NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that W. T. Williams, Route 2, Twin Falls, Idaho, has received an approved permit No. R-831 issued by the Idaho State Reclamation Department authorizing the storage of 1,500 acre feet per annum of water from Cottonwood Creek subject to all prior rights. The priority to be established under this permit is May 4, 1949 (subject to late proof) and the permit was approved May 18, 1949. Water is to be diverted by dam and reservoir from a point within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 26, T. 13 S., R. 17 E. B. M., Twin Falls, County, to be used for irrigation and domestic purposes in the W $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 22; SW $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{2}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 15; W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 27; NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 28; NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; E $\frac{1}{2}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 16, T. 12 S., R. 17 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before May 18, 1960. Any protests against the issuance of license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Dear Mr. Williams:

A representative of this Department has made an examination of the works covered by your Permit No. R-831/47-2448 and has found the following:

Quantity of water diverted: 1500 acre feet

Amount of water that can be recognized as beneficially used under Idaho law: 1500 acre feet

The maximum quantity diverted shall not exceed 1500 acre feet per year.

Beneficial use: Irrigation of 720 acres within the S1/2NW1/4, SW1/4 (108) Sec. 15; SE1/4SE1/4 (10) Sec. 16; NE1/4NE1/4, S1/2NE1/4, SE1/4 (204) Sec. 21; NW1/4, SW1/4, W1/2SE1/4, (188) Sec. 22; W1/2NE1/4, NW1/4 (143) Sec. 27; N1/2NE1/4 (67) Sec. 28; Twp. 12 S, Rge. 17 E, B.M.

Point of diversion: NE1/4NE1/4 Sec. 26, Twp. 13 S, Rge. 17 E, B.M. Source: Cottonwood Creek

Priority date established: April 2, 1958

The place of use found by our field examiner differs from that listed under your permit, therefore, it will be necessary for you to amend the permit before a Water License can be issued. We are enclosing a partially completed application for amendment for your use. Please sign the application and return it to this office with a \$10.00 filing fee within 10 days of the date of this letter in order that we may issue a water license as set forth above.

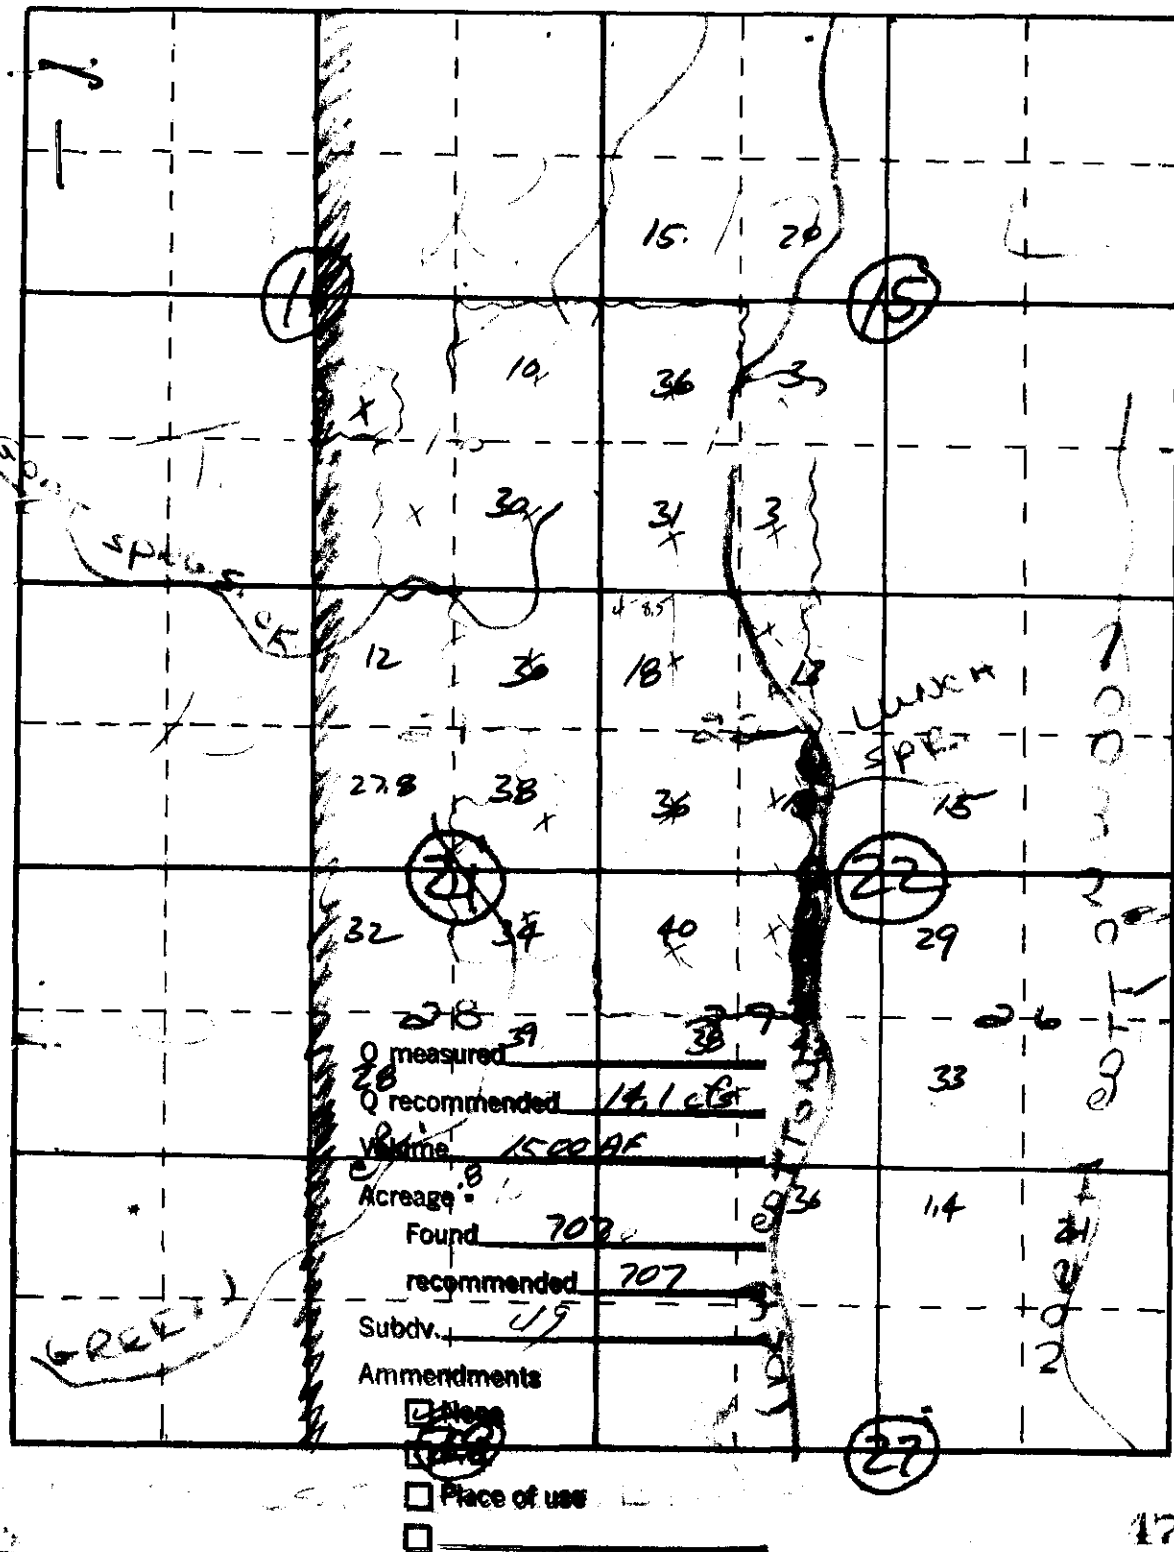

If you do not concur with these findings or have any questions, please contact us within the 10 day period.

Quantity of water found 1500 A.F.
How was the measurement made? odometer & CAR, ASCS map.
Measurement calculations The dam at the widest point is approx 1/2 mile wide and 1/2 mile long. Our best estimate was it covered 75 acres. The water is approx 40-45 Feet deep at the deepest point which would be in the bottom of the canyon and where the fill was dug up. The average depth would be as nearly as I could tell 20 Feet. This would make 1500 A.F. in the reservoir at the present time. The reservoir is filled only by spring runoff.

If water is used for purposes other than irrigation, fully describe how the water is used and what is done with it after the use.

Comments cont'd

Mr. Williams has plans in the near future to make the spillway much wider in deeper in places so that if it fills with snow & ice it won't hamper the flow of excess water out of the reservoir.

Who represented the permit holder at the examination?

W.T. Williams

Recommended allowance for licensing 1500 Acre Feet.

Description of required amendments. Comments.

The spillway is a natural ravine that has been dug out some. It's about 20' wide at the top 8' deep and 6' wide at the bottom.

The dam is mostly clay from hill sides that now compose the bottom of the reservoir.

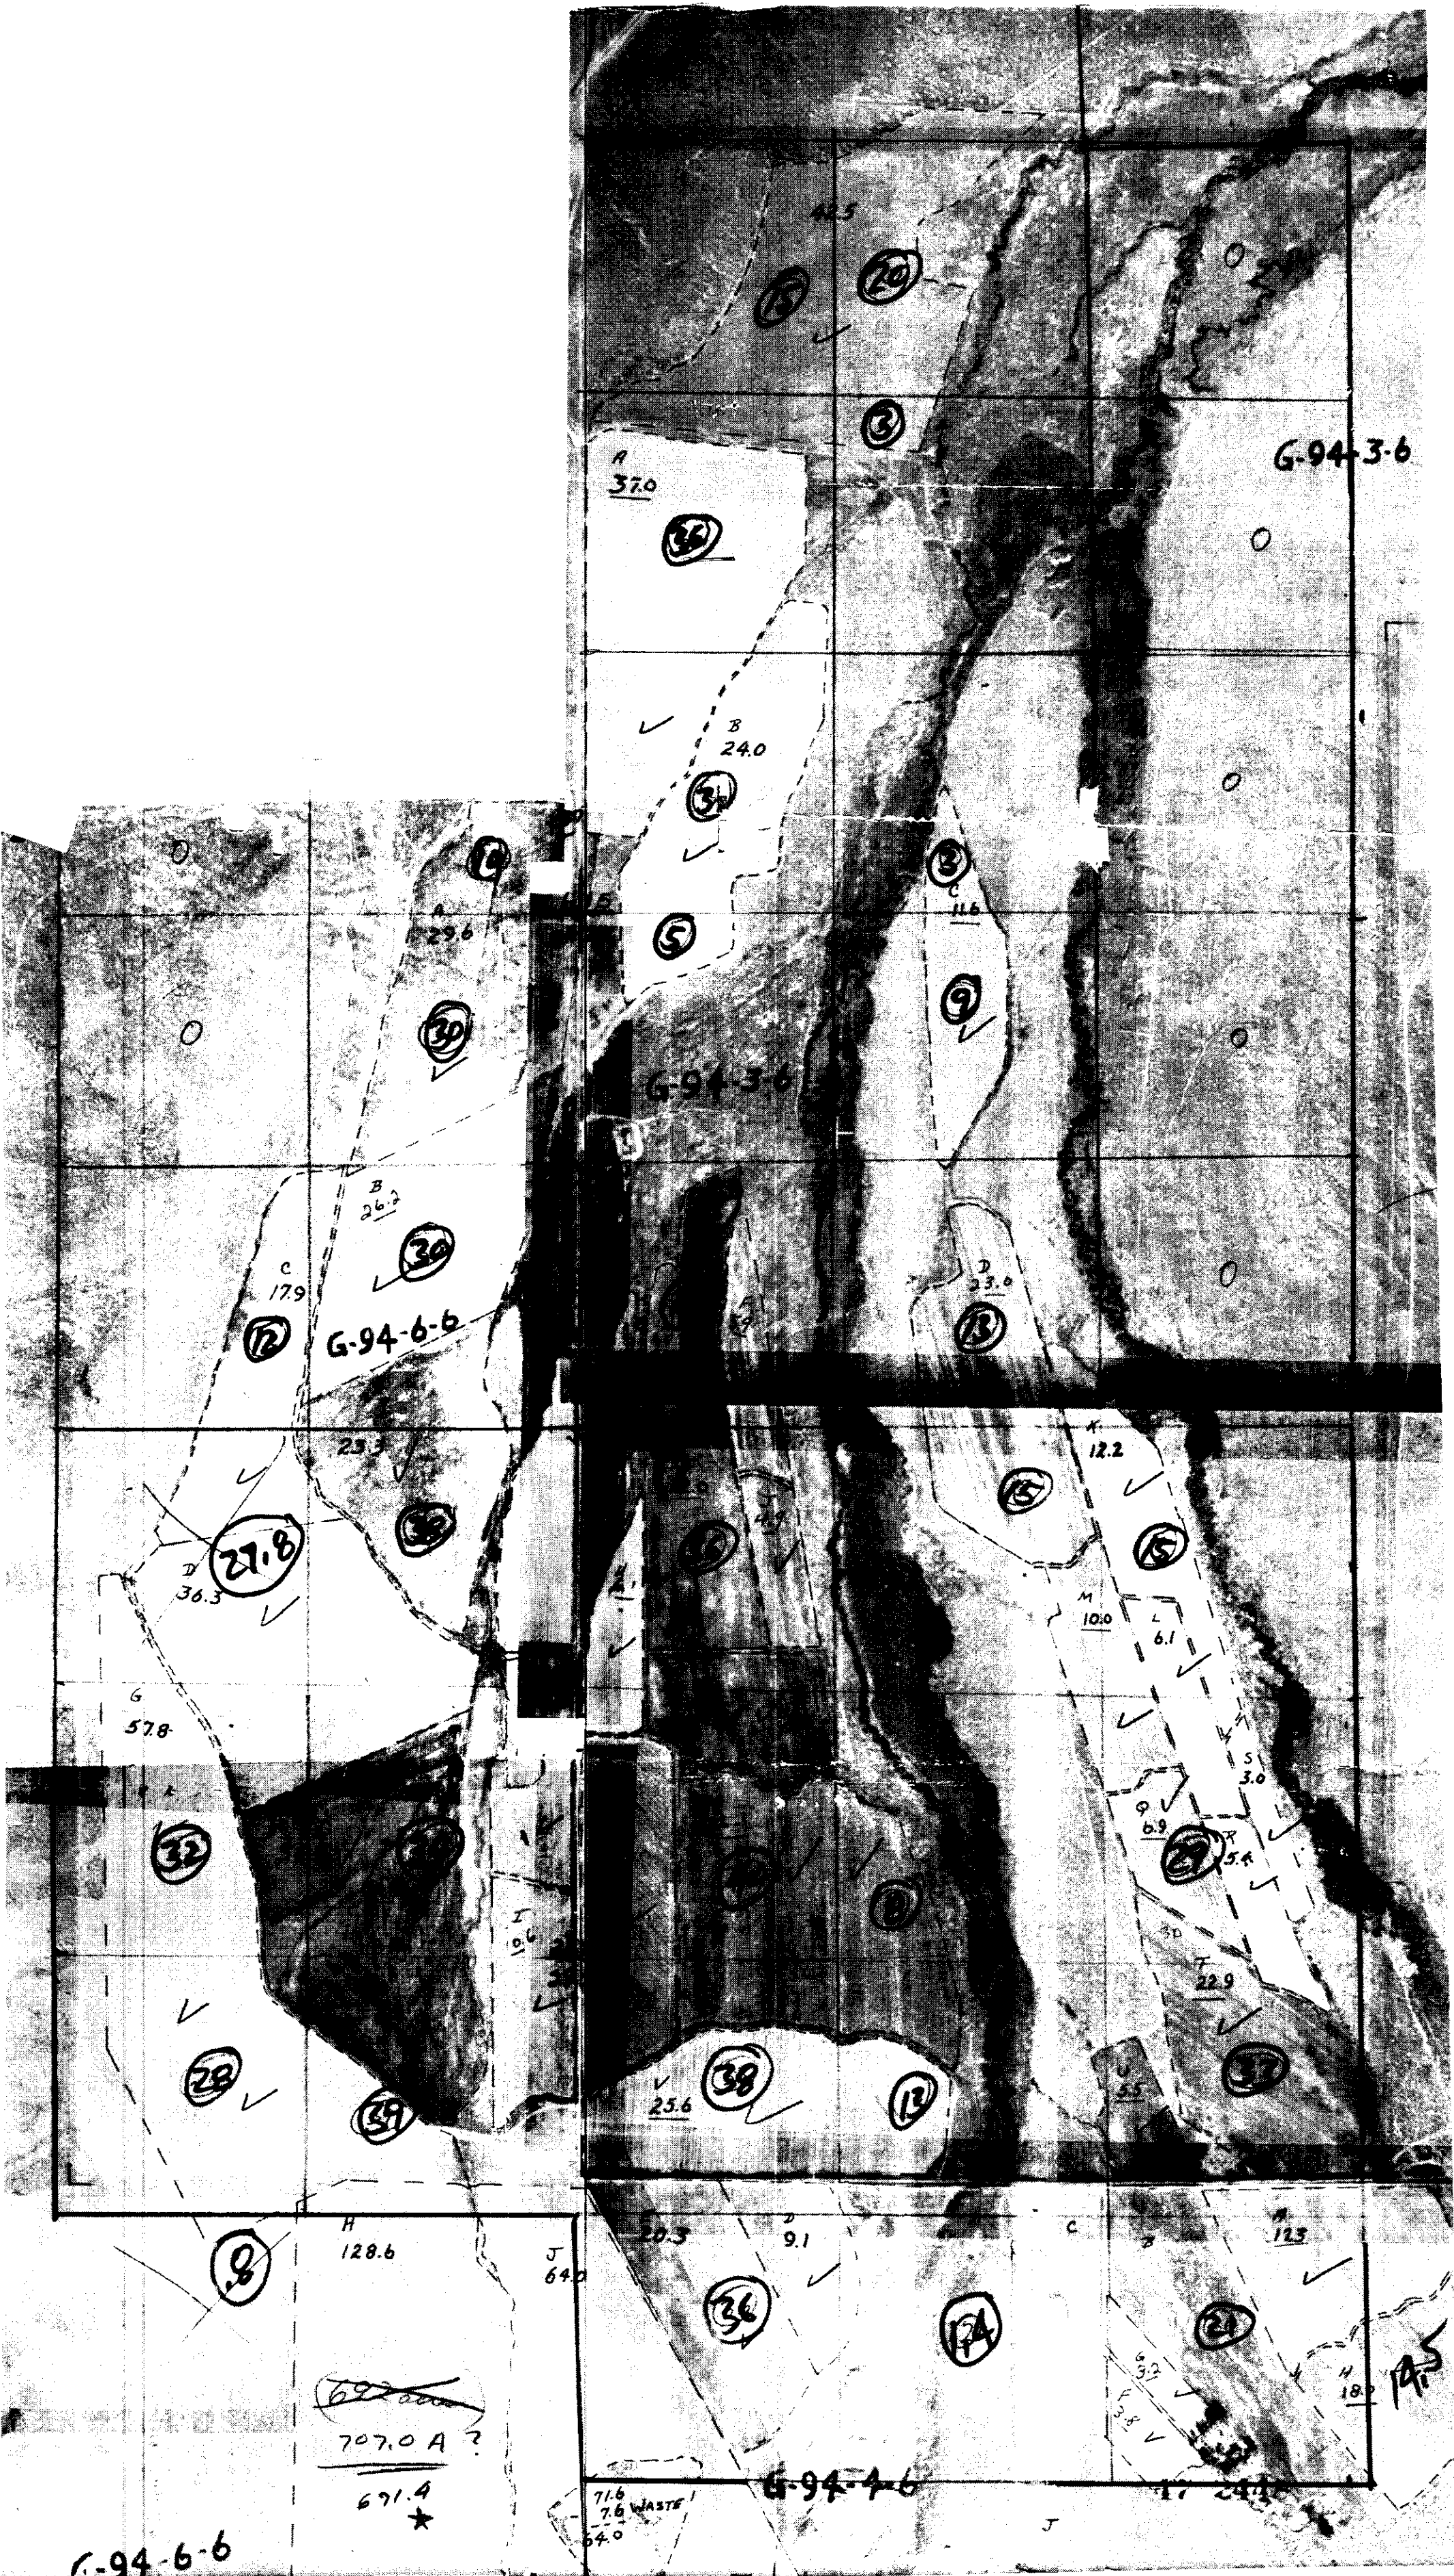

Mr. Williams has irrigated all the land listed and could if necessary irrigate more. He has other rights; 900 shares in Salmon Dam, a 350 AF reservoir, and 6 CFS from pumping in Rock Creek.

**NOTICE OF EXISTING WATER
PERMIT**

Notice is hereby given that W. T. Williams, Route 2, Twin Falls, Idaho, has received an approved permit No. R-831 issued by the Idaho State Reclamation Department authorizing the storage of 1,500 acre feet per annum of water from Cottonwood Creek subject to all prior rights. The priority to be established under this permit is May 4, 1949 (subject to late proof) and the permit was approved May 18, 1949. Water is to be diverted by dam and reservoir from a point within the NE 1/4 NE 1/4 Sec. 26, T. 13 S., R. 17 E., B. M., Twin Falls, County, to be used for irrigation and domestic purposes in the W 1/2 NE 1/4, W 1/2 SE 1/4, Sec. 22, SW 1/4 NE 1/4, W 1/2 W 1/2 SE 1/4, Sec. 15, W 1/2 NE 1/4, NW 1/4 Sec. 27, NE 1/4 NE 1/4 Sec. 28, NE 1/4 NE 1/4 SE 1/4, S 1/2 SE 1/4 Sec. 21, E 1/2 SW 1/4 NW 1/4, E 1/2 SW 1/4 Sec. 16, T. 12 S., R. 17 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before May 18, 1960. Any protests against the issuance of license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

IN THE MATTER OF REINSTATEMENT OF PERMIT NO.)

ORDER OF REINSTATEMENT

R-831 in the name of W. T. WILLIAMS)

WHEREAS, W. T. Williams applied to the Department of Reclamation on May 4, 1949, for a permit to appropriate the public waters of the State of Idaho, proposing the storage of 1,500 acre feet per annum from Cottonwood Creek for use in Sections 15, 16, 21, 22, 27 and 28, T. 12 S, R. 17 E, B.M., Twin Falls County, Idaho; and,

WHEREAS, on May 18, 1949, Permit R-831 was approved with the condition that one-fifth of the work was to be completed on or before November 18, 1951, and that the whole of said works was to be completed on or before May 18, 1954, and that the water be appropriated to a beneficial use on or before May 18, 1960; and,

WHEREAS, proof of completion of works was submitted on March 27, 1954 and the certificate of completion of works for 1,600 acre feet was issued on April 1, 1954; and,

WHEREAS, proof of application of the water to beneficial use was submitted to the Department on April 22, 1954, and subsequently withdrawn by the permit holder; and,

WHEREAS, on March 1, 1960, the Department notified the permit holder that proof of application of the water to beneficial use was due, and on April 5, 1968, notified the permit holder that the permit was subject to cancellation for failure to submit the required proof; and,

WHEREAS, on June 17, 1968, Permit R-831 was cancelled for failure to submit proof of beneficial use; and on October 16, 1968, Permit R-831 was reinstated, in that the permit holder had given the Department notice that he was submitting proof, allowing the permit holder to proceed with the submission of the required proof of beneficial use; and,

WHEREAS, on March 28, 1969, Permit R-831 was lapsed since proof of application of the water to beneficial use had not been received; and,

WHEREAS, on April 16, 1969, the Department received the required proof of application of the water to beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of notice of lapsing; and,

WHEREAS, submission of an affidavit of proof of application of the water to beneficial use is considered as a reasonable showing as to why the permit should be reinstated;

THEREFORE, IT IS HEREBY ORDERED that Permit R-831 be REINSTATED and the priority reduced to April 2, 1958.

Dear Mr. Colman:

Please find enclosed an order modifying permit No. R-811 to comply with the Rules of Practice and Procedures as adopted by the Department of Reclamation on August 1, 1968. These procedures generally make it easier for a person to submit proof.

Mr. Williams will be required to publish a notice for two weeks rather than the previously required four weeks. Enclosed is a copy of the notice which we have sent to the newspaper. Also enclosed is a proof form which must be completed and notarized by a notary public.

You should be further advised that permit no. R-811 has automatically lapsed because of this modification as proof of beneficial use of the water was not submitted.. The permit will be reinstated upon receipt of the beneficial use form we have enclosed.. Bear in mind that the Department must receive this proof within 60 days from the date of notice of lapsing which is being forwarded to the applicant along with copies of the enclosed information.

If you have any further question, please contact the Department,

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. R-831 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Re: Permit No. R-931

Dear Keith:

Mr. W. T. Williams was in my office on Friday of last week and requested that I help him in obtaining a license on the above designated storage permit.

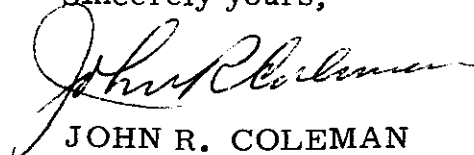

In reviewing this matter I find that a certification of completion of work was issued April 1, 1954.

I have prepared and am enclosing herewith the authorization for publication of proof of application of water to beneficial use, together with a notice of proof of application of water to beneficial use which I have completed and designated a time and place for the presentation of such proof.

In 1963 we organized a corporation for Mr. Williams and transferred all of his farm and ranch property to the corporation. The name of the corporation is W. T. Williams, Inc. I have prepared the enclosed notice and authorization using the corporate name and will prepare and have Mr. Williams execute an assignment of this right to the corporation so that such assignment is completed in your office prior to the date proof is taken on this application. Would you please send me the necessary forms to complete this assignment.

If in reviewing your file concerning this permit you find any additional information which I should be aware of, please feel free to contact me.

Sincerely yours,

BEFORE THE STATE RECLAMATION ENGINEER
OF THE
STATE OF IDAHO

IN THE MATTER OF REINSTATEMENT OF
PERMIT NO. R-831; W. T. WILLIAMS

MEMORANDUM DECISION

On May 4, 1949, W. T. Williams filed with the Department of Reclamation an application for permit. On May 18, 1949, the application was approved and a permit was issued for the storage of 1,500 acre feet per annum of the waters of Cottonwood Creek with a point of diversion located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 11, Township 12 South, Range 17 East, Boise Meridian for domestic use and irrigation of 1,960 acres.

The permit required that Proof of Completion of Works be submitted on or before May 18, 1951 and that Proof of Beneficial Use of the water be made on or before May 18, 1960. Proof of Completion of Works was made on March 27, 1954 and the Certificate of Completion of Works was issued April 1, 1954.

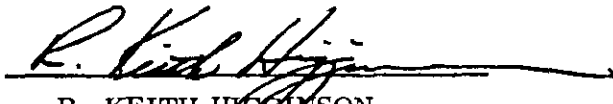

On March 1, 1960, W. T. Williams was notified that Proof of Beneficial Use was required on or before May 18, 1960. The department, having received no Proof of Beneficial Use, notified the permit holder on April 5, 1968 that the permit in question was subject to cancellation for failure to submit Proof of Beneficial Use.

On May 14, 1968, the permit holder submitted notice of his intention to make Proof of Beneficial Use of water and notice of his intent to make proof was published in the Citizen Recorder, Filer, Idaho.

On June 17, 1968, the department improperly and in error cancelled the permit in question.

The State Reclamation Engineer finds that Permit R-831 was cancelled in error by the Department of Reclamation and it is hereby ordered that such permit be reinstated and that the permit holder, W. T. Williams, should be allowed to proceed with the completion of the requirements of his permit.

Dated this 16TH day of October, 1968.

RE: Permit No. R-831

Date March 1, 1960

Route #2
Twin Falls, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. R-831 is due not later than May 18, 1960. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated—by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Gentlemen:

We have checked the notices appearing in your issue of March 29th, in connection with the above numbered permits of William T. Williams and note the following correction to be made in the land description as contained in paragraph 5 on Permit No. R-831. In the second line there should be a comma between NW $\frac{1}{4}$ and SW $\frac{1}{4}$. You realize this makes quite a difference in the description and please be sure to make the correction in your subsequent issues.

We also note that you have named E. L. Rayborn as the Notary Public instead of Roy Smith as in the notice sent you, but we assume that you were instructed to make this change by Mr. Williams.

PROOF OF COMPLETION OF WORKS

Mr. W. T. Williams
Route 2
Twin Falls, Idaho

Boise, Idaho **March 1, 1954**

Dear Sir:-

Under the terms of your permit No. **R-831**
May 18, 1954 you are required to complete your diversion works on or before _____ I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

RE: Permit No. R-831

Mr. Wm. T. Williams
Route 2
Twin Falls, Idaho

Dear Mr. Williams:

Under separate cover, we are returning to you, one complete set of plans for a dam which you wish to construct in the Cottonwood Basin in Section 26, Township 13 South, Range 17 East, B.M., Twin Falls County, Idaho, and four partial sets of plans. In the completed set, there are three sheets and in the other sets there are two sheets of each.

Possibly it would be well to put a designation of supplemental sheet 1-A on the third sheet, inasmuch as that is the designation that is on the copy that has been retained for this office.

We just happened to check your Permit No. R-831 which pertains to this same reservoir and find that you filed on 1,500 acre feet. Inasmuch as your plans show considerably more water, it would be well for you to make either a new filing or an additional filing if you wish to obtain title to all the water which you will be able to store.

We are glad to be able to approve these plans so that you can begin construction of your reservoir.

Mr. Wm. T. Williams
Route 2
Twin Falls, Idaho

Dear Mr. Williams:

The plans of the proposed dam on Cottonwood Creek are found to be fundamentally satisfactory. However, as they are somewhat lacking in specific details as submitted, it is felt that these items can be sufficiently covered in the written specifications which have not as yet been submitted, but which will go with, and become a part of the plans.

Included in such specifications should be:

1. Description of proposed cutoff trench
2. Details of Intake structure as regards Cutoff Walls, Reinforcing steel.
3. Provisions for adequate free space between grille racks, and the actual pipe entrance, type of control gate, and manner of attachment, etc.

It is suggested in connection with the matter of dimensions of the intake heading it might be well to raise the downstream end, and the sides so as to give the top grill a slope corresponding with the slope of the dam.

Such an arrangement would also provide more space for the installation of side grill feature, and would be less liable to obstruction by any material moving from the slope above.

The item of reinforcing should, as a matter of course, include all concrete which would be exposed to weather, settlement, etc.

Very truly yours,

MARK R. KULP

Dear Mr. Olsen:

We have issued to W. T. Williams Permit No. R-831 to appropriate and store 1500 acre feet of water in a reservoir with outlet in the NE 1/4, Section 26, Township 13S, Range 17 E. S. M.

The plans submitted are generally satisfactory as to location, Outlet and Spillway. Some changes will be required, such as addition of a trash rack at the inlet of the discharge pipe, spacing of cut off collars, location of cut off trench, and redesign of the lifting platform. Some of the specifications will require clarification but are generally acceptable.

We do not attach approval to the plans until they are finally revised to meet our requirements, but for preliminary purposes the plans submitted are acceptable.

Very truly yours,

MARK R. HULF
State Reclamation Engineer

Department of Reclamation

Dear Mr. Kulp:

We have recently received plans and specifications for the construction of a dam on the Minidoka National Forest by Mr. W. T. Williams of Twin Falls. This reservoir is located in Section 26, T. 13S., R. 17E. on Cottonwood.

The plans we received do not show your approval. Would you please advise us if Mr. Williams has the necessary water right for the storage of water at this site and also if you have reviewed and approved his plans.

Very truly yours,

C. J. OLSEN, Regional Forester

Dear Mr. Williams:

We enclose Permit No. R-831, together
with Departmental Receipt No. 21484 for the \$6.25
filing fee.

Since this Permit is issued to take the
place of Permit No. R-736 on which the time has ex-
pired, we enclose a form of relinquishment for Per-
mit No. R-736 which we will ask you to execute and
return to this Department in order to clear our
records.

Dear Mr. Williams:

We have filed your application for Reservoir Permit, and Permit will be issued shortly.

Meanwhile, we have had copies made of the tracing which accompanied your former Permit, the cost of which is \$1.00. Will you please send us your check in that amount, made payable to Kent Farnsworth, who made the prints for us.

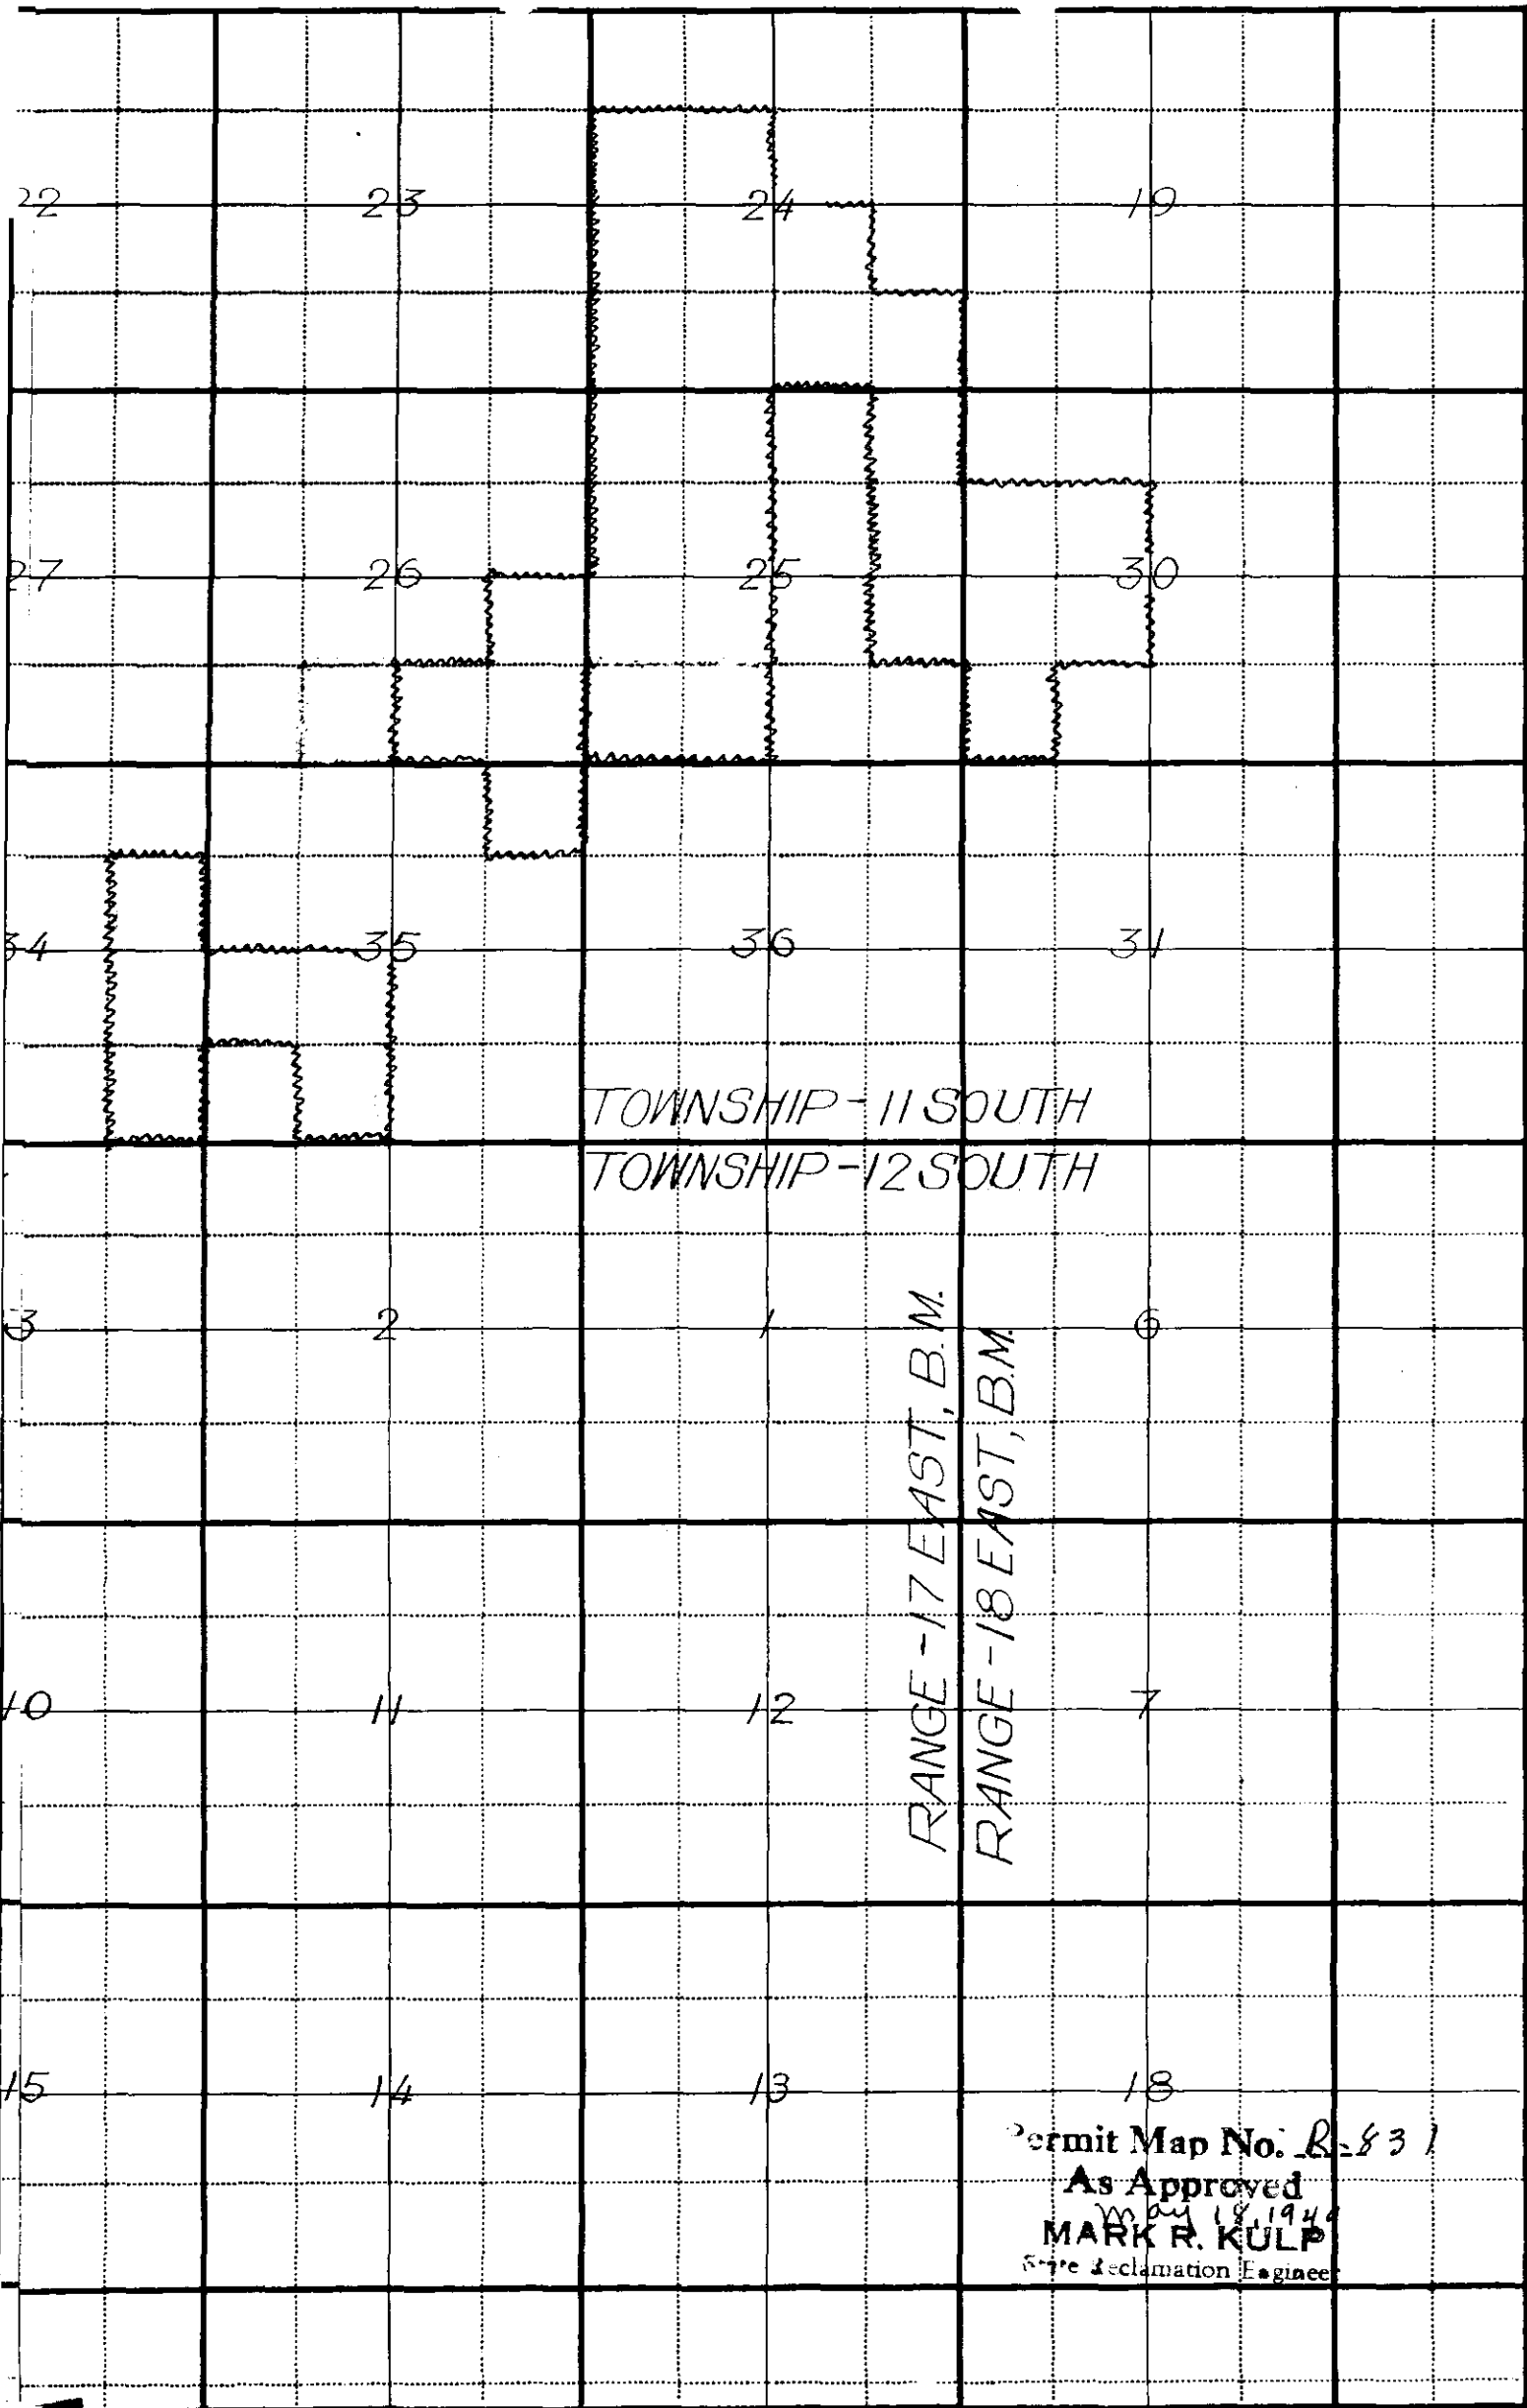

Very truly yours,
