Dear Mr. Williams:

We acknowledge receipt of the Deposition of Holder and two witnesses, also a affidavit of publication in the Times-News, all submitted in proof of completion of works and beneficial use on Permit No. 25408.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

Honorable George N. Carter,

Re: Permit No. 25408.
W. T. Williams.

Dear Mr. Carter:

Enclosed herewith are the Depositions of W. T. Williams, holder of the above permit, and of Henry Wageman and Jay Greene, witnesses all of which Depositions are submitted in proof of application of water to beneficial use and completion of works. Also attached to the Depositions is the Affidavit of Publication of the hearing at which depositions were taken.

I believe that these are in good order. In the answer to Question 11 Mr. Williams was unable to furnish me the permit number of a supplemental filing that he has on the same water supply which is diverted out of the same works. I agreed with him that I would hold up sending the papers in until he could furnish me that permit number but he apparently is unable to do so and so to avoid any further delay I am submitting the proof in its present form. Since his works are completed and he is putting to beneficial use the water from the supplemental permit, it would have seemed better for him to handle the proof on both permits simultaneously; however, that was not done and I suppose he can take care of the other permit at a later date.

If there is anything further for me to do herein, please let me know.

Very truly yours,

T. M. ROBERTSON

Dear Sir:

Under the terms of your permit No. 25408 you are required to complete your diversion works on or before Feb. 11, 1960. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Geo. N. Carter
