Permit No. G-26834 - Earl Sallee

A. L. Blandford
Attorney at Law
Kimberly, Idaho

Dear Mr. Blandford:

Your letter of August 9, 1960 received in regard to the noted licenses and permit.

Permit No. G-26834 has a remark that the other two wells on the property would be abandoned if sufficient water was developed under the permit.

We believe that the Water Licenses can be cancelled or held for nought by the State Reclamation Engineer upon petition of the owners of such Water Licenses signed before a Notary Public. Proof of ownership should accompany the petitions, one petition for each Water License.

Or the Certificate of Completion of Works and Water License under Permit G-26834 can be issued for the amount produced by the well or at the rate of one miners inch per acre of irrigated land, which ever is least. The Water License would have the condition - "Not over one miners inch of subterranean water for each acre irrigated shall be diverted from all diversions for irrigation of the above described land" - or "Total amount of water diverted under Water Licenses 18104 and 20237 and G-26834 shall not be in excess of one miners inch of water for each acre of irrigated land."

Very truly yours,

Dear Mr. Blandford:

Your letter of August 3, 1960 described a problem that is becoming general as more wells are drilled. The engineer's report does not show that the water from the wells was actually measured.

Some wells have been drilled deeper. In cases where the well has caved, permission has been granted to drill a new well in the near vicinity under the original permit, and retain the original priority. In one recent case a request for transfer in the point of diversion was requested. No protests were received after the legal notice and the request was approved. As far as we know, none of these cases have been decided by the District Court.

Licenses are issued with the provision that not over one miners inch per acre of irrigated land shall be diverted from subterranean sources.

Very truly yours,

Affidavit of Publication

STATE OF IDAHO,
COUNTY OF TWIN FALLS SS.

N? 2766

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 15th day of February, 1949, at Twin Falls, County of Twin Falls, State of Idaho, before J. R. Keenan, a Notary Public, proof will be submitted of the application to beneficial use of two cubic feet per second of underground waters underlying lands hereinafter described in accordance with the terms and conditions of Permit No. 20237 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Clyde E. Edminster, Twin Falls, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) is S $\frac{1}{4}$ SW $\frac{1}{4}$, Section 19; N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 30, Township 11 South, Range 19 E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private well and ditch on privately owned land.

The right to take water from such works is based upon Permit No. 20237.

The source of supply from which such water is diverted is underground water tapped by drilled well in SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 30, Township 11 South, Range 19 E.B.M.

The date of priority which said user is prepared to establish is December 13, 1947.

Dear Mr. Thomas:

Concerning the matter set forth in your letter of August 4th, is there any reason why the water from the two wells cannot be tested again and an amended water license issued accordingly for each well?

I doubt if the wells were ever tested, and if that be the case the license should not have been issued in excess of the water which could be produced.

If the amount of water appropriated under the above two licenses can be reduced in amount, this will allow us to appropriate a greater amount of water under Application No. G-26834, and our problem will then be solved.

Re: License Nos. 18104 and 20237.

Dear Mr. Thomas:

I am in receipt of your letter of July 20th concerning the above permits and was surprised to learn that these two water licenses had been issued for a total of 4.5 cubic feet per second of water. I am wondering if these two wells were tested prior to the time that the licenses were issued.

The wells are at the present time producing a total of approximately 95 miners inches of water. I have examined the statutes to determine if it is possible to reduce the number of inches permissible to be pumped from a deep well after the license has been issued, but I find no provision which covers this procedure.

Evidently the water from these two wells decreased in quantity, and the present owner drilled another well to obtain sufficient irrigation water (Permit No. G-26834). However, he is irrigating only 182 acres, and if the amount of water for which the licenses were issued is controlling, rather than the amount of water which is actually produced, then he will have in excess of one inch per acre and can obtain no priority for the new well.

Please let me know how you have handled matters similar to this in the past and what regulations of your Department may be controlling.

Dear Mr. Keenan:

In reply to your letter of August 10, the report of our Field Engineer shows that 82 acres have been irrigated under Permit No. 20237 in the name of Clyde E. Edminister. Since these 82 acres are located in four different legal subdivisions, namely the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 19, and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Township 11 South, Range 19 East, the fee will amount to \$8.00, being at the rate of \$2.00 for each subdivision in which the land is located.

Upon receipt of this amount, a License will be issued for 1.5 cubic feet per second of the water from a well located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Township 11 South, Range 19 East, B.M.

Gentlemen:

Mr. Edminister advises that your Field Engineer was on his premises checking into the Beneficial Use of water under the above permit number.

If the examination was actually made as Mr. Edminister thinks, we would like to have the water license to cover it. We presume the fee will be \$5.00 and have received that amount from Mr. Edminister to cover it. Such amount will be forwarded to you on request.

Dear Mr. Keenan:

We acknowledge receipt of your letter of February 15, 1949 enclosing the depositions of Clyde E. Edminister, and two witnesses; also affidavit of publication in the Twin Falls Times-News, all submitted in proof of Beneficial Use under Permit No. 20237.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, as this Department has but one Field Engineer, who makes examinations all over the state.

However, Mr. Tolman, Field Engineer for this Department, will try to contact Mr. Edminister at the time he makes the examination, so that arrangements can be made to show him over the grounds.

When the Field Engineers report is received, you will be advised as to the amount of fees required.

Permit No. 20237-----

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Clyde E. Edminster, 761 Addison Ave, Twin Falls, Idaho, farmer
by occupation.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20237, dated December 30, 1947, priority of Dec. 13, 1947.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water supply is underground water, developed by deep well electrically driven, situate, 400 ft east and 85 ft south of northwest corner of SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Twp. 11 S, Range 19 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Well above described is 175 ft. deep, is located on the land irrigated therefrom, from which distribution ditches needed to convey the water extend north and east. The ditches are private ditches and will convey 3 cubic feet of water or more.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of commercial crops of beans, potatoes, wheat and alfalfa, grown on 20 acres of SW $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres of SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 19, and 5 acres of SE $\frac{1}{4}$ NW $\frac{1}{4}$, 20 acres of NW $\frac{1}{4}$ NW $\frac{1}{4}$, and 40 acres of NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, in Township 11 South, Range 19 East. No meadow land included.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Used only for irrigation.

20237

1448

Ques. 8. What is the minimum amount of water required for the purpose specified above?
Ans. One second foot to 50 acres.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.
Ans. Am original holder.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.
Ans. The well develops 1.5 second feet according to my estimate, and that quantity was used throughout the irrigation season of 1948, in the irrigation of the crops described in answer to question 6.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Right from Rock Creek for 120 inches, good only on the average to July 1, in each year.
License for one second foot for a praxious well, Permit No. 18104, for lands described in this proof and 55 additional acres in Section 30.
A half of a second foot waste water, undependable in both time and amount on the 60 acres of Section 19. (Sign) Clyde E. Gammister

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Twin Falls, County of Twin Falls, State of Idaho, on this 15th day of February, A. D. 1949.

PERMIT NO. 20237

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Floyd Lilly, age 41, water pump dealer, residence and post office address Twin Falls, Idaho.

Ques. 2. Are you acquainted with Clyde E. Edminster, the holder of Permit No. 20237? How long have you known him and where does he reside?

Ans. Yes, have known him ten years; he resides at Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20237, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground water, developed by deep well, situate in SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 30, Twp 11 S, R. 19 East, together with the necessary ditches to distribute water over 125 acres of land.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Well develops 1 $\frac{1}{2}$ second feet, and the ditches on the farm will handle more than that quantity of water.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of 20 acres of SW $\frac{1}{4}$ SE $\frac{1}{4}$ and 40 acres of SE $\frac{1}{4}$ SW $\frac{1}{4}$, of Section 19, and 5 acres of SE $\frac{1}{4}$ NW $\frac{1}{4}$, 20 acres of NW $\frac{1}{4}$ NW $\frac{1}{4}$ and 40 acres of NE $\frac{1}{4}$ NW $\frac{1}{4}$, of Section 30, Township 11 S, R. 19 E.B.M. There is no meadow land included, as the land produces regular commercial crops. Such crops consist of beans, potatoes, wheat and alfalfa.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. No other use than irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is the usual loam soil of Twin Falls County, and regularly requires one cubic foot to 50 acres, for profitable cultivation and irrigation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have several times during the irrigation season of 1948 seen 1.5 second feet pumped from the well, and the whole amount used in the irrigation of the crops grown during said season on the land before mentioned, kind of crops and acreage being that stated in answer to Question 6.

(Signed) Floyd Lilly

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, Idaho, County of Twin Falls, State of Idaho, on this 15th day of February, A. Fidelity Bank Building
Twin Falls, Idaho

Dear Mr. Keenan:

We enclose Certificate of Completion of Works issued under Permit No. 20237, in the name of Clyde E. Edminster, for the diversion of two (2) second feet of water from a well on the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 30, Twp. 11 S., Range 19 E. B.M., for irrigation and domestic use on the S $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 19, NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 30, same township and range.

We also enclose Departmental Receipt No. 21104 for the \$5.00 fee in connection with this proof.

We note that Mr. Edminster wishes to make beneficial use proof under this permit and we enclose the necessary forms in connection with notice of this proof. As you know, both copies of Form 10 should be returned to this Department together with Form 11 which is authorization for us to have the notice published at permit holder's expense.

Very truly yours,

MARK R. KULP

**NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A.M. on the 15th of February, 1949, at Twin Falls, Count Twin Falls, State of Idaho, before J. R. Leenan, a Notary Public, proof will be submitted of the application to beneficial use of two cubic feet per second of underground waters underlying lands hereinafter described in accordance with the terms and conditions of Permit No. 20237 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Clyde E. Edminster, Twin Falls, Idaho.

The use to which said water has been applied is irrigation and domestic purposes.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) is S $\frac{1}{2}$ SW $\frac{1}{4}$, Section 19; N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 30, Township 11 South, Range 19 E.B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private well and ditch on privately owned land.

The right to take water from such works is based upon Permit No. 20237.

The source of supply from which such water is diverted is underground water tapped by drilled well in SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 30, Township 11 South, Range 19 E.B.M.

The date of priority which said user is prepared to establish is December 13, 1947.

MARK R. KULP

State Reclamation Engineer.
