Application No. 26979

Mrs. Harriet E. McDermid
Filer, Idaho

~~MR~~ Dear Mrs. McDermid:

Application which has been filed under the above number is herewith returned for correction in the following particulars:

1. Question 11 refers to all the ditches- the main ditch leading from the well on to the land and the field ditches on the land itself, whether constructed at the present time, or to be constructed.
2. In Question 4 you describe the point of diversion as being 200 feet distant from the NW corner of the NE $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 32, and in the NE $\frac{1}{2}$ NE $\frac{1}{4}$ of the section; But 200 feet from the NW corner of the NE $\frac{1}{2}$ NE $\frac{1}{4}$ as shown on the plat is in the NW $\frac{1}{2}$ NE $\frac{1}{4}$. Please correct either the description in Question 2, or the plat.
3. If you wish to also include your 80 acres in Section 32, you may do so, but we are not quite sure whether it is the W $\frac{1}{2}$ NE $\frac{1}{4}$ or the N $\frac{1}{2}$ NE $\frac{1}{4}$ of this section. Please designate this, and we will fill in Question 14 accordingly.

You are allowed 60 days from date of first return for correction, as stamped in second line on back of application, to file completed application. If received after that date application can be refiled under a new number with later priority, requiring additional fee.

Yours truly,

JAMES SPOFFORD

Mrs. Harriet E. McDermid
Filer, Idaho

Dear Mrs. McDermid:

Your application for permit to appropriate 100 inches (or 2 second feet of water from a well, is returned herewith for the following corrections:

1. Fill in question 8, as to the kind of works- probably well, pump and ditches.
2. Fill in question 11, stating size of ditches, and length of same.
3. Make out two sketch maps, on the blanks enclosed, showing sections, township and range- also location of the land to be irrigated. Also show on this map the location of the well, in 40-acre subdivision.
4. Question 14 should also be filled out, showing the acreage to be irrigated in each 40-acre subdivision. However, in case you do not understand filling in this land tabulation, you may write it out on a separate sheet, and we will fill it in on the application form.
5. The filing fee of \$5.25 must accompany the application, before it can be given a number or a starting date. This is at the rate of \$5.00 for the first second foot, and 25 cents for each additional second foot, as shown on the back of the application.

Very truly yours,

That she is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 19476;

That the point of diversion is described in said Permit as being located about 200 feet distant from the Northwest corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 32, Twp. 11 S., R. 19 E., B.M., and conveyed to the place of use through the conduit marked in red, as per map filed herewith.

That she now requests that a second point of diversion be added to a point located at second well on map, approx. 340 feet East of SW corner of SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 29, and immediately north of the section line common to Secs. 29 and 32, said Twp. and Range, and conducted to the place of use through the same ditch, as per map referred to.

That her reasons for desiring to make such change are as follows: Applicant desires to sink a second well to tap the subterranean flow of water at a point which will make irrigation water more accessible for the lands to be irrigated as set forth on the map.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE
THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. 19476

Comes now Harriet McDermid and represents to the State Reclamation Engineer of the State of Idaho:

That she is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 19476;

That the points of diversion is described in said Permit as being located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, and the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29, Twp. 11 S., Range 19 E. B.M., and conveyed to the place of use through ditch, as per map filed herewith.

That she now requests that the point of diversion in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 29 be changed to a point located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 32, Twp. 11 S., Range 19 E. B.M., and conducted to the place of use through the ditch, as per map above referred to.

That her reasons for desiring to make such change are as follows: The well in Section 29 did not produce the amount required.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Boise, Idaho, this 29th day of Dec., 1948.

Harriet McDermid

Date of receipt at Department of Reclamation - Dec. 29, 1948.

Dear Water User:

As you are aware a large area in Twin Falls and Cassia Counties was designated as a critical ground water area in 1962. Since that time the State Reclamation Department has entered into a cooperative agreement with the U. S. Geological Survey to study the ground-water resources of the area. That study is now completed, and a report is being prepared. The state reclamation engineer is reviewing the hydrology and water level changes while considering the possibility of modifying the area that is designated as critical and closed to additional water development.

With regard to this the State Reclamation Engineer, R. Keith Higginson, will conduct a public meeting in the Murtaugh High School Auditorium at 7:30 P.M. on January 25, 1967. The locations and amounts of present water rights will be reviewed, and alternatives for modification of the area will be presented. In addition U. S. Geological Survey personnel will be present to relate what is now known of the ground water resources of the area.

Water users are encouraged to participate in the discussion, and all interested parties are urged to attend.

Very truly yours,

Jack A. Barnett

Attention- Mr. Leonard H. Jacob

Dear Mr. Jacob:

In reply to your letter of April 20th, in regard to transferring ownership of a license:

Either a recorded deed or an assignment will take care of the matter, and we enclose a form of assignment herewith.

However, as a license is evidence of a completed water right, it is not actually necessary to have the transfer recorded in this Department if it is included in a recorded deed. Such record of transfer or assignment is only required by this Department in the case of a permit which has not gone to license.

Some license holders, however, wish to have such a record made here, and as stated above either an assignment, or deed will answer the purpose. The fee for recording amounts to 50 cents for the assignment, or 20 cents per folio for the deed.

Re: Permit No. 19476

Mrs. Harriet E. McDermid
Filer, Idaho

Dear Mrs. McDermid:

We now have on file the report of our Field Engineer on examination for Beneficial Use under Permit No. 19476.

This report shows that you have irrigated 200 acres in the E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ Section 29 and the N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 32, Township 11 South, Range 19 East, B.M.

Therefore, upon receipt of the statutory fee of \$12.00, being at the rate of \$2.00 for each forty acre subdivision in which the land is located, a License will be issued for 1.6 second feet of water from 2 wells located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ of said Section 32 for supplemental irrigation of the land above described.

Mrs. Harriet E. McDermid of Filer, Idaho, has brought to my office a letter from your Department dated January 3, 1950, with which you enclosed blank notice for proof of application of water to beneficial use under the above Permit. In said letter you also advised that the proof of beneficial use must be made not later than March 7, 1950.

I wish to advise you that proof of beneficial use on the above numbered Permit was made by Mrs. McDermid on February 2, 1949 and the Deposition of Holder and Depositions of two witnesses, together with Affidavit of Publication were forwarded to you under date of February 14, 1949. You acknowledged receipt of the proof under date of February 18, 1949, and advised that your field engineer would make an examination of the works at some later date.

Will you please check this matter for me as Mrs. McDermid is somewhat worried about the matter, however I assured her that in all probability the notice she received recently was sent out by mistake.

Permit No. 19476

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. HARRIET E. MC DERMID, Filer, Idaho, Farmer, Box 425, Filer, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 19476, Permit dated 3-7-44 Priority Feb. 19, 1944

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean waters from two wells, - one located 200 feet south from the Northwest corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 32, and the other located at 575 feet south and 120 feet west of the northeast corner of NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 32 all in Twp. 11 S. Range 19 E. B. M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Wells are each equipped with an electric turbine pump - wells produce approximately 80 to 100 inches of water. Well in NE $\frac{1}{4}$ NE $\frac{1}{4}$ is 282 feet deep and well in NW $\frac{1}{4}$ NE $\frac{1}{4}$ is 325 feet deep. Water from East well is carried thru a 730 foot pipe line to south boundary of N $\frac{1}{2}$ NE $\frac{1}{4}$ thence conveyed in an open ditch approximately 1300 ft. east, thence northwest approximately 730 feet to west well. Water from two wells is then combined and flows through an open ditch along west line of N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 32 to land to be irrigated in Section 29, all in Twp. 11 S. Range 19 E. B. M.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All water is in use for irrigation of 40 acres in N $\frac{1}{2}$ NE $\frac{1}{4}$ of Sec. 32 and 160 acres of E $\frac{1}{2}$ SW $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 29, Twp. 11 S., Rge. 19 E.B.M. Approximately 200 acres of said land is cultivated at present time and approximately 40 acres of N $\frac{1}{2}$ NE $\frac{1}{4}$ will be cleared of sagebrush in fall of 1949 and water developed from above described wells and Rock Creek right will water whole 240 acres. There is no natural meadow land on above described property.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

19476

RMT

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. All water developed from two wells is necessary for crops because Rock Creek Water right is flood water right and not sufficient for entire season

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water from well in Section 29 originally covered by Permit has produced 40 inches of water from 1945 to and including 1948, caved in in August 1948 and Permit was amended to cover well in East portion of N $\frac{1}{2}$ NE $\frac{1}{4}$. Well in West portion of N $\frac{1}{2}$ NE $\frac{1}{4}$ produced approx. 40 inches from 1945 to and including 1948 on 200 acres above described.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans.

There is no natural meadow land on said property.

19476

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water used for irrigation

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is volcanic ash in character and will require 100 inches of water for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in said works, water or lands.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During crop seasons of 1946, 1947 and 1948 I have been familiar with land sought to be irrigated from water covered in permit, having inspected said premises and threshed clover seed on premises adjacent to property in question. Have seen between 70 and 80 inches of water produced from West Well in Sec. 32 and from well formerly in Section 29 used for irrigating said premises.

Dear Mrs. McDermid:

We are in receipt of your letter of February 2nd,
in reply to notice of proof of completion of works
due under the above numbered permit on or before
March 7, 1946.

Since there is a possibility of your work not being
completed by that time, in that the pump may not be
installed- it would be better for you to apply for
an additional extension, of- say- six months- and then
you can proceed to make your proof as soon as the work
is so completed, within that time.

We enclose a form of application for such extension.

Dear Sir:-

I am writing in regard to the,
"Proof of Completion of Work" on Permit-
number 19476.

The well has been dug, the ditches are
made, and Mr. Clinton Merrill of Boise loaned
us a pump last summer until the irrigation
season was over. Mr. Merrill is supposed
to have our new pump installed by March
but I am unable to contact him at the
present time. I am writing to ask you if
it would be considered illegal to give
the proof stating the cost of the new pump
ordered, or would you advise me to ask
again for an extension of time.

I have already spent \$3536.41, and
the pump I have ordered will be \$2000 more.
My lawyer here was not sure on this point.

Is there a special form to fill out
for wells?

Yours truly,

Mrs. Harriet E. McDermid

Boise, Idaho

January 2, 1946

Dear Sir:-

Under the terms of your permit No. 19476 you are required to complete your diversion works on or before March 7, 1946. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Sir, On account of labor being almost impossible to obtain, I am asking for an extension of time on Permit-19476. We thought we had everything going nicely when much snow stopped him and required our man to go work for him. We may be able to send the report in on the date required, but things look rather unfavorable at the present. If an extension of time, say one year, can be granted it would make us feel easier about it, though we shall continue to hunt for laborers.

Kindly inform me if such an extension can be granted. Thank you.

Dear Sir, I am returning papers corrected.
I hope they are all right.

The description of the land is as follows: -
 $N\frac{1}{2}$ of the $NE\frac{1}{4}$ of Section 32. (80 acres)

$E\frac{1}{2}$ of $SW\frac{1}{4}$ and $W\frac{1}{2}$ of $SE\frac{1}{4}$ of Sec 29, T. 11 S of R. 19, E. B. M.
(160 acres)

I have given you the ditches as nearly
accurate as possible. It so happens that in Sec 29
the land has a gentle slope each way from the
center.

Thank you for your kind help in
filling out No. 14.

Application No. 26979

Mrs. Harriet E. McDermid

~~RE:~~ Dear Mrs. McDermid:

Application which has been filed under the above number is herewith returned for correction in the following particulars:

1. Question 11 refers to all the ditches- the main ditch leading from the well on to the land and the field ditches on the land itself, whether constructed at the present time, or to be constructed.
2. In Question 4 you describe the point of diversion as being 200 feet distant from the NW corner of the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32, and in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of the section; But 200 feet from the NW corner of the NE $\frac{1}{4}$ NE $\frac{1}{4}$ as shown on the plat is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$. Please correct either the description in Question 4, or the plat.
3. If you wish to also include your 80 acres in Section 32, you may do so, but we are not quite sure whether it is the W $\frac{1}{2}$ NE $\frac{1}{4}$ or the E $\frac{1}{2}$ NE $\frac{1}{4}$ of this section. Please designate this, and we will fill in Question 14 accordingly.

You are allowed 60 days from date of first return for correction, as stamped in second line on back of application, to file completed application. If received after that date application can be refiled under a new number with later priority, requiring additional fee.

Gentlemen,

In answer to "11", I am not quite sure whether you want the field ditches, or from the point of diversion to irrigating ditches. From the location of the well to our regular irrigating ditch ~~will~~ be about 300 yards. The other ditches are already made. They are simply distributing ditches to the land. These we have used for the water we get from Rock Creek in the flood water months.

As to "14" you can see from the map where my land

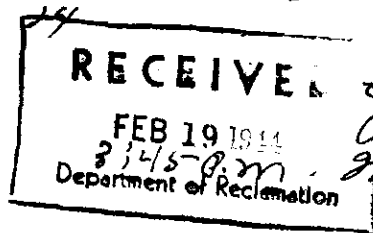

19476

is located, and I would appreciate it greatly if you would put in the description

This is the description of the land we wish to irrigate $E\frac{1}{2}$ of the $SW\frac{1}{4}$ and the $W\frac{1}{2}$ of $SE\frac{1}{4}$ of Section 29, T. 11, S. R. 19, E. Boise Meridian, Idaho containing 160 acres. This is the description taken from the deed. I would say 80 in on each 80 acres.

We had thought of supplementing the water on our 80a. in 32, but if this is not in accordance with the law just cross that off.

Thank you very kindly for offering to help me in no.

yours very truly,

Dear Mrs. McDermid:

Your application for permit to appropriate 100 inches (or 2 second feet of water from a well, is returned herewith for the following corrections:

1. Fill in question 8, as to the kind of works- probably well, pump and ditches.
2. Fill in question 11, stating size of ditches, and length of same.
3. Make out two sketch maps, on the blanks enclosed, showing sections, township and range- also location of the land to be irrigated. Also show on this map the location of the well, in 40-acre subdivision.
4. Question 14 should also be filled out, showing the acreage to be irrigated in each 40-acre subdivision. However, in case you do not understand filling in this land tabulation, you may write it out on a separate sheet, and we will fill it in on the application form.
5. The filing fee of \$5.25 must accompany the application, before it can be given a number or a starting date. This is at the rate of \$5.00 for the first second foot, and 25 cents for each additional second foot, as shown on the back of the application.
