NOTICE OF PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 6th of November, 1951, at the office of Blandford & Blandford, Municipal Building, Kimberly, Idaho, before A. L. Blandford, Notary Public, proof will be submitted of the application to beneficial use of 4.4 cubic feet per second of the waters of two wells, in accordance with the terms and conditions of the following permits issued by the Department of Reclamation of the State of Idaho.

Permit No. 20982, for one cubic foot per second, priority March 17, 1949.

Permit No. 21688, for two cubic feet per second, priority Aug. 31, 1950.

Permit No. G-22309, for 1.4 cubic feet per second, priority Aug. 13, 1951.

The name and postoffice address of the person holding said permits is Mack Gray, Route 2, Hansen, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is 4.4 cubic feet per second.

The place where said water is used is Lots 1, 2, 3, 4, E $\frac{1}{4}$ NW $\frac{1}{4}$ and E $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 11 South, Range 19 East, B. M.

The right to take the water from said wells is based upon Permits Nos. 20982, 21688 and G-22309.

The source of supply from which such water is diverted is two wells, one located in Lot 4 (or the SW $\frac{1}{4}$ SW $\frac{1}{4}$), and one in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 11 South, Range 19 East, B. M.

The dates of priority which said user is prepared to establish are stated above.

APPLICATION FOR AMENDMENT

TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 20982

Comes now Mack Gray, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20982, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows: Lots One (1), Two (2), Three (3) and Four (4), and the East Half of the Southwest Quarter (E $\frac{1}{2}$ SW $\frac{1}{4}$), and the East Half of the Northwest Quarter (E $\frac{1}{2}$ NW $\frac{1}{4}$), all in Section Thirty-one (31), Township Eleven (11) South, Range Nineteen (19) East of the Boise Meridian, situate in Twin Falls County, Idaho, making a total of 240 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Kimberly, Idaho, this 3rd day of August, 1951.

RE: Permits Nos. 20982, 21688, and G-22309

Mr. Mack Gray
Route 2
Hansen, Idaho

Dear Mr. Gray:

We enclose License and Certificate of Water Right issued under Permit No. 20982, confirming your right to the use of one second foot of water from a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 11 South, Range 19 East, B.M., with priority of March 17, 1949, for irrigation and domestic use on Lots 1, 2, 3, 4, and the E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ of said Section 31.

We also enclose Certificate of Completion of Works, and License and Certificate of Water Right issued under Permit No. G-22309, confirming your right to the use of 1.25 second feet of water from the same well with priority of August 13, 1951, for irrigation and domestic use on the same land.

Also License and Certificate of Water Right issued under Permit No. 21688, confirming your right to the use of 1.48 second feet of water from a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 11 South, Range 19 East, B.M., with priority of August 31, 1950, for irrigation and domestic use on the same land.

We have withheld issuance of these several instruments awaiting a decision from the Attorney General in regard to fees for Certificate of Completion of Works on Permit No. G-22309, concerning which Mr. Blandford raised the question as to whether an additional fee was due for said certificate where both proofs were made at the same time.

The opinion from the Attorney General is to the effect that both fees are due and we therefore enclose departmental receipt No. 24827 for the \$5.00 fee for Certificate of Completion of Works under Permit No. G-22309 and departmental receipt No. 24632 for \$16.00 license fees.

RE: Permits Nos. 20982 and G-22309

Mr. Mack Gray
Route 2
Hansen, Idaho

Dear Mr. Gray:

The report of our field engineer on examination for beneficial use under the above numbered permits shows that your well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 11 South, Range 19 East, B.M., will deliver 2.25 cubic feet per second and that you have irrigated 240 acres in the W $\frac{1}{2}$ of said section.

Therefore, upon receipt of the statutory fee of \$16.00, being at the rate of \$2.00 for each legal subdivision in which the land is located, a license will be issued for 1 second foot under Permit No. 20982, with priority of March 17, 1949.

Also 1.25 second foot of water from the same well under Permit No. G-22309, with priority of August 13, 1951.

Mr. A. L. Blandford

Kimberly, Idaho

Dear Mr. Blandford:

We are now in receipt of the affidavit of publication in the Twin Falls Times News, in connection with the above numbered permits.

This completes the proofs but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try contact Mr. Gray at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

NOTICE IS HEREBY GIVEN THAT the Board of Supervisors of the County of Stanislaus, California, has approved the application of the Stanislaus Water Users Association for the application to benefit use of 1.1 cubic foot per second of water of two wells in accordance with the terms and conditions of the following permits issued by the Department of Water Conservation of the State of California:

Permit No. 300000 for 1.1 cubic foot per second, priority from 11, 1943.

Permit No. 31608, for 1.1 cubic foot per second, priority Aug. 11, 1954.

Permit No. G-32969 for 1.1 cubic foot per second, priority from 11, 1951.

The lands and persons in possession of the water holding said permits are Mack Gray, Route 1, Marston, California.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied is beneficial use is 1.1 cubic foot per second.

The place where said water is used is Lot 1, 2, 3, 4, E14 SW1/4, and E14 SW1/4, Section 31, Township 11 North, Range 11 East, R. M.

The source to take the water from said wells is based upon Permit Nos. 30000, 31608 and G-32969.

The source of water from which such water is diverted is two wells situated in Lot 4 (or the SW1/4, SW1/4), and out by the SE1/4 SW1/4, Section 31, Township 11 North, Range 11 East, R. M.

It is hereby ordered that said water be apportioned to the said users.

Witness my hand and the seal of said County at Marston, California, this 10th day of March, 1955.

By _____, County Clerk.

Nº 4032

I, Lisa Maloney, being first duly sworn upon oath depose and say that I am Principal Clerk of the TIMES-News, published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice or advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for

4 consecutive Mondays, commencing with the issue dated October 1, 1951, and ending with the issue dated October 22, 1951.

And I do further certify that said newspaper is a consolidation, effective Feb. 16, 1942, the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily paper except Saturday, under said name in said city and county continuously, and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code Thursday of each week has been designated as the day on which legal notice required by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

RE: Permit Nos. 21688, 20982 and G-22309

Mr. A. L. Blandford
Municipal Building
Kimberly, Idaho

Dear Mr. Blandford:

We acknowledge receipt of your letter of November 7, 1951, enclosing depositions of Mack Gray and two witnesses submitted in beneficial use proof of the above numbered permits.

However, the affidavit of publication is a necessary part of the proofs and if Mr. Gray has not received this affidavit from the Twin Falls Times News, we suggest he take the matter up with them at once.

In regard to the fees in connection with beneficial use proof, no fees are required until after a field inspection has been made and report filed. These fees will be at the rate of \$2.00 for each 40 acre subdivision in which the land is located, and the permit holder will be notified upon the receipt of the field engineer's report.

Since all of Mr. Gray's permits are for use on the same land, one fee will cover it and will probably amount to \$16.00, as the land is located in 8 subdivisions.

Very truly yours,

Gentlemen:

I am enclosing affidavits for proof of application of water to beneficial use in the following permits:

Permit No. 21688	Mack Gray
Permit No. G-22309	Mack Gray
Permit No. 20982	Mack Gray
Permit No. 22005	Malcolm Sawyer

Please advise me of the fee for each permit to complete issuance of the licenses, and I will forward a check to your office for the same. It is my understanding that the fee is \$2.00 for each 40 acre subdivision. In the case of the 240 acres owned by Mack Gray, will this amount to a total of \$12.00 for all three permits or \$12.00 for each permit?

Thank you for your attention to this matter.

Permit No. 20982, as amended.

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Mack Gray; Rock Creek, Idaho; farmer, Route 2, Hansen, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. --

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. 20982, dated March 17, 1949; date of priority March 17, 1949.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean from well located 832 feet West and 6 feet North from SE corner of the SW $\frac{1}{4}$ of Sec. 31, Tp 11 S., R. 19 E.B.M., and in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Depth of well is 1120 feet; no casing; depth to water is 86 feet; water is pumped by 60 H.P. electric motor, discharging 2.4 cubic feet per second (one cubic foot per second under this permit, and 1.4 cubic feet per second under Permit No. G-22309), and was measured by 6" orifice.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes for Lots 1, 2, 3, 4, and E $\frac{1}{2}$ NW $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 31, Tp 11 S., R. 19 E.B.M., a total of 240 acres which have actually been irrigated. The land is cultivated. Improvements consist of clearing the land, drilling well, installing pump, and actual irrigation of land and cultivation of crops.

2048

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. --

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. At least 4.4 cubic feet per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of the water under this permit (1 cubic foot per second) used for irrigation and cultivation of said 240 acres of land, commencing in May, 1950.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Two cubic feet per second under Permit No. 21688 (subterranean from another well); 1.4 cubic feet per second under Permit No. G-22309 (subterranean from this well); and Rock Creek flood water right of 240 inches which is exhausted by June 1st of each year, are all used upon the lands herein described.

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Frank Lundy; 46; Rock Creek, Idaho; Rock Creek watermaster;
Route 2, Hansen, Idaho.

Ques. 2. Are you acquainted with Mack Gray, the
holder of Permit No. 20982? How long have you known him and where does
he reside?

Ans. Yes. I have known him for 30 years. He resides at Rock Creek,
Idaho.

Ques. 3. Have you read or heard read said Permit No. 20982, as amended, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Subterranean from well located 832 feet West and 6 feet North from
SE corner of the SW $\frac{1}{4}$ of Sec. 31, Tp 11 S, R. 19 E.B.M., and in the SE $\frac{1}{4}$ SW $\frac{1}{4}$
of said Section. Water is pumped by electric motor from well and released
into corrugates without use of intervening ditches.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. Works will conduct, and I have seen conveyed from this well, 2.4 cubic
feet per second (one second foot under this permit, and 1.4 under No. G-22309).

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the pump deliver 2.4 cubic feet per second (120 inches).
I was present when the well was tested and saw the water measured by 6"
orifice.

20982

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and domestic purposes for Lots 1, 2, 3, 4, and E $\frac{1}{2}$ NW $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 31, Tp. 11 S., R. 19 E.B.M., a total of 240 acres being irrigated. The land is cultivated. Improvements consist of land being cleared, well drilled, pump installed, and actual irrigation of land and cultivation of crops.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has a slight slope and grade and is of a gravel texture. I estimate that at least 4.4 cubic feet per second of water is required.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. The water was first applied to beneficial use in 1950, to irrigate all 240 acres. The total 1 cubic foot per second of water diverted under this permit, pumped by a 60 H.P. electric motor, is being utilized.

Dear Mr. Blandford:

We enclose the Amendment to Permit No. 20982 in the name of Mack Gray, which has been approved and recorded in this Department.

We also enclose Certificate of Completion of Works issued under this Permit for the diversion of one second foot of water from a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Township 11 South, Range 19 East, B.M., for irrigation and domestic use on Lots 1, 2, 3 and 4, and the E $\frac{1}{2}$ NW $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$ of said Section.

Mr. Gray's application for a new Permit to appropriate one and two-fifths (1 $\frac{2}{5}$) second feet of water from this same well has been placed on file and Permit will be issued within a short while.

Meanwhile, we enclose Departmental Receipt No. 23670 for the \$5.25 fee on the new application and \$5.00 in connection with Completion of Works Proof on Permit No. 20982.

Gentlemen:

I am in receipt of your letter dated July 31, 1951, concerning the Application for Amendment to Permit No. 20982. As requested by your letter, I enclose the new application for amendment. Please issue the Certificate of Completion of Works for the one (1) second foot of water applied for in said Permit No. 20982.

I also enclose a new Application for Permit claiming additional water from the same well mentioned in Permit No. 20982, together with map in duplicate.

As requested in my letter of July 27, 1951, please forward to me four sets of forms for proof of application of water to beneficial use. I understand these forms will include the notice for publication, authority for publication, forms for the proof itself, and forms for the affidavits of two witnesses.

If it is necessary for me to make proof of completion of works under the new application enclosed, please send me the necessary forms. However, I understand that it is necessary only to prove application to beneficial use in the case of water derived from a well.

In my letter of July 27, 1951, I enclosed my personal check for \$5.50 for the following fees: \$0.50 for the additional water claimed by the amendment (which was disallowed), and \$5.00 for examination of works under permit No. 20982. Therefore, I assume I owe you a balance of \$4.75 for the new application enclosed, for which I enclose my check.

Thank you for your attention to this matter. Please send the forms requested at your earliest convenience.

Dear Mr. Blandford:

We acknowledge receipt of your letter of July 27, 1951,
with enclosures as stated.

While an application may be amended to include additional
land, it cannot be amended to include more water than the original
filing. If more water can be developed from the same source, it
will be necessary to file a new application.

We enclose the proper forms of application for amendment
to the land list and also another form of application for Permit.

We can accept the proofs of Completion of Works enclosed
in your letter, after the land list has been amended in accordance
with the new application for amendment enclosed, but Certificate of
Completion of Works can only be issued for the one (1) second foot

Dear Mr. Kulp:

I am enclosing herewith the original Application for Permit to Appropriate the Public Waters of the State of Idaho, No. 20982; two executed copies of an Application for Amendment to said permit, together with two copies of the map; and the necessary affidavit and depositions for Proof of Completion of Works; and a check to cover the necessary fees.

It will be noted that the amendment claims an additional amount of water ($1 \frac{2}{5}$ cubic feet per second). For this reason the amendment is dated July 25, and the Proof of Completion of Works is dated July 26, in order that the proof might cover the additional water applied for in the amendment.

It is my understanding, and the applicant understands, that the additional amount of water claimed, and the right to use it, will date only from the date of the amendment. On page 3 of the Application for Amendment I have left blank part of your approval, as I did not know the wording your office used in such cases. It may be that you will want to substitute another page of your own for page 3.

It is requested that all papers and communications be addressed to me in Kimberly instead of to the applicant.

It will be appreciated if your office will send me the necessary forms for proof of application of water to beneficial use. Three sets of these forms are requested. I understand these forms will include the notice for publication, authority for publication, forms for the proof itself, and forms for the affidavits of two witnesses.

I am enclosing a check in the amount of \$5.50 for the following fees: \$0.50 for the additional water claimed by the amendment, and \$5.00 for examination of works.

It will be noted that by this Permit No. 20982, as amended, Mr. Gray claims a total of $2 \frac{2}{5}$ second feet of water for 240 acres; by Permit No. 21688 he claims 2 second feet for the same 240 acres, making a total of $4 \frac{2}{5}$ second feet for the 240 acres. Mr. Gray has abandoned the well mentioned in Permit No. 20981 and requests

20982

cancellation of Permit No. 20981 if your office has not already done so.

Your attention to this matter is appreciated.

Very truly yours,

Mack Gray, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 20982, and that his postoffice address is Route 2, Hansen, State of Idaho

Second: That the name of the stream which said water is to be directed is (No stream. Water produced from deep well).

Third: That the point of diversion of said water is 832 feet west and 6 feet North of the SE corner of the SW $\frac{1}{4}$ of Section 31, Township 11 S., Range 19 E.B.M., Twin Falls County, Idaho.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 19, 1951, 19.

Fifth: That the use for which said water is intended is irrigation and domestic.

Sixth: That on the date above mentioned, the works constructed under said permit were ~~(xxxxxxxxxx)~~ fully completed and consisted of the following:

I. Kind of works: deep well and electric pumping system.

(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam None feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir None acre feet.

(c) Size of headgate: Width None feet, height feet.

(d) Conduit None width at bottom feet, width at water line

(State whether ditch, flume or pipe)

APPLICATION FOR AMENDMENT
TO PERMIT NO. 20982 TO APPROPRIATE THE
PUBLIC WATERS OF THE STATE OF IDAHO

--:--

Comes now MACK GRAY, Route 2, Hansen, Idaho, and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20982, and requests that said Permit be amended as follows:

That the lands to be irrigated, as described in said Permit be changed to read as follows:

Lots One (1), Two (2), Three (3) and Four (4), and the East Half of the Southwest Quarter ($E\frac{1}{2}SW\frac{1}{4}$), and the East Half of the Northwest Quarter ($E\frac{1}{2}NW\frac{1}{4}$), all in Section Thirty-one (31), Township Eleven (11) South, Range Nineteen (19) East of the Boise Meridian, situate in Twin Falls County, Idaho.

That the estimated cost of works be changed to read \$10,000.00.

~~That the quantity of water claimed be changed from one cubic foot per second to read two and two-fifths ($2\frac{2}{5}$) cubic feet per second, thereby making the additional water applied for by this amendment to be one and two-fifths ($1\frac{2}{5}$) cubic feet per second.~~

~~That the reason for desiring to make such changes is because development of the deep well, from which the water herein applied for is produced, has enabled the applicant to obtain a greater supply of water than first anticipated when the original Application for Permit to appropriate the Public Waters of the State of Idaho was filed on March 19, 1949.~~

That no change has been made in the point of diversion or location of said well; that said well, as indicated by the original Application for Permit, is located upon the above described lands owned by the applicant; that the rights of others will not be

20982

adversely affected by such changes.

That the undersigned applicant is cognizant of the fact that upon approval of this Application for Amendment, the changes correcting the description of the lands to be irrigated, and the change in the estimated cost of works shall be issued as an amendment to the original Application for Permit, and that such changes shall date from the time of the original Permit; ~~that the right to use the amount of water previously applied for under the original Permit (amounting to one cubic foot per second) shall date from the time of the original Permit; but that the right to the use of the additional amount of water applied for under this Application for Amendment (amounting to one and two-fifths cubic feet per second) shall date from the filing of this Application for Amendment to Permit No. 20982 to appropriate the Public Waters of the State of Idaho.~~

Signed at Kimberly, Idaho, this 25th day of July, 1951.

Re: Permit No. 20982

To Mr. Mack Gray
Rt. 2, Hansen, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 20982
to appropriate the Public Waters of the State of Idaho, have not been complied with as to
Completion of works March 19, 1951

you are hereby notified in compliance with Sec. 41-311, Idaho Code, ^{42✓} ~~announced~~ that said Permit No. 20982
is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from
date of this notice why said Permit should not be cancelled.

Said Permit No. 20982 claims the use of One cubic feet per second of the
waters of a drilled well (subterranean) with point of diversion located
in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 31, Twp. 11 S., Range 19 E., B.M.
March 19, 1949
was approved.

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the

20th day of June 19 51

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Mack Gray
Route 2
Hansen, Idaho

Boise, Idaho

January 2, 1951

Dear Sir:-

Under the terms of your permit No. 20982 you are required to complete your diversion works on or before March 19, 1951. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

Dear Mr. Agee:

We enclose Permits No. 20981 and 20982, in the name of Mack Gray, together with Departmental Receipt No. 21372 for the \$10.00 filing fees.

We direct Mr. Gray's attention to the limitations and conditions as given on the 4th page under Approval of the State Reclamation Engineer.

We also enclose several forms of Proof of Completion of Works, as requested.

We note that these applications were filed in duplicate, but that is not necessary, as the original application is returned to the Permit Holder and a record of same made in this Department on a special form provided for that purpose.
