

State of Idaho

License and Certificate of Water Right

Water License No. 20088

Amount 1.2 second feet

Water District No.

Priority May 26, 1947

THIS IS TO CERTIFY that N. BANKHEAD
of Twin Falls, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated May 26, 1947; that Permit No. 20088
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
two second feet, was issued thereunder on August 16, 1950, showing that said works
were completed on the 16th day of June, 1950; and that on the 24th
day of October, 1950,

HANNAH BANKHEAD, Administratrix of the Estate of N. Bankhead, deceased,
of Twin Falls, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of two
wells ~~contributing~~ (subterranean flow), for the purpose of irrigation
under Use Permit No. 20088 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
8 of Licenses at page 4847, on the 9th day of November, 1951;
The right hereby confirmed dates from May 26, 1947;
The Point of Diversion is located

in the NW 1/4 SE 1/4, Sec. 19, Tp. 11 S., R. 19 E., B.M. Twin Falls County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1.2 cubic feet per second.

STATE OF IDAHO,
COUNTY OF TWIN FALLS ss.

Nº 3520

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at Two P. M. on the 24th day of October, 1950, at Twin Falls, County of Twin Falls, State of Idaho, before Frank L. Stephan, Notary Public, proof will be submitted of the application to beneficial use of two cubic feet per second of the waters of subterranean flow in accordance with the terms and conditions of Permit No. 20088 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Hannah Bankhead, surviving widow of N. Bankhead, and Administratrix of the estate of N. Bankhead, deceased, Twin Falls, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used is Northwest Quarter of the Southeast Quarter (NW¼SE¼), Northeast Quarter of the Southwest Quarter (NE¼SW¼) and Lot Three (3), sometimes described as Northwest Quarter of the Southwest Quarter (NW¼SW¼) all in Section 19, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Private ditches.

The right to take water from such works is based upon Permit No. 20088.

The source of supply from which such water is diverted is two wells located in NW¼SE¼ Section 19, Township 11 South, Range 19 E.B.M.

The date of priority which said user is prepared to establish is May 26, 1947.

MARK R. KULP,
State Reclamation Engineer

Publish: Sept. 14, 21, 28, Oct. 5, 1950.

I, Lisa Muloney, being first duly sworn upon

oath depose and say that I am principal clerk of the TIMES-NEWS, published daily, except Saturday, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice or advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for

4 consecutive Thursdays, commencing with the issue dated September 14, 1950, and ending with the issue dated October 5, 1950.

And I do further certify that said newspaper is a consolidation, effective Feb. 16, 1942, the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily paper except Saturday, under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section ⁶⁰⁻¹⁰⁸ 58-108 I. C. A., 1932, as added thereto by Chapter 154, Idaho 1933 Session Laws, Thursday of each week has been designated as the day on which legal notice required by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

Subscribed and sworn to before me this 13th day of

October, 1950.

Jessie Delays
Notary Public in and for the County of Twin Falls,
State of Idaho, residing at Twin Falls, Idaho.

Dear Mr. Craig:

Your letter of September 1 has been received.

Enclosed is copy of a portion of the engineer's report.

We find no record of the well logs. The wells are located in the
N. E. corner NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19, T. 11 S., R. 19 E. Well No. 1 is
46 yards South and 27 feet West; Well No. 2 is 183 yards South and
five feet West.

The fee for the copy work is \$0.75 which you may remit
to this office.

Very truly yours,

GEO. N. CARTER

Department of Reclamation
Boise, Idaho

Gentlemen:

We have purchased lands on which water license No. 20088 was issued. There are two wells, but we have not been able to locate the logs and other pertinent information.

Would it be possible for you to make copies of the logs, along with any other information that the investigating engineer recorded when he made his inspection? Verifax copies would be fine. The other information we refer to is:

Casing installed in well, if any (size & depth)
pump and motor information
amount of discharge from each well
precise location, if listed.

Of course, if other information is shown than we mention above, we would appreciate very much your including it. If there is a charge for the service, please bill us.

For further information, the lands are described as Lot 3, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and Sec. 19, Twp 11 S., Range 19 ERM.

Dear Mr. Kulp:

Att'n: Mrs. Jeanne L. Anderson,
Chief Clerk
Re: Permit No. 20088

I wish to thank you for your letter of November 2, 1951, advising that a license will be issued for 1.2 second feet of water on the Bankhead estate. Pursuant to your request, I am enclosing herewith Mrs. Bankhead's check for \$6.00 being the statutory fee for issuance of the license. Mrs. Bankhead has not yet been discharged as Administratrix of her husband's estate and I presume the license should be issued to Hannah Bankhead, Administratrix of the estate of Hillery Napoleon Bankhead, deceased.

With kind personal regards, I am,

RE: Permit No. 20088

Mr. Frank L. Stephen
Twin Falls Bank & Trust Company Building
Twin Falls, Idaho

Dear Mr. Stephen:

We now have on file the report of our field engineer on examination for beneficial use under Permit No. 20088, in the name of the Estate of N. Bankhead, deceased.

This report shows that the wells in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19, Township 11 South, Range 19 East, B.M., will deliver approximately 60 inches of water which has been used for the irrigation of N $\frac{1}{2}$ SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said section.

Therefore, upon receipt of the statutory fee of \$6.00, a license will be issued for 1.2 second feet (or 60 inches) of water from said well.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

20088

Permit No. 20088

Well #1

Well is 340 feet deep by 20" diameter. There is no casing. Uncertain regarding the H. of the water, but believed to be 60 feet. Drawdown is unknown. There is 6' by 6' concrete base for the pump and motor. No pump house and no protection. 30 H.P. U. S. motor, 220 volts, 74 amps, 1800 r.p.m., 3 phase, 60 cycle, Serial #700307. Pump is a Deming #T10033. 1750 r.p.m. Outlet is to the Northeast through a 6" pipe 4' long, into another piece of pipe 20' by 6" i.d., into an open earth sump.

Switches and controls are A. B. and Westinghouse, mounted on a panel 4 feet distance to the North of the pump. Meter mounted on the same panel is a 240 volt Idaho Power, #17725379.

T. equals 55°F. Delivery was measured by use of a stop watch and a ten gallon can. Q. equals 13-1/3 inches.

Well #2

Well is 260 feet deep by 20 inches diameter. No casing. H. is unknown, drawdown is unknown. 30 h.p. Fairbanks Morse Motor, 220 v., 75 amps, 3 phase, 60 cycle, 1750 r.p.m. Serial #575906. Pump and motor are mounted on a 8' by 8' concrete base. There is no pump house or protection. Pump is a Fairbanks Morse Pomona #PH7366. Controls are located on poles to the North and are Allen Bradley. Meter is a G. E. #28177876.

Demand is 2.25 x 10. Delivery is to the North through a 6" pipe which delivers into an 8" pipe 137 yds long, extending to the North and joining up with the out put from Pump #1. There is also a branch to the West taking off 24 inches from the pump into a pipe 8 inches in diameter by 10 feet long. This water was measured by ten gallon can and a stop watch, and delivery was 45 inches. T. equals 54° F.

Crops are beans, potatoes and wheat.

The tennant, Pete Barick, has been on the place but a short time and could not give much information regarding the wells and neither could Mrs. Bankhead.

Examination made July 31, 1951.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit No. 20088

Mr. Frank L. Stephan
Bank & Trust Co. Building
Twin Falls, Idaho

Dear Mr. Stephan:

We acknowledge receipt of your letter of October 25, 1950, enclosing depositions of Hannah Bankhead and two witnesses, also Affidavit of Publication in the Twin Falls Times-News; all submitted in Proof of Beneficial Use under Permit No. 20088 in the name of N. Bankhead, deceased.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We can not say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try and contact Mrs. Bankhead at the time the examination is made so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20088

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Hannah Bankhead, residence and post office address: 1151 10th Ave. East, Twin Falls, Idaho. Occupation: Housewife.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20088 dated June 9, 1947, priority May 26, 1947.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water from two wells. Well 1-A located 148 feet south and 33 feet west from the NE corner of NW 1/4 SE 1/4 of Sec. 19-11-19 and Well #2 located 598 feet south and 15 feet west from NE corner of NW 1/4 SE 1/4 of said Section 19.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Well #1-A is 226 feet deep, equipped with a Deming Turbine Pump and electric motor, and 20 feet of 8-inch steel casing pipe leading from well east to a small diversion reservoir. Well #2 is 248 feet deep equipped with a Pomona Turbine Pump and 30 HP Fairbanks Morse electric motor, also 450 feet of 8-inch Lockseam surface pipe which runs north from said well to diversion reservoir. Well #2 also has a shut-off valve so that water from well may be diverted directly west in open ditches for irrigation. After water leaves diversion reservoir it is carried in open ditches, privately owned by the undersigned, to place of use. Said works are capable of carrying 100 inches of water to place of use.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on 40 acres of NW 1/4 SE 1/4, 40 acres of NE 1/4 SW 1/4 AND 20 1/2 acres of Lot 3 (also described as NW 1/4 SW 1/4) all in Sec. 19, Twp. 11 S., Range 19 E.B.M. All of said land is cultivated. Said land has no improvements except irrigation works above described. Water from Well 1-A was used in the crop season of 1948 and both wells have been used during crop seasons of 1949 and 1950 for irrigation of said land above described. Water produced from said wells varies in the spring from about 100 inches to 85 inches during summer.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

20088

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One inch to the acre is required for profitable cultivation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Permit was originally issued to N. Bankhead, my deceased husband. Being community property I will be entitled to all assets of estate.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. As hereinabove stated Well 1-A was used in 1948 and both wells have been used during entire irrigation seasons of 1949 and 1950. Well 1-A producing between 25 inches in spring to 15 inches later in summer. Well #2 producing between 70 and 75 inches steadily throughout irrigation season.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. We have no other water rights for land in question.

(Sign) *Hannah Bankhead*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was

subscribed and sworn to before me, at my office in Twin Falls, County of Twin Falls,

State of Idaho, on this 24th day of October, A. D. 19 50.

My commission expires 5-15-53

20088

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20088

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. HOMER H. BUTLER, JR., age 28 yrs., residence and post office address
Kimberly, Idaho. Occupation: farmer.

Ques. 2. Are you acquainted with Hannah Bankhead, successor to N. Bankhead, the
holder of Permit No. 20088? How long have you known him and where does
he reside?

Ans. Yes, I know Mrs. Bankhead. I have known her about 1½ years. I knew
N. Bankhead, her husband who is now deceased for about 15 years prior to
his death.

Ques. 3. Have you read or heard read said Permit No. 20088, and are you
familiar with its provisions and conditions?

Ans. Yes, I have read the permit and am familiar with its provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use. Water is subterranean water from 2

Ans. wells: Well No. 1-A located 148 feet south and 33 feet west from the
NE corner of the NW 1/4 of Sec. 19, Twp. 11 South, Rge. 19 E.B.M. and
Well No. 2 located 598 feet south and 15 feet west from the NE corner of said
NW 1/4 of said Sec. 19. Well #1-A is equipped with electric Deming Turbine pump
and 20 feet of 8-inch steel casing pipe running from well east to a small diver-
sion reservoir. Well #2 is also equipped with electric Pomona pump and 450 feet
of 8-inch lockseam pipe running north to the diversion reservoir. Water is con-
veyed from reservoir in open ditches to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?
Ans. Works will safely convey to place of use 100 inches of water. Water from
wells varies. In the spring of the year they will produce about 100 in-
ches of water and later in season about 85 inches, all of said water being con-
veyed for irrigation through said works.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount? Well 1-A delivers about 25 inches in the spring and varies down to
15 inches in the summer. Well #2 does not vary - delivers between 70 and 75
inches consistently through all irrigation season. I have estimated amount de-
livered by amount of corrugations I am able to set with water delivered - same
being in the neighborhood of 100 corrugations.

20088

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water produced by two wells is used for irrigation of 40 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 19, Twp. 11 S., Rge 19 E.B.M. Twin Falls County, Idaho. All land is cultivated - no natural meadow land. No improvements on land except irrigation works above described.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil is deep, lava ash soil and requires at least one inch of water to the acre for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works, water or lands above described.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

I worked on farm during 1949 and 1950 and have seen all water produced from wells used on above described land during all of the crop seasons of 1949 and 1950. At the beginning of each irrigation season about 100 inches was used from the two wells and later in season it varied down to 85 inches.

(Signed) Homer H. Butler Jr.

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 24 day of October, A. D. 1950.

Permit No. 20088

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. HOMER H. BUTLER, SR., age 54 yrs, residence and postoffice address: Kimberly, Idaho; occupation farmer.

Ques. 2. Are you acquainted with Hannah Bankhead, successor to N. Bankhead, the holder of Permit No. 20088? How long have you known him and where does he reside?

Ans. Yes, I know Mrs. Bankhead. I have known her about a year and a half. She resides at 1151 10th Ave. East, Twin Falls, Idaho. I knew her husband, N. Bankhead, now deceased, for about fifteen years prior to his death.

Ques. 3. Have you read or heard read said Permit No. 20088, and are you familiar with its provisions and conditions?

Ans. Yes, I have head the permit and am familiar with its provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is subterranean water from two wells: Well No. 1-A located 148 feet south and 33 feet west from the NE corner of the NW 1/4 of Sec. 19, Twp. 11 South, Rge. 19 E.B.M. and from a well designated as Well No. 2 located 598 feet south and 15 feet west from the NE corner of said NW 1/4 of said Sec. 19. Well #1-A is equipped with electric Deming Turbine Pump & 20 feet of 8-inch steel casing pipe running from well east to a small diversion reservoir. Well #2 is also equipped with electric Pomona pump and 450 feet of 8-inch Lock-seam pipe running north to the diversion reservoir. Water is conveyed from reservoir in open ditches to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Works will safely convey to place of use 100 inches of water. Water from wells varies. In the spring of 1950 they pumped approximately 100 inches of water and later in season about 85 inches, all of said water being conveyed for irrigation through said works.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount? Well 1-A delivers about 25 inches in the spring and varies down to 15 inches in the summer. Well #2 does not vary - delivers between 70 and 75 inches steadily throughout the pumping season. I have not measured the water by weir but estimate the amount delivered from the amount of corrugations I can set with the water from the 2 wells - to-wit, approx. 100 corrugations.

20088

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Water from said wells is used for irrigation of 40 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$, 40
Ans. acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$, and 20 $\frac{1}{2}$ acres of Lot 3 (sometimes described as
NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 19, Twp. 11 S., Rge. 19 E.B.M. Twin Falls County, Idaho.
~~There are no improvements on said land except the improvements consisting~~
of the irrigation works above described. All of said land is cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Soil is deep lava ash soil which requires one inch to the acre of
Ans. water for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works, water or lands above mentioned.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

During 1949 I farmed 40 acres of land above described and during the '50
Ans. crop season farmed all of said land. I have seen the water produced
from both wells, varying from 100 inches to 85 inches as produced, used
for irrigating said land above described during both the crop seasons of
1949 and 1950.

(Signed) Homer H. Butler

October 25, 1950

HONORABLE MARK R. KULP
Department of Reclamation
Capitol Building
Boise, Idaho

Dear Mr. Kulp:

Re: Permit No. 20088
N. Bankhead -
Hannah Bankhead

The proof on beneficial use of water produced from two wells under the above numbered permit was taken yesterday and I am enclosing herewith Deposition of Holder, Hannah Bankhead, and Depositions of two witnesses, Homer H. Butler, Sr. and Homer H. Butler, Jr., together with affidavit of publication of Notice of Proof etc.

I might advise that the pumps on both wells have been shut off by the Idaho Power Company for the season of 1950. It is possible to have them turned on again before spring at a cost of \$5.00 to Mrs. Bankhead. If your field man should wish to make his investigation on the above matter before spring, if you would let us know a day or so before he plans on being here we will have the pumps turned on for his investigation.

Very truly yours,

Frank L. Stephan

FLS:D

P.S. No one appeared in opposition to the proof.

Dear Sirs:

This is to ~~ank~~nowledge receipt of Notice of Proof Application of Water to Beneficial Use, Permit No. 20088, Mrs Hannah Bankhead.

Dates of Publication are as follows: September 14, 21, 28 and October 5.

Proof of publication will be mailed after 1st publication.

TIMES-NEWS

By Jessie Delany
Hannah Bankhead

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at two P.M. on the 24th day of October, 1950,
at Twin Falls, County of Twin Falls, State of Idaho, before
Frank L. Stephan, Notary Public, proof will be submitted of the
application to beneficial use of two cubic feet per second of the waters of subterranean
flow in accordance with the terms and conditions of Permit No. 20088
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Hannah
Bankhead, surviving widow of N. Bankhead, and Administratrix of the estate
of N. Bankhead, deceased, Twin Falls, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is two cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) Northwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$), North-
east Quarter of the Southwest Quarter (NE $\frac{1}{4}$ SW $\frac{1}{4}$) and Lot Three (3), some-
times described as Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$)
all in Section 19, Township 11 South, Range 19 E. B. M., Twin Falls
County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of
use is Private ditches.

The right to take water from such works is based upon Permit No. 20088

The source of supply from which such water is diverted is two wells located in NW $\frac{1}{4}$ SE $\frac{1}{4}$
Section 19, Township 11 South, Range 19 E. B. M.

The date of priority which said user is prepared to establish is May 26, 1947.

MARK R. KULP

State Reclamation Engineer.

Re: Permit No. 20088

Mr. Frank L. Stephen
Bank and Trust Company Bldg.
Twin Falls, Idaho

Dear Mr. Stephen:

We enclose herewith, Certificate of Completion of Works issued under Permit No. 20088 in the name of N. Bankhead, for the diversion of two second feet of water from two wells in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19, Township 11 South, Range 19 East, B.M. for the irrigation of land in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, Lot 3 (or NW $\frac{1}{4}$ SW $\frac{1}{4}$) of said Section.

We also enclose Departmental Receipt No. 22591 for the \$5.00 fee paid in connection with this proof.

We enclose the necessary forms for Notice of Beneficial Use Proof to be made under this Permit, consisting of two Form 10 and one Form 11.

Unless the Probate Court has issued a Decree of Distribution making Mrs. Bankhead owner of the property, the proof should probably be made in the name of the Estate of N. Bankhead, deceased.

We also enclose the necessary forms of deposition to be used in making this proof.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

A:bn
Enc.

20088

dated June 16, 1950,
Reference is made to a letter from Mr. Frank L. Stephan/enclosing proof of completion of works on a portion of ~~the~~ Permit No. 20088, in the name of J. N. Bankhead, and including a statement that the third well, on the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 19, Twp. 11 S., Range 19 E. has not been drilled, and that the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 19, and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, together with priority rights in the well on the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 19 had been assigned to W. B. Savage.

Reference is also made to a letter from W. B. Savage Ranches in regard to this matter, and requesting an extension of time for making proof of completion of works on this third well.

We cannot accept a partial proof of completion of works by the permit holder and allow an extension of time for making proof on the balance by the assignee.

There would seem to be only two ways in which the matter can be handled: First, withdraw the present proof of completion of works and apply for an extension of time for making such proof, which can be allowed until June 9, 1952; then make proof on all three wells, after which an assignment can be made and recorded for the part Mr. Savage has purchased.

Otherwise, certificate of completion can be issued on the part on which proof has been made, and Mr. Savage can file a new application covering the portion he has purchased, in which case he would have to take a later priority as of the date his application is filed .

TWIN FALLS, IDAHO

August 15, 1950

HONORABLE MARK R. KULP
State Reclamation Engineer
Capital Building
Boise, Idaho

Dear Mr. Kulp:

Att. Mrs. Jeanne L. Anderson
Re: Permit No. 20088
N. Bankhead

I have finally contacted all the interested parties on the above permit, and they have decided that the Completion of Works proof heretofore submitted by Mrs. Bankhead may be filed and that Mr. Savage will file a new application when he desires to drill on the land purchased from the Bankhead estate.

Mrs. Bankhead would like also to complete Proof of Beneficial use on the two wells and will you therefore send me the necessary forms for making proof of beneficial use on the two wells involved in the above numbered Permit.

Thanking you, and with kind regards, I am

Very truly yours,

Frank L. Stephan

Re: Permit No. 20088

Mr. Frank L. Stephen
Twin Falls, Idaho

W. B. Savage Ranches Inc.
Kimberly, Idaho

Dear Sirs:

Reference is made to a letter from Mr. Frank L. Stephen, dated June 16, 1950, enclosing proof of completion of works on a portion of Permit No. 20088, in the name of H. Bankhead, and including a statement that the third well, on the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 19, Township 11 South, Range 19 East, has not been drilled, and that the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 19, and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19, together with priority rights in the well on the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 19 has been assigned to W. B. Savage.

Reference is also made to a letter from W. B. Savage Ranches in regard to this matter, and requesting an extension of time for making proof of completion of works on this third well.

We cannot accept a partial proof of completion of works by the permit holder and allow an extension of time for making proof on the balance by the assignee.

There would seem to be only two ways in which the matter can be handled: First, withdraw the present proof of completion of works and apply for an extension of time for making such proof, which can be allowed until June 9, 1952; then make proof on all three wells, after which an assignment can be made and recorded for the part Mr. Savage has purchased.

Otherwise, certificate of completion can be issued on the part on which proof has been made, and Mr. Savage can file a new application covering the portion he has purchased, in which case he would have to take a later priority as of the date his application is filed.

Very truly yours,

MARK H. KULP
State Reclamation Engineer

MRK:hh

20088

STATE OF IDAHO

PROOF OF COMPLETION OF WORKS
AFFIDAVIT OF HOLDER

HANNAH BANKHEAD, being first duly sworn, upon her oath, deposes and says:

First: That the said N. Bankhead at the time of his death was the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20088. That the post office address of Affiant is 1151 10th Avenue East, Twin Falls, Idaho.

1-E.

2008

Third: That the point of diversion of said water is one well herein designated as well No. 1-A located 148 Feet South and 33 feet West from the Northeast corner of the Northwest Quarter of the Southeast Quarter ($NW\frac{1}{4}$ $SE\frac{1}{4}$) of Section 19, Township 11 South, Range 19, E.B.M. and from a well herein designated as well No. 2 located 598 feet South and 15 feet West from the Northeast corner of said Northwest Quarter of the Southeast Quarter ($NW\frac{1}{4}$ $SE\frac{1}{4}$) of Section 19.

Fourth: That under the terms and conditions of said Permit, construction thereunder was required to be completed by June 9, 1950.

Fifth: That the use for which said water is intended is irrigation.

Sixth: That at the time said N. Bankhead filed his Application for the above numbered Permit on May 26, 1947 the said decedent intended to drill an additional well on the Northeast Quarter of the Northeast Quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$) of said Section 19 for irrigation of said forty-acre tract and the Southeast Quarter of the Southeast Quarter ($SE\frac{1}{4}$ $SE\frac{1}{4}$) of Section 18, Township 11 South, Range 19, E.B.M. That well No. 1-A was drilled in the fall of 1947 to a depth of 215 feet. Said well was drilled from 215 feet to 226 feet in June of 1948 and said well is now 226 feet deep. Said well is cased with 100 feet of 8-inch steel casing and is equipped with a Deming Turbine Pump driven by an electrically driven motor. The well is also equipped with 20 feet of 8-inch steel casing pipe leading from the well in an easterly direction to a small diversion reservoir. The well produces approximately 25 inches of water and is conveyed to the place of use from said diversion reservoir in open ditches.

Well No. 2 above described was drilled in April of 1949 and is drilled to a depth of 248 feet. Said well is cased for 12 feet with 10 inch steel casing and is equipped with a Pomona Turbine Pipe driven by a 130 HP Fairbanks Morse electric motor. Said well is also equipped with 450 feet of 8-inch Lockseam surface pipe which runs North from said well to the diversion reservoir above described. Said well is also equipped with a shut-off valve so that the water produced from the well may be diverted and carried directly West in open ditches for irrigation of a part of the land irrigated thereby. The water produced from said well when carried to said diversion reservoir is run through open ditches from said reservoir West to points of use. Said well produces approximately 70 inches of water.

Well No. 1-A produced water for irrigation during all of the crop seasons of 1948 and 1949 and well No. 2 produced water for irrigation during all of the crop season of 1949. Both of said wells are now being used for irrigation.

Seventh: Said works are capable of conducting to the place of intended use 100 inches of water.

That on account of the death of the said N. Bankhead in November of 1949 the contemplated third well which was to have been drilled in the Northeast Quarter of the Northeast Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$) of said Section 19 was not drilled and Affiant during the course of administration of decedent's estate has sold said Northeast Quarter of the Northeast Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 19 and the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 18 and is no longer interested in completing said well nor in irrigating said eighty-acre tract last described and does therefore make proof of completion of works on well No. 1-A and well No. 2 only.

That said eighty-acre tract last above described has been sold by Affiant to W. B. Savage of Kimberly, Idaho, and all priority rights to the above named Permit for said eighty-acre tract and the completion of the well on the Northeast Quarter of the Northeast Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$) of said Section 19 have been assigned to the said W. B. Savage and Affiant by making proof of completion of works on the land described in paragraph eighth hereof, makes such proof without prejudice to the rights of the said W. B. Savage to complete said well and apply the waters produced therefrom to beneficial use on said eighty-acre tract sold to the said W. B. Savage as aforesaid.

Eighth: That water appropriated under said Permit is available for 100 $\frac{1}{2}$ acres of land described as follows:

Northwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$)
(containing 40 acres);
Northeast Quarter of the Southwest Quarter (NE $\frac{1}{4}$ SW $\frac{1}{4}$)
(containing 40 acres); and
Lot Three (3) (sometimes described as Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$)
(containing 20 $\frac{1}{2}$ acres);
all in Section Nineteen (19), Township Eleven (11)
South, Range Nineteen (19), E.B.M., Twin Falls County,
Idaho.

Ninth: That the irrigation works under the above numbered Permit have been completed as above described, well No. 1-A having produced water during the crop season of 1948 and both of said wells having been used during the crop season of 1949 for the production of crops on the land described in paragraph eighth hereof. That both of said wells are now being used for the production of water to irrigate said land.

Hannah Bankhead

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. N. Barkhead
627 2nd Ave., South
Twin Falls, Idaho

Boise, Idaho **April 1, 1950**

Dear Sir:-

Under the terms of your permit No. ~~20088~~-----you are required to complete your diversion works on or before ~~June 9, 1950~~----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

Mr. N. Bankhead
627 2nd Ave. South
Twin Falls, Idaho

Dear Mr. Bankhead: .

We are in receipt of your letter of July 10th, in which you request additional time for commencement of work under Permit No. 20088, for the reason that you have been unable to get a well drill.

There is no provision in the statutes for extending the time for commencement of work under a permit, but no doubt you have done sufficient preliminary work in the way of survey and so forth to qualify as having started the work.

Very truly yours,

MARK H. KULP
State Reclamation Engineer

Dear Mr. Bankhead:

The enclosed application for Permit to appropriate 150 inches of underground water returned for the following corrections.

Under question 4, give the location of the well or wells to a legal 40-acre subdivision, or since we infer from a sketch map that there are three different wells you could give this information under "Remarks" on the third page, since there might not be room enough under question 4.

Your attention is called to the fact that the statutory fee, which amounts to \$5.50 and for which should accompany the application, has not been received.

Very truly yours,

**NOTICE OF PROOF APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at Two P. M. on the 24th day of October, 1950, at Twin Falls, County of Twin Falls, State of Idaho, before Frank L. Stephan, Notary Public, proof will be submitted of the application to beneficial use of two cubic feet per second of the waters of subterranean flow in accordance with the terms and conditions of Permit No. 20088 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Hannah Bankhead, surviving widow of N. Bankhead, and Administratrix of the estate of N. Bankhead, deceased, Twin Falls, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is two cubic feet per second.

The place where said water is used is Northwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$), Northeast Quarter of the Southwest Quarter (NE $\frac{1}{4}$ SW $\frac{1}{4}$) and Lot Three (3), sometimes described as Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$) all in Section 19, Township 11 South, Range 19 E.B.M., Twin Falls County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Private ditches.

The right to take water from such works is based upon Permit No. 20088.

The source of supply from which such water is diverted is two wells located in NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 19, Township 11 South, Range 19 E.B.M.

The date of priority which said user is prepared to establish is May 26, 1947.

MARK R. KULP.

State Reclamation Engineer

Publish: Sept. 14, 21, 28, Oct. 5, 1950.
