Dear Mrs. Crockett:

We enclose herewith, license and certificate of water right No. 18141, confirming your right to the use of 1.16 cubic feet per second from a drilled well located in the SW¹/₄ SW¹/₄ Section 25, Township 12 South, Range 18 East, B. M. Twin Falls County with priority June 4, 1935.

This water is to be used for the irrigation of a 108 acres of land as described in Sections 11-13-14 and 25, Township 12 South, Range 18 East, B. M.

In an office letter addressed you on January 30, 1947 we erroneously included the E¹/₂NE¹/₄ of Section 11, which was not described in your permit. This acreage is, therefore, not included in your license. This, therefore, reduces the amount of a statutory fee to \$12 instead of \$16, the amount of your payment. The departmental receipt 19792 is enclosed for the \$12 fee and we are also enclosing \$4 in currency by way of refund.

Mrs. Carrie Crockett
Route 2
Hansen, Idaho

Dear Mrs. Crockett:

We now have on file the report of our Field Engineer on examination for beneficial use under your Permit No. 18141.

This report shows that you are irrigating 138 acres of land in the following subdivisions:

NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 11;
NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 14;
NW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13;
SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 25;
Township 12 South, Range 18 East, B.M.

The statutory fee, therefore, will amount to \$16.00, being at the rate of \$2.00 for each legal subdivision in which the land is located.

Upon receipt of this amount a license will be issued for 1.16 second feet of water from a drilled well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 25, Twp. 12 South, Range 18 East, B.M.

Attorney at Law
Twin Falls, Idaho

Dear Mr. Hamilton:

We acknowledge receipt of your letter of July 18th, enclosing the deposition of Edwin D. Crockett in connection with beneficial use proof under the above numbered permit.

This, with the depositions previously submitted, and the affidavit of publication in the Twin Falls Times-News, completed this proof.

Before final action can be taken in the matter, however, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this Department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this department, will try to contact Mrs. Crockett at the time he makes the examination, so that arrangements may be made to show him over the ground.

Hon. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Mr. Kulp:

Letter July 5, 1946 received. I have just written Mrs. Crockett to send in a witness who will act in this matter. I think the difficulty has arisen from the fact that the individuals who prepared the blanks years ago copied everything that was permissible from the government forms for land proofs and that since that time we have learned to go down the "cali paths of the mind". The statement which is construed is for the purpose of preventing fraud in proofs. This proof is for the same water right upon the same land without change except that an additional owner of the portion of the land.

It is recalled that in the early ~~Carroll~~ Act Entries, Idaho adopted the final certificate proceedings the issuance of a patent and that about everything that has been done in the State has been for the purpose of forms largely borrowed from land office records which possibly are not applicable.

It is usually difficult to find witnesses of this kind that are familiar with detailed facts. A neighbor knows the residence of the applicant but is not familiar with the details. A member of the family who has lived on the land and helped farm it is certainly better informed than a neighbor. However, this rule is in keeping with other requirements by the state departments, particularly calling attention to the birth certificate requirements which will not recognize the affidavit made by the father of the child but a stranger is required who usually has to needle his conscience before making the affidavit.

Very truly yours,

Dear Mr. Hamilton:

We acknowledge receipt of the depositions of Carrie Crockett, and two witnesses, also affidavit of publication in the Twin Falls Times-News, all in proof of beneficial use under Permit No. 18141.

However, we note that one of these witnesses, George D. Crockett, states that although he had no interest when the permit was granted, he has since become the owner of 120 acres of the land to which the water claimed is appurtenant.

For that reason we do not believe that he can qualify as a disinterested witness, and we must ask that you furnish the deposition of another witness in lieu of the one submitted by him.

We enclose a form of deposition for your use.

Dear Mr. Hamilton:

We have made out corrected notice in connection with beneficial use proof to be made on Permit No. 18141, in the name of Carrie Crockett, on July 1st, before you, as Notary Public.

A copy of the notice has been sent to the Twin Falls Times-News, with instructions to publish it once a week for four weeks prior to the date set for proof, and to send Mrs. Crockett the affidavit of publication, together with statement of costs.

About ten days prior to the date set we shall send you the forms of deposition for the holder and two witnesses--and at the time set Mrs. Crockett should appear at your office, together with two witnesses, who are familiar with the terms of the permit and the works constructed thereunder for the purpose of executing the depositions.

Mr. S. T. Hamilton
Attorney at Law
Twin Falls, Idaho

Dear Mr. Hamilton:

We acknowledge receipt of your letter of May 18th, enclosing notice of beneficial use to be made on the above numbered permit by Carrie Crockett.

However, this notice differs from the permit itself in two instances: First, the permit calls for five cubic feet per second, whereas the notice only described 50 "cubic inches". Does she only want to prove up on 50 inches, instead of the 5 cubic feet per second, or 250 inches filed on?

And the land description is quite different from that given in the application and permit, which describes 265 acres of land located as follows: NW $\frac{1}{4}$ SW $\frac{1}{4}$ and S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 25; NW $\frac{1}{4}$ Section 13; NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 14; W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 12; and E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 11; Township 12 South, Range 8 East, B.M.

If the land on which the water is used has been changed, Mrs. Crockett may file an application for amendment on Form 12 enclosed. On the other hand, if this is an error in the notice, we suggest that a new notice be made out on the forms enclosed.

We shall await your further advices.

Dear Madam:-

We acknowledge receipt of your Affidavit for proof of completion of works under the above numbered permit, together with your check for the \$5.00 fee.

However, in checking your land list as given in the affidavit, we find that it does not exactly agree with the land list shown on the permit, in the following particulars: The permit describes the NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 25, whereas your affidavit only describes the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$ (this latter forty not being included in the permit; Your permit also includes both the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, while your affidavit only mentions the SE $\frac{1}{4}$ SE $\frac{1}{4}$. The rest of the description is the same.

This may be an error in the affidavit, and if so we can correct it for you; but if you wish to change your land list there is a regular form for making application for such amendment, which we can furnish you upon request.

Please let us hear from you promptly in regard to this matter- so that Certificate of Completion of Works may be issued.

Hansen, Idaho.

Dear Madam:-

We acknowledge receipt of your Affidavit for proof of completion of works under the above numbered permit, together with your check for the \$5.00 fee.

However, in checking your land list as given in the affidavit, we find that it does not exactly agree with the land list shown on the permit, in the following particulars: The permit describes the NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 25, whereas your affidavit only describes the NW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SW $\frac{1}{4}$ (this latter forty not being included in the permit; Your permit also includes both the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, while your affidavit only mentions the SE $\frac{1}{4}$ SE $\frac{1}{4}$. The rest of the description is the same.

This may be an error in the affidavit, and if so we can correct it for you; but if you wish to change your land list there is a regular form for making application for such amendment, which we can furnish you upon request.

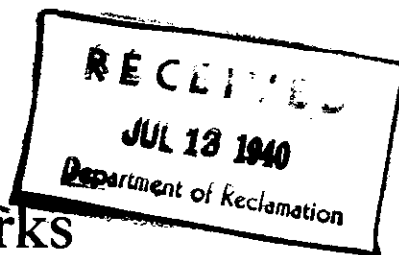

Please let us hear from you promptly in regard to this matter so that Certificate of Completion of Works may be issued.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Carrie Crockett
Route 2
Hansen, Idaho

Boise, Idaho, **May 3, 1940**

Dear Sir:—

Under the terms of your permit No. 18141 you are required to complete your diversion works on or before July 11, 1940. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

JAMES SPOFFORD

Commissioner of Reclamation.

Dear Madam:

We are again returning the above application to appropriate 5 cubic feet of water per second from subterranean sources with the request that you reconcile certain statements.

Under paragraph 11, you have given the length of your ditch as one-tenth of a mile, whereas, some of the land shown on your plats is located a distance of $4\frac{1}{2}$ miles from the well.

Under "Remarks" you say that the water to be diverted will be used upon a total of 250 acres of land comprising a portion of the subdivisions listed under paragraph 14. Your land list actually shows 430 acres and the plat shows more than that amount. Will you kindly correct the land list to show only the lands you propose to irrigate and prepare a new plat which will conform to this list. Also submit a filing fee of \$6.00.

Very truly yours,

Dear Madam:

We are herewith returning your application to appropriate the waters of a well to be used for irrigation purposes. You will note that we have filled in certain information in the application which we shall endeavor to explain.

Under paragraph 2, setting forth the quantity of water claimed, we have written in one (1) cubic foot per second. This is the maximum quantity you are entitled to appropriate for that acreage shown under paragraph 14. One cubic foot per second continuous flow is equivalent to fifty (50) miners' inches under the Idaho Statutes, and one is entitled to one (1) miners' inch for each acre of land which he proposes to irrigate. Secondly, we have given the source as subterranean water, since the State defines all water originating under the surface as subterranean.

We have also changed the land described under paragraph 14 to show twenty (20) acres in the NW₁ SW₄ instead of the acreage shown by you in the SW₄ NW₄.

Will you kindly answer paragraphs 7, 8, 10 and 11 and return the application to this Department with a filing fee of five dollars (\$5.00). This fee is calculated at the rate of \$5.00 for the first second foot or less and twenty-five cents (25¢) for each additional second foot, or fraction thereof.

Yours very truly,

Dear Sir; I am returning the application for permit to file on subterranean water, I have tried to show as nearly as possible the division on the subdivisions which can actually be irrigated with water from this source.

The ditch from the well would not be more than one tenth of a mile but the water would be taken out of Rock Creek at other points of diversion for the different divisions of land the ditches to carry this water are all ready in use there are three ditches in section 25, two each $\frac{1}{2}$ mile long and the other about $\frac{3}{4}$. the one to irrigate the land in sec. 13 is about $1\frac{1}{2}$ miles and the one for the rest is about the same.

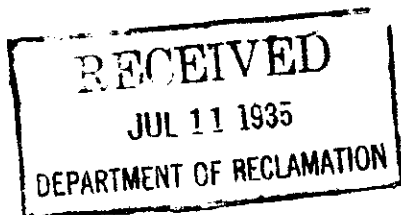

I hope I have given the correct information and explained fully how the water will be conveyed to the different lands.

Am enclosing the fee of \$6.00 Thanking you for your assistance •

Dear Sir; I am enclosing Application for permit to appropriate water, (form no 1) for use for irrigation, this water will be produced from a drilled well but have not yet started the work and am not sure just when I will be able to do so so cannot say what amount of water there will be but would like to file on about 500 inches, Will you please send me information as to the no of cubic feet per second that will be and also the filing fees for that amount and less.

Is it possible for another party to file on water (subterranean) on this property with out my consent when the land belongs to me?

Thanking you very much for this information I am,
Very truly yours.
