Gentlemen:

Regarding the above referenced permit, be informed that the Department has conducted a field examination. However, before a certificate and license of water right can be issued, it is necessary that the Department determine the consumptive use of the well.

Information needed is the total use per year in gallons or the number of users with emphasis on the larger users such as industry. Your prompt attention will be appreciated.

Dear Mr. Rayborn:

Y
Thank you for your letter of February 3, 1969. An extensive check of our records failed to indicate that we had ever received the \$5 check in question. A detailed examination of the check indicates the check was cashed by the State Tax Commission. As Mr. Bosch of this office relayed to you by telephone, the Tax Commission will forward \$5 to the Department of Reclamation and we will proceed to issue the license for the above referenced permit.

Please forgive this inconvenience which we have caused.

Gentlemen:

I received your letter dated January 27, 1969, advising that the above numbered Permit might be cancelled for failure to pay the \$5.00 licensing fee. Also enclosed was a copy of a letter dated September 19, 1968, requesting the \$5.00 payment.

Upon receipt of your letter, I called the City Clerk at Filer, and was advised that the payment had been made in response to the first request, by warrant dated October 1, 1968. The Clerk mailed me the warrant, and a copy is enclosed for your information. If this takes care of the matter, I would appreciate your advising me accordingly. If an additional \$5.00 is required for any reason, please let me know and we will see to it that it is paid promptly.

Thank you.

Gentlemen:

We have received a log on a well drilled for you in the SW¹/₄ NE¹/₄, Sec. 8, T. 10 S., R. 16 E., B.M. The test shows that the well is capable of supplying 630 gallons per minute. We find no record of a permit for this well.

Idaho Code, 42-229, as amended by the 1963 session of the legislature, provides that a permit to divert subterranean water must be obtained from this office in all cases where over 13,000 gallons per day or 9 gallons per minute will be diverted.

Idaho Code, 42-237a, provides that the State Reclamation Engineer may commence action to enjoin the illegal opening or excavations of wells, or withdrawal or use of water therefrom.

May we hear from you?

Gentlemen:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than _____.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.
