pearson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, Idaho, County of Twin Falls, State of Idaho, on this 15th day of February, A. D. 1955.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 21668

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. ^{EVERA} MORGAN, age 55, residence and post office address R. F. D. 2, Kimberly, Idaho. Occupation farmer.

Ques. 2. Are you acquainted with Floyd V. Stanger and Merlen Stanger, the holders of Permit No. 21668? How long have you known him and where does he reside?

Ans. Yes, I have known them for about 30 years. They reside at Hansen, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21668, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. Subterranean water from 3 wells. Place of diversion at the 3 wells. Well #1-50 ft. north and 80 rods east from SW corner SW 1/4 Sec. 28; Well #2-50 ft. north and 50 ft. west from SE corner Well #3-50 ft. west and 60 rods north from SE corner of SW 1/4 Sec. 28-11-19. Works consist of pumps (electric) on the three wells and open ditches for conveying water to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will safely convey more than 160 inches of water and I have seen 160 inches of water being so conveyed to place of use.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

I have seen the pumps deliver: On Well #1 approximately 55 inches; Well #2 approximately 51 inches and Well No. 3 approximately 55 inches. I estimated the flow from the pumps from my experience in irrigation and measuring water. I have had about 40 years of experience in irrigating and measuring water for irrigation.

21668

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use. All of the water from said wells is used for irrigation of 40 acres of NW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres of NE $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres ~~Ans.~~ of SW $\frac{1}{4}$ SW $\frac{1}{4}$ and 40 acres of SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 28-11-19. All land is cultivated land - none is natural meadow land. Land has been converted from sagebrush covered land to cultivated land irrigated by gravity. Improvements made by reason of said wells are: 2 residences, potato cellar, feed yard, granaries, hen-house and fencing.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is lava-ash soil and needs at least one inch to the acre of water for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All the water from Wells #1 and #2 has been used for irrigation of the above described land for the irrigation seasons of 1951 and all subsequent irrigation seasons. Well No. 3 has been pumped and all water used from it during the irrigation season of 1954. I have seen the water so diverted and used on many occasions during said irrigation seasons.

(Signed) Evera Morgan

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, _____, County of Twin Falls _____, State of Idaho, on this 15th day of February _____, A. D. 1955.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 21668

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE.

DEPOSITION OF HOLDERS

Ques. 1. State your names, residences, occupations and post office addresses.

Ans. FLOYD V. STANGER and MERLEN STANGER; residence - Hansen, Idaho; occupation - farmers - postoffice addresses - Hansen, Idaho.

Ques. 2 Does not apply

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. #21668 dated August 21, 1950, date of priority - August 19, 1950.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean flow of water from three wells. Well #1 is located 50 feet north and 80 rods east from the Southwest corner of the SW $\frac{1}{4}$ of Sec. 28; Well No. 2 is 50 feet north and 50 feet west from the Southeast corner of SW $\frac{1}{4}$ Sec. 28; Well No. 3 is 50 feet West and 60 rods north of the SE corner of SW $\frac{1}{4}$ Section 28-11-19. Water is diverted at location of wells.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well #1 is 585 feet deep, has a 12 inch hole to 350 feet and an 8 inch hole balance; no casing; depth to water 140 feet; 260 feet of 6-inch column with 9 stages of 10 inch bowls, 10 feet of suction pipe; produces 54 inches of water measured over a weir. Well #2 is 485 feet deep, has a 12 inch hole to 350 feet and an 8-inch hole to 485 feet, no casing; depth to water 140 feet; 270 feet of 6-inch column; 9 stages of 10 inch bowls and 10 feet of suction pipe; produces 51 inches of water measured over a weir. Well #3 is 500 feet deep, has a 12-inch hole and no casing; depth to water 140 feet; 270 feet of 6-inch column and 9 stages of 10-inch bowls and 10 feet of suction pipe; produces 55 inches of water measured over a weir. Works are capable of conducting to place of use more than 160 inches of water. Private ditches are used for conveying water to place of use.

21668

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All these wells have been used in irrigating 40 acres of the NE $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$ and 40 acres in SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 28-11-19. All of said land is cultivated land and none is natural meadow land. Land was converted from sagebrush covered land to cultivated land irrigated by gravity; improvements consist of 2 residences, potato cellar, feed yards, granaries, hen-house and fencing.

Ques. 7 - does not apply

Ques. 8. What is the minimum amount of water required for the purpose specified above.

Ans. One inch to the acre.

Ques. 9. - does not apply

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Wells 1 and 2 have been used for the total amount produced for irrigation seasons of 1951 and subsequent crop irrigation seasons. Well No. 3 has been used during the irrigation season of 1954. All water produced from said wells has been used for said purposes.

Ques. 11 - does not apply.

NOTICE OF PROOF APPLICATION FOR
WATER TO BENEFICIAL USE

NOTICE IS HEREBY GIVEN that ten o'clock A. M. on the 15th day of February, 1955, at Twin Falls, County of Twin Falls, State of Idaho, before Edward H. Reap, Notary Public, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of subterranean flow from three wells in accordance with the terms and conditions of Permit No. 21668 heretofore issued by the State Reclamation Engineer of the State of Idaho; and of the application to beneficial use of 1.6 cubic feet per second of the subterranean waters from two wells in accordance with the terms and conditions of Permit No. 21669 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The names and post office addresses of the persons holding said permits are: Floyd V. Stanger and Merlen Stanger, Hansen, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use under Permit No. 21668 is 3.2 cubic feet per second and the amount applied to beneficial use under Permit No. 21669 is 1.6 cubic feet per second.

The places where said water is used is: Under Permit No. 21668—Southwest Quarter (SW $\frac{1}{4}$) of Section 28, Township 11 South, Range 19 E. B. M.; Under Permit No. 21669—North Half of the Southeast Quarter (N $\frac{1}{2}$ SE $\frac{1}{4}$) of Section 18, Township 11 South, Range 19 E. B. M.

The name of the canal or ditch or other works by which said water is conducted to such places of use is: Privately owned ditches and pipe lines.

The right to take water from such works is based upon Permits numbered 21668 and 21669.

The source of supply from which such water is diverted is: Under Permit numbered 21668 three wells: Well No. 1—50 feet north and 80 rods east from the SW corner SW $\frac{1}{4}$ Section 28; Well No. 2—50 feet north and 50 feet west from the SE corner SW $\frac{1}{4}$ Section 28; and Well No. 3—50 feet west and 60 rods north from SE corner SW $\frac{1}{4}$ Section 28; all in Township 11 South, Range 19 East, B. M. Under Permit numbered 21669: Well No. 1—60 rods west and 20 rods north of the SE corner of N $\frac{1}{2}$ SE $\frac{1}{4}$; Well No. 2—50 feet west and 20 rods north of the SE corner of N $\frac{1}{2}$ SE $\frac{1}{4}$; all in Section 18, Township 11 South, Range 19 East, B. M.

The date of priority which said users are prepared to establish is: August 19,

I, Mable F. Clark, being first duly sworn upon oath depose and say that I am Principal Clerk of the TIMES-NEWS, published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice or advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for

four consecutive Wednesdays, commencing with the issue dated January 19, 1955, and ending with the issue dated February 9, 1955.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily paper, except Saturday, under said name in said city and county continuously, and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code Thursday of each week has been designated as the day on which legal notice required by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Mable F. Clark

RE: Permits Nos. 21668 - 21669

Messrs. Stephan, Stephan and Heap
Twin Falls Bank and Trust Co. Bldg.
Twin Falls, Idaho

ATTENTION: Mr. Edward H. Heap

Dear Mr. Heap:

Reference is made to your letter of January 12 enclosing notice for Beneficial Use on the above numbered permits in the names of Floyd V. and Marlan Stanger.

It will be all right to combine the notices for both permits and we are sending a copy of same to the Twin Falls Times News with instructions to publish it once a week for four weeks prior to February 15 and to send the applicants the affidavit of publication together with statement of costs.

It will be necessary to submit separate proof on each of these permits and we enclose the forms herewith to be executed by the permit holders and two witnesses for each permit.

We have corrected the location of Well No. 1 in the Certificate of Completion of Works on Permit No. 21668 and have also corrected our record and we return the certificate of Completion of Works herewith.

Very truly yours,

MARK A. KULP
State Reclamation Engineer

January 12, 1955

HONORABLE MARK R. KULP
State Reclamation Engineer
Capitol Building
Boise, Idaho

Dear Mr. Kulp:

Att. Mrs. Jeanne Anderson
Re: Permits 21668-9
Floyd V. Stanger and
Merlen Stanger

We are enclosing herewith Form No. 11 signed by the above named holders requesting your department to publish notice of proof of beneficial use of water under the above numbered Permits in the Times-News.

We are also enclosing herewith in duplicate:

Notice of Proof Application of Water to Beneficial
Use on Permit 21668

Notice of Proof Application of Water to Beneficial
Use on Permit 21669

Notice of Proof Application of Water to Beneficial
Use on both Permits 21668 and 21669 which we have
taken the liberty of preparing

In the event the two notices may be combined will you please do so as it will save some expense to the Stangers. If, however, your department would prefer that the notices be published separately we have prepared such notices.

While preparing the Notices in question we find that there is a typographical error in the Certificate of Completion of Works issued by your department March 23, 1954 on Permit No. 21668. Our proof showed that Well No. 1 was located 50 feet north and 80 rods east from the SW corner of SW $\frac{1}{4}$ Section 28 and the Certificate states Well No. 1 is 50 feet north and 80 rods west from the SW corner of SW $\frac{1}{4}$ Section 28. Would you please check the records on that Permit and correct the error on the enclosed Certificate and return to us.

Thanking you, we are

Very truly yours,
STEPHAN, STEPHAN AND HEAP

PERMIT No. 21668

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

P R O O F O F C O M P L E T I O N O F W O R K S

AFFIDAVIT OF HOLDERS

STATE OF IDAHO,)
) SS.
COUNTY OF TWIN FALLS,)

FLOYD V. STANGER and MERLEN STANGER, being each duly, severally sworn, upon their oath, depose and say:

First: That they are the owners and holders of Permit to Appropriately the Public Waters of the State of Idaho No. 21668, and that their post office address is Hansen, Idaho.

Second: That the name of the stream from which said water is to be diverted is underground water lying below the surface of the lands described in the Application for Permit numbered 21668.

Third: That the point of diversion of said water is:
Well No. 1 (described on plat filed with Application for Permit No. 21668 as Well No. 2) located 50 feet north and 80 rods east from the Southwest corner of Southwest Quarter (SW $\frac{1}{4}$) of Section 28, Township 11 South, Range 19 E. B. M.

Well No. 2 (described on plat filed with Application for Permit No. 21668 as Well No. 1) located 50 feet north and 50 feet west from the Southeast Corner of said Southwest Quarter (SW $\frac{1}{4}$) of said Section 28.

Well No. 3 located 50 feet west and 60 rods north from the Southeast corner of said Southwest Quarter (SW $\frac{1}{4}$) of said Section 28.

Fourth: That under the terms and conditions of said Permit construction thereunder was required to be completed by August 21, 1953. That under date of August 26, 1953, Honorable Mark R. Kulp, State Reclamation Engineer of the State of Idaho granted an extension of time for completion of said works from August 21, 1953 to August 21, 1954.

Fifth: That the use for which said water is intended is irrigation and domestic.

Sixth: That Well No. 1 and Well No. 2 were both completed in April of 1951. That Well No. 3 was completed February 23, 1954. That the works consist of the following:

Well No. 1 is a drilled well 585 feet deep with a 12 inch hole to 350 feet, and an 8 inch hole the balance of the depth. Said Well has no casing. Depth to water is 140 feet. Said Well is equipped with a 40 H.P. Electric motor, 260 feet of 6 inch column, 9 stages of 10 inch bowls, 10 feet of suction pipe. Said well produces 54 inches of water measured over a weir. Said water produced from said well is conveyed to place of use by open ditches.

21668

Well No. 2 is a drilled well 485 feet deep with a 12 inch hole to 350 feet, and an 8 inch hole the balance of the depth. Said well has no casing. Depth to water is 140 feet. Said Well is equipped with a 40 H.P. Electric motor, 270 feet of 6 inch column, 9 stages of 10 inch bowls, 10 feet of suction pipe. Said well produces 51 inches of water measured over a weir. Said water produced from said well is conveyed to place of use by open ditches.

Well No. 3 is a drilled well 500 feet deep with a 12 inch hole and no casing. Depth to water is 140 feet. Said Well is equipped with a 40 H.P. Electric motor, 270 feet of 6 inch column and 9 stages of 10 inch bowls, 10 feet of suction pipe. Said well produces 55 inches of water tested through a testing device used by Layne & Bowler Corporation, Twin Falls, Idaho, commonly known as an Orifice. Water produced from said well is conveyed to place of use by open ditches.

Seventh: That said works are capable of conducting to the place of intended use at least 160 inches of water, or 3.2 cubic feet per second of water.

Eighth: That water appropriated under said permit is available for irrigation of 160 acres of land described as follows: Southwest Quarter (SW $\frac{1}{4}$) of Section Twenty-eight (28), Township Eleven (11) South, Range Nineteen (19) E. B. M., Twin Falls County, Idaho.

Ninth: Remarks: That the wells hereinabove described, located and constructed in accordance with Permit No. 21668, have been thoroughly tested and it has been determined by the undersigned owners that said wells will deliver a constant flow of water for irrigation and domestic purposes as hereinabove stated. The water from Wells numbered 1 and 2 have been used for irrigation during the crop seasons of 1951, 1952 and 1953.

RE: Permit Nos. 21668 and 21669

Messrs. Stephen, Stephen and Heap
Twin Falls Bank and Trust Co. Building
Twin Falls, Idaho

Attn: Mr. Edward H. Heap

Dear Mr. Heap:

We enclose Certificate of Completion of Works issued on Permit No. 21669 in the name of Floyd V. and Merlen Stanger for the diversion of one and six-tenths (1.6) second feet of water from two wells in the N $\frac{1}{2}$ SE $\frac{1}{4}$ Section 18, Township 11 South, Range 19 East, B.M. for irrigation and domestic use on the same subdivisions.

We also enclose Departmental Receipt No. 26151 for the \$5.00 fee paid in connection with Completion of Works proof.

We also enclose Approval of the State Reclamation Engineer of the application of Floyd V. and Merlen Stanger for Extension of Time for Completion of Works on Permit No. 21668 to August 21, 1954.

This should be attached to the original permit of which it now forms a part.

Permit No. 21668

Application for Extension of Time

FOR COMPLETION OF WORKS

FLOYD V. STANGER and MERLEN STANGER each duly severally of Hansen, Idaho
 State of Idaho, being ~~jointly~~ sworn, upon his oath deposes and says:
 They are ~~the owners~~ the owners and holders of Permit to Appropriate the Public Waters of the State of Idaho
 No. 21668

Under the terms and conditions of said permit, construction work thereunder was required to be completed by August 21, 19 53

That he has heretofore performed the following work described under said permit: Well No. 1 described in said Permit was completed in April of 1951 - it is 585 feet deep, is equipped with a 40 H.P. Electric Layne and Bowler centrifugal Pump -- has 280 feet of 6" pump column and 7 stages of bowls. Said well produces 56 inches of water. Well has a 12" hole; Well No. 2 described in said Permit was also completed in April of 1951. It is a 12" hole - 470 feet deep, and is equipped with a 40 H.P. Electric Layne and Bowler centrifugal pump -- has 280 feet of 6" pump column and 7 stages of bowls. Well produces 56" of water; both wells costing \$ 12,022.00.

THAT he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

Petitioners are unable to complete the third well covered by said Permit on account of lack of finances at this time.

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the completion of construction work under said permit, to August 21, 19 54.

Subscribed and sworn to before me this 21st day of August, 19 53

My commission expires 11--24--1955

Edward H. Heap Notary Public.
 Residing at Twin Falls, Idaho.

No. 21668
Floyd V. Stanger and
Merlen Stanger

The above numbered permit was approved by your Department on August 21, 1950. Under the Permit the undersigned proposed to Drill and construct three wells for the production of 3.2 cubic feet per second of water for the irrigation of the Southwest Quarter (SW $\frac{1}{4}$) of Section Twenty-eight (28), Township Eleven (11) South, Range 19 E. B. M., Twin Falls County, Idaho. Said Permit required the whole of said work for the appropriation of said water to be completed on or before August 21, 1953 and beneficial use to be made on or before August 21, 1955.

With regard to said Permit the undersigned respectfully submit that two wells under said permit were completed in April of 1951 and were used during the crop season of 1951 and 1952 and are now being used. The third well has not yet been drilled because of lack of funds. The two wells completed so far produce 112 inches of water. In all probability the third well can be drilled by next year (1954) and this letter is forwarded to you as a request for extension of time for Proof of Completion of Works.

We could make proof of partial completion on the two wells drilled and now in use, but if your Department prefers to have Proof of Completion made on the three wells at the same time, will you please grant an extension of time for proving completion of works.

Will you please advise us at your early convenience with regard to the above matter, and send a carbon copy of your wishes to Stephan, Stephan and Heap, Box 1127, Twin Falls, Idaho, my attorneys. Thanking you, we are

Respectfully yours,

Floyd V. Stanger
Merlen Stanger

PERMIT NO. 21668

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

AFFIDAVIT FOR EXTENSION OF TIME TO FILE
PROOF OF COMPLETION OF WORKS

AFFIDAVIT OF HOLDERS

STATE OF IDAHO,)
) SS.
COUNTY OF TWIN FALLS,)

FLOYD V. STANGER and MERLEN STANGER, being each duly severally sworn, upon their oath, depose and say:

That they are the holders and owners of Permit to Appropriate the Public Waters of the State of Idaho numbered 21668 and that their Post Office Address is Hansen, Idaho.

That on the 21st day of August, 1950, Honorable Mark R. Kulp, State Reclamation Engineer, issued Permit numbered 21668 to affiants which covered 3.2 cubic feet per second of the subterranean waters produced from three wells proposed to be drilled, Well #1 to be located 50 feet North and 50 feet west from the Southeast corner, Well #2 to be located 50 feet north and 80 rods east from the Southwest corner, and Well #3 to be located 50 feet West and 60 rods north from the Southeast corner, of the Southwest Quarter (SW $\frac{1}{4}$) of Section 28, Township 11 South, Range 19 E. B. M., Twin Falls County, Idaho, all of said wells to be located in said Southwest Quarter of said Section 28, which said Permit required affiants to complete the works on said project by August 21, 1953.

That Wells numbered 1 and 2 were completed in April of 1951 and pumps installed thereon, and affiants are now pumping water from said wells and pumped water from said wells during the crop seasons of 1951 and 1952 and the water produced from said wells was used during the crop seasons of 1951 and 1952 and is now being used for the irrigation of the Southwest Quarter (SW $\frac{1}{4}$) of Section 28, Township 11 South, Range 19 E, B. M. Each well produces 56 inches of water, or a total of 112 inches.

The third well authorized under the above numbered Permit has not yet been drilled because of lack of funds. In all probability affiants will be in a financial condition to drill and equip the third well authorized under said permit by the fall of 1954.

WHEREFORE, Affiants request an expension of time for completion of said irrigation works until some date in the fall of 1954.

Floyd V. Stanger
Merlen Stanger

Hansen
Idaho

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your Permit No. 21668 you are required to complete your diversion works on or before August 21, 1953. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer
