PERMIT NO. 20581

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. T. Nail, age 44, farmer, Hansen, Idaho.

Ques. 2. Are you acquainted with W. B. Savage, the holder of Permit No. 20581? How long have you known him and where does he reside?

Ans. Yes, for over 21 years. He resides at Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20581, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean water. Diverted by deep well and 100 H.P. pump in southeast corner of SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 20, Township 11 South, Range 19 E.B.M. Pump discharges into distribution ditches which carry the water over the 80 acres.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ditches will carry more water than the capacity of the pump mentioned above. I have personally irrigated with the flow from these works. I have seen an estimated 80 inches of water being so conveyed to place of use, and personally put such water to use.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is being used for irrigation of and domestic purposes on E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 20, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho. I have personally irrigated or supervised the irrigation of said lands with such water for the last six seasons. The whole 80 acres has been put into commercial crops. No meadow land included.

20581

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. **Land is of volcanic ash type, well levelled and ditched. The soils are being further built up by approved soil-building practices. Quantity required for profitable cultivation is 1" to the acre.**

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. **Only as share cropper under lease from W. B. Savage.**

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. **I have personally irrigated and supervised the irrigation of above-described lands with water diverted from the sources claimed under Permit No. 20581, using the pump at its capacity during the irrigation season, over more than the past six years. The pump will produce the 1.6 sec. ft. claimed.**

Ans. D. S. Shipley, 63 years, residence Twin Falls, Idaho,
Occupation--manager and salesman

Ques. 2. Are you acquainted with W. B. Savage, the holder of Permit No. 20581? How long have you known him and where does he reside?

Ans. Known him over 30 years; he resides at Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20581, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground water diverted by deep drilled well and electrically driven pump, delivering into the usual farm distribution ditches. Pump is located in southeast corner of Section 20, Township 11 South, Range 19 East, Boise Meridian, Twin Falls County, Idaho.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. They will produce and convey over 1.6 second feet, and I have seen that amount of water actually produced and used in the irrigation of the lands described in the answer to next paragraph.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

RE: Permit No. 20581
W. E. Savage

Date June 1, 1959

J. R. Keenan, Attorney
Parry, Keenan, Robertson and Daly
Fidelity Bank, Bldg., Twin Falls, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20581 is due not later than August 7, 1959. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Dear Sirs:

We completed Publication of Notice of Application to Beneficial Use of the water claimed under Permit No. 20581. On the actual hearing it developed that only 30 acres out of the total of 80 acres had been reclaimed, that the balance of water available had been used on other lands. At the present time it is not yet settled where the extra water will be used. Some six years are left within which to make final proof, and inside that time the parties should have settled for themselves where the extra water is finally going to be used. Accordingly, we are withdrawing any present Proof of Application to Beneficial Use under Permit No. 20581, reserving it for some later date when the place of use is definitely settled. Of course, if there is a change in place of use, an Amended Permit will be applied for.

RE: Permits Nos. 20544 and 20581

Mr. J. R. Keenan
Fidelity Bank Building
Twin Falls, Idaho

Dear Mr. Keenan:

Your letter of June 26, 1953, reached us in due course, enclosing affidavits of W. B. Savage in proof of completion of works on the above numbered permits to take the place of the longer forms submitted on June 22.

Your letter refers to the fact that a check for \$5.00 was sent us on each permit with the June 22 letter. However, if you will refer to office letter addressed Mr. Clifford E. Fix on June 23, you will note that these checks were returned.

Very truly yours,

HANK R. KULP

Re: Permits No. 20544 and
No. 20581.

Dear Sir:

In place of the forms sent you June 22, we would like to substitute the enclosed Form 6, Proof of Completion of Works. Please file the new form 6 in place of the forms before sent you and return the combination proof blanks. A check for \$5.00 was sent you on each permit with our June 22 letter. If the proof is found in proper order, kindly issue the certificate.

We could use a few more Form 6 blanks for another proof to come up in the near future and would appreciate a small supply.

Very truly yours,

J. R. KEENAN

RE: Permits Nos. 20544 and 20581

Mr. Clifford E. Fix
Fidelity Bank Building
Twin Falls, Idaho

Dear Mr. Fix:

We acknowledge receipt of your letters of June 22, 1953, enclosing depositions of W. B. Savage and two witnesses, offered in proof of completion of works and beneficial use under each of the above numbered permits and each accompanied with your check for the \$5.00 Certificate of Completion of Works fee.

You doubtless overlooked the fact that before combined proof of completion of works and beneficial use can be made, the law requires publication of a notice once a week for four weeks in a county newspaper, setting time and place and naming the Notary Public before whom proof is to be made.

This notice should be made in duplicate on Form 36 enclosed and both copies returned to this department together with Form 11 which is Mr. Savage's authorization for us to have the notice published at his expense in the designated county newspaper.

On the other hand, while proof of completion of works is due at this time proof of beneficial use is not actually due until 1959 and unless Mr. Savage wishes to make both proofs now, completion of works proof can be made on Form 6 enclosed. Of course, when proof of beneficial use is made that requires publication of a notice once a week for four weeks the same as the double proof.

Meanwhile, we return your two checks which accompanied your letters.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 20581

Deposition of Witness -- R. T. Nail

Ques. 4

Ans. Subterranean flow. Place of diversion is deep well pump located in $SE\frac{1}{4}SE\frac{1}{4}$ of Sec. 20, Twp 11 S., Range 19 E.B.M. The pump discharges into a ditch which is $2\frac{1}{2}$ ft. wide at the bottom, four feet wide at the top, and one foot deep, which conveys water to other ditches for use on lands described in Ques. 7.

Ques. 5

Ans. Said works will safely convey much more than the present capacity of the pump mentioned above. I have personally irrigated with the flow from these works. I have seen an estimated 70 inches of water being so conveyed to place of use, and personally put such water to use.

Ques. 6

Ans. I have seen the pump deliver an estimated 70 inches of water, estimating the amount by the depth of the flow over an opening two feet wide and judging by comparison with flow from other pumps which had been accurately measured.

Ques. 7.

Ans. Water is being used for irrigation and domestic purposes, being used to irrigate cultivated land described as East $\frac{1}{2}$ $SE\frac{1}{4}$ Sec. 20, Twp 11 S., Range 19 E.B.M., County of Twin Falls, State of Idaho, and I have personally actually irrigated said lands with such water in 1951, 1952, and am so using it this present irrigation season. As a direct result, row crops are being raised where only limited amounts of dry land grain could be produced.

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. T. Nail, age 35, farmer, Hansen, Idaho.

Ques. 2. Are you acquainted with W. B. Savage, the holder of Permit No. 20581? How long have you known him and where does he reside?

Ans. Yes, over 15 years. He resides at Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20581, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. (see attached sheet)

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. (see attached sheet)

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. (see attached sheet)

20581

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. (see attached sheet)

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is of volcanic ash type, well levelled and ditched. The soils are being further built up by approved soil-building practices.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have, in that I share crop from said lands, renting them from W. B. Savage. I have done this for two years, using diverted water to irrigate said lands.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have personally irrigated and supervised the irrigation of above-described lands with water diverted from the sources claimed under Permit No. 20581, using the pump at its capacity during the irrigation season.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 8th day of June, A. D. 1953.

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. M. W. Craig, 45, Kimberly, Idaho, Bookkeeper.

Ques. 2. Are you acquainted with W. B. Savage, the holder of Permit No. 20581? How long have you known him and where does he reside?

Ans. Yes, over eight years. He resides at Kimberly, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20581, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean flow. Place of diversion is deep well pump located in SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 20, Twp 11 S., Range 19 E.B.M. The pump discharges into a ditch which is 2 $\frac{1}{2}$ ft. wide at the bottom, four feet wide at the top, and one foot deep, which conveys water to other ditches for use on lands described in question 7.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is being used for irrigation and domestic purposes, being used to irrigate cultivated lands described as E $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 20, Twp 11 S., Range 19 E.B.M., County of Twin Falls, State of Idaho. As a direct result, row crops are being produced in good quantity and quality on lands that heretofore had produced limited amounts of dry land grain.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is of volcanic ash type and is being built up by approved soil building practices and rotations.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None except that I keep books for W. B. Savage, and draw wages for my work.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. At various times in 1951 and 1952, and this month in 1953, I have observed actual application to beneficial use of water as above described to lands above described. I have seen those crops under cultivation, irrigation and harvest and have kept records of the results of the production of the lands under said application of water. I have written checks for power bills for the pump and know to what extent the pump has been used for irrigation. Full use has been made of water claimed. (Signed) *M. W. Craig*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 8th day of June, A. D. 1953.

Permit No. 20581

Deposition of Holder - W. B. Savage

Ques. 5.

Ans. Drilled well in $SE\frac{1}{4}SE\frac{1}{4}$ of Section 20, Twp 11 S., Range 19 E.B.M. 693 ft. deep. 16" Diameter to 434 ft, 12" diameter from 434 ft. to 693 ft. Depth to water 122 ft. Total pump setting of 275 ft. of 8" diameter.

Discharge of pump has not been accurately measured by weir. With a home-made measuring device, flow was figured to be approximately 70 inches. This well flows into ditches that are $2\frac{1}{2}$ feet wide at bottom, four feet wide at water line and are one foot deep. Said ditches are capable of carrying more water than capacity of pump, and are unnamed.

Ques. 6.

Ans. Water is used for irrigation and domestic purposes. It is used to irrigate 80 acres of cultivated land described as follows: East $1/2$ $SE\frac{1}{4}$ of Sec. 20, Twp 11 S., Range 19 E.B.M., County of Twin Falls, State of Idaho, and such lands have actually been irrigated with said water. As a direct result of said use, full use is being made of above-described lands in an approved crop rotation. Row crops are produced where previously only dry land grain could be produced in limited amounts. No buildings have been built, but land is farmed in conjunction with other owned land adjoining in section 29-11-19, making one unit of 240 acres.

Ques. 10

Water diverted under Permit No. 20581 has been used on lands described under this permit, in 1951, 1952, and is being used at the present time this year. It has been used on row crops, to the capacity of the pump, during the full irrigation season.

PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your Permit No. 20581 you are required to complete your diversion works on or before August 7, 1953. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
