We also advised you that the last date to submit these forms would be January 18, 1969, in order to have your permit reinstated.

You notified the Department of your intent to have these forms notarized and said that you would submit them to the Department. Today is January 21, 1969, and the Department has not received these forms. We have, however, received the affidavit of publication that was also requested by the Department. Please have the enclosed forms notarized and returned to the Department on or before January 31, 1969, if you still wish to make proof of beneficial use of the water. If you fail to submit this item, there is no way the Department can reinstate your permit.

The Department will recognize November 21, 1968, as the date the above mentioned proof was due as this is the date that we received your notation about having sent proof forms to the Department.

If this action is not suitable to you, please advise the Department, and feel free to contact us if you have any further questions.

Dear Sir

In reply to your letter. we haven't been able to furnish you an affidavit of publication as we haven't received one. So in checking with the Times News are sending you a duplicate with the ad that was published. We sent you notarized forms that you don't seem to be able to locate. Can't understand this as they haven't been returned.

However will return the other forms and am still confused.

Dear Mr. Sill:

On November 18, 1968, the Department sent to you a lapse notice for failure to submit the affidavit of proof of beneficial use on the above referenced permit. On November 21, 1968, the Department received the lapse notice with your notation at the bottom. The Department has since that time been looking for and hoping to receive this affidavit in the mail; however, we are unable to locate it. In order for us to reinstate your permit, we must be in receipt of this affidavit on or before January 18, 1969. We are enclosing an additional affidavit to be used in this matter.

The Department has also, we find, written to you about the advertising of the existence of your permit. As of this date, we find that we have not received the affidavit of publication which may be obtained from the Times News, Twin Falls, Idaho. Please obtain this item and submit it with the proof affidavit to the Department.

Your cooperation is greatly appreciated and we regret that we have caused you any inconvenience.

Dear Sirs:

With regards to your certified letter of Sept. 16, we have a question. The description of the R-1169 permit is for a reservoir which has been in use for five years and we wonder if there isn't a mixup with a later permit we have been granted to build another reservoir T 12 S R13 E Sec. 24.

If your letter is correct, we will proceed as required but would like to be sure before we send in the advertisement.

Re: Permit No. R-1169

Lawrence R. Sill
Castleford, Idaho 83321

Dear Mr. Sill:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
