Re: Permits Nos. 19090 and 20025

Mr. J. R. Keenan

Dear Mr. Keenan:

We acknowledge receipt of your letter of January 7th, enclosing depositions of Mr. O. D. Tilley and two witnesses, also affidavit of publication in the Twin Falls Times-News, all in proof of beneficial use under the above numbered permits.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, as this Department has but one field engineer, who makes examinations all over the State. However, Mr. Tolman, Field Engineer for this department, will try to contact Mr. Tilley at the time he makes the examination, so that arrangements may be made to show him over the grounds.

When this examination has been made, and the report filed, we shall notify you as to the amount of fees. Meanwhile, we return your check for \$6.00 enclosed in your letter.

Dear Mr. Keenan:

We acknowledge receipt of your letter of November 26th, with enclosures as stated.

Dear Mr. Keenan:

Reference is made to your letter of November 3rd, relative to proofs to be made under the above numbered permits, in the name of C. D. Tilley.

Beneficial proof on both these permits can be combined in one notice, which you may make out in duplicate, following the form # 10 sent to Mr. Tilley, but so wording it as to show the necessary details for each permit separately.

Both copies of this notice, and also Form 11, to be returned to this department, and we shall then send a copy of the notice to the designated newspaper with instructions in regard to publishing.

However, on Permit No. 20025, the proof of completion of works has not been made, and this should be done before beneficial use proof is made. It may be made on Form 6, enclosed, and transmitted to this department with the statutory fee of \$5.00 in connection therewith.

Mr. O. D. Tilley hands me your notice to him that proof of beneficial use will be due January 17, 1947 (presume this meant 1948) on Permit No. 19090. He tells me that he is now ready to make proof of beneficial use also under Permit No. 20025.

May we publish one single notice on both permits provided that notice is so worded as to apply in the necessary particulars to both permits and you are furnished duplicate affidavit of publication so that you may make a complete file under each permit number? It would probably save some little publication cost if we can combine. Proof will be made before the undersigned.
