NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 28rd day of August, 1949, at Twin Falls, County of Twin Falls, State of Idaho, before Oliver P. Duvall, a Notary Public, proof will be submitted of the application to beneficial use of 1.6 cubic feet per second of the waters of Two Wells, (Subterranean) in accordance with the terms and conditions of Permit No. 20177 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Nephi Larsen, Rt. 2, Hansen, Twin Falls County, State of Idaho.

The use to which said water has been applied is Irrigation of farm lands.

The amount applied to beneficial use is 1.6 cubic feet per second or 80 inches.

The place where said water is used Southeast quarter of Northeast quarter of Section 26, and the Southwest quarter of Northwest quarter Section 36, (SE-NE & SW-NW) all in Township Eleven (11) South, Range Eighteen (18) E. B. M., Twin Falls County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Subterranean Wells, with electric pumps.

The right to take water from such works is based upon Permit No. 20177.

The source of supply from which such water is diverted is Two Wells now in use and water brought to surface by use of electric pumps.

The date of priority which said user is prepared to establish is September 16, 1947.

MARK R. KULP,

State Reclamation Engineer.

Dear Mr. Larsen:

We have received from Judge Duvall, the depositions of yourself and two witnesses; also Affidavit of Publication in the Twin Falls Times-News, all submitted in proof of beneficial use of a well in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26, Township 11 South, Range 18 East, B.M.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Dear Sir:

Re; Nephi Larsen,
Permit 20177.

I should have advised you that the other well did not pan out very well, was only pumping about 5 inches, and Mr. Larsen, said he had better wait on that one until he was able to put it down about 50 to 75 feet and see if he could not get a better supply. He has not been using this well, therefore he did not think he could make proof.

The other well had a little difficulty also, the water was carried past the well in a ditch and apparently some gophers dug a hole thru from the ditch to the casing and in some way this well filled up some so that during the season just past he had been able to pump but about 30 inches. He stated that he would probably have to clean this well out before he got it back to normal, which was about 50 inches.

Very truly yours,

O. P. Duvall.

Dear Judge Duvall:

We acknowledge receipt of your letter of August 23, 1949, enclosing depositions of Nephi Larsen and two witnesses in proof of Beneficial Use under Permit No. 20177. Also Affidavit of Publication in the Twin Falls Times-News.

These depositions are correct as far as they go, but we note that all three proofs only describe one well, located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26, Township 11 South, Range 18 East, and describe the same place of use, whereas the original Permit described two wells, the other in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 36, Township 11 South, Range 18 East, B.M., and also describes that as the place of use for part of the water.

Also, these proofs all state that about 30 inches have been used, whereas the Permit calls for 80 inches.

Possibly Mr. Larsen is only making proof on one well, but we call this to your attention so that if he wishes to prove up on both wells, the depositions may be corrected accordingly. We shall await your advice in this regard.

There are no fees due the Department at this time, but after field examination has been made and the report of our Field Engineer filed, we shall advise Mr. Larsen of the amount of fees which will be at the rate of \$2.00 for each legal subdivision on which the water has been applied.

Dear Mr. Kulp:

Please find enclosed affidavit of publication, also affidavits of Holder and witnesses in proof of Beneficial use of Well Water in connection with the Nephi Larsen, holder of Permit No. 20177. Twin Falls County, Idaho.

In your letter you did not state what the fees for filing would be so I am not enclosing any money with this remittance. If you will kindly advise me, I will have Mr. Larsen send you a check.

This is the first proof of this kind I have had and I would appreciate it if you would check the papers and if I have not fully completed them, kindly advise, so that I can correct them, and also, I believe I have another proof on the 29th, of the Savage Permit, and it would help me to make a better proof in that if I have made errors in this.

The name and postoffice address of the person or corporation holding said permit are Nephi Larsen, Rt. 2, Hansen, Twin Falls County, State of Idaho.

The use to which said water has been applied is Irrigation of farm lands.

The amount applied to beneficial use is 1.6 cubic feet per second or 80 inches.

The place where said water is used Southeast quarter of Northeast quarter of Section 26, and the Southwest quarter of Northwest quarter Section 36, (SE-NE & SW-NW) all in Township Eleven (11) South, Range Eighteen (18) E. B. M., Twin Falls County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Subterranean Wells, with electric pumps.

The right to take water from such works is based upon Permit No. 20177.

The source of supply from which such water is diverted is Two Wells now in use and water brought to surface by use of electric pumps.

The date of priority which said user is prepared to establish is September 16, 1947.

Boise, Idaho **July 1, 1948**

Dear Sir:-

Under the terms of your permit No. **20177**-----you are required to complete your diversion works on or before **September 27, 1948**.... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Duvall:

We acknowledge receipt of your letter of September 15th, enclosing the application of Nephil Larsen to appropriate 150 inches of subterranean water from two wells; also his check for \$7.50 for the filing fee.

Since the water is to be used on only 80 acres of land, we cannot approve a filing for more than 80 inches, as the maximum allowed by statute is one inch per acre.

The filing fee on this amount only amounts to \$5.25, so we return his check in order that he may substitute one for the correct amount.

Dear Sir:

Please find enclosed Application for Permit to file on water, which is to be secured by diggin wells on land owned by applicant, Nephi Larsen, south of Hansen, Idaho.

Apparently he has already dug the wells and is waiting to secure the pumps before he can definitely state just how much supply he will have, but he knows that there is water there as neighbors have already been using wells around him, and he hopes to be ready to use the water on crops next year. He has an Old Decreed Rock Creek Water right, which is not enough to raise maximum crops, and this is in addition to his present supply.

I do not know just what the fee is, as he does not know just how much supply he will have, but he hopes to have about 150 inches in all, will enclose his check for \$7.50 and if this is not enough kindly advise and we will adjust the difference either way.
