Dear Sir:

In reply to your letter of September 2, 1953 I am enclosing
a check for \$4.00 for a license to pump 0.71 of a second
foot of water from a well located in NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 20,
Township 11 South, Range 19 East B.M.

The well was not pumping as much as it had been due to new
wells being pumped in the last year or two, but I believe
I can make it pump 1.2 second foot of water which is the
amount I filed on, by setting the pump deeper. I wonder
if I could be granted a little more time to do this.

Yours Truly,

Twin Falls, Idaho

Dear Mr. Quinn:

We acknowledge receipt of your letter of May 12, 1953, enclosing depositions of Ove C. Anderson and two witnesses, also affidavit of publication in the Kimberly Advertiser, all in proof of beneficial use under Permit No. 20462.

Before final action is taken, the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact Mr. Anderson at the time he makes the examination in order that he may arrange to show him over the ground.

No fees are due at this time. After the inspection has been made, and the report of our field engineer filed, we shall notify Mr. Anderson as to the amount of license fees.

Gentlemen:

We are in receipt of a copy of your issue of April 17, 1953, containing two notices for publication.

The notice on Permit No. 22048 in the name of Alice V. Wilson is correct.

We find one error in the notice on Permit No. 20462 for Ove C. Anderson, as follows: In the first line of the second paragraph, the word address is omitted after the word postoffice. It should read, "the name and postoffice address of the person -" etc.

Please make this correction in your subsequent issues.

Dear Mr. Quinn:

We have your letter of April 2, 1953, enclosing notice for beneficial use proof on Permit No. 20462 in the name of Ove C. Andersen.

This notice describes the well as being located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 20, Township 11 South, Range 19 East, B.M., which we think is a typographical error, as the permit shows it in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of the section. We have made this correction and sent a copy of the notice to the Kimberly Advertiser with instructions to publish it once a week for four weeks prior to May 12, 1953, and to send Mr. Andersen the affidavit of publication together with statement of costs.

If this correction should not have been made and the well is actually located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, will you please notify the newspaper to make the change and also notify us.

Meanwhile, we enclose the necessary forms of deposition to be used in making the proof, consisting of one for the permit holder and one for each of two disinterested witnesses.

PROOF OF COMPLETION OF WORKS

Ove C. Anderson

Murtaugh, Idaho

Boise, Idaho **March 1, 1951**

Dear Sir:-

Under the terms of your permit No. ~~20462~~ you are required to complete your diversion works on or before May 20, 1951. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Andersen:

In reply to your letter of April 7, 1948, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.
