Re: Permit No. G-30335
City of Twin Falls

City of Twin Falls,
Twin Falls, Idaho.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30335. The proofs are to be made at 4:00 o'clock P.M., on the 12th day of September, 1963, before Mrs. Constance J. Leiser, City Hall, Twin Falls, Idaho, Notary Public.

As of this date we have mailed the Notice to the Times News Twin Falls, Ida. with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

RECEIVED

Department of Reclamation

Mr. Ralph W. Thomas, Deputy
State Reclamation Engineer
Statehouse
Boise, Idaho

Dear Ralph:

The application for permit comes from me and the money comes from the City Clerk, and apparently we have had a slight communication breakdown. I thank you for your patience and your foresight in retaining the voucher. We definitely intend to complete our filing as soon as possible.

I hope the enclosed, revised application is in order. Item 13 is somewhat difficult to answer due to complexity of our municipal water system. We use water from the Twin Falls Canal Company ditches for both domestic water and surface irrigation purposes. We supplement this water with underground well water for domestic use only. I have attempted to clarify this under "remarks". If this is not satisfactory, I would appreciate a note from you outlining some explanation or insertion that would more accurately complete the application.

I have also wondered about the correct procedure on the enclosed sketch map. I will gladly redraft this sketch if I knew exactly what you would like. At the scale indicated on your Standard Form No. 1, it will be impossible to show well site, place of use, and point of return to the river due to great divergence of location. If a larger size sketch is desirable, please inform me and we will prepare it.

Please be sure that it is my intent to prepare this application in its proper form. With a suggestion from you, I will do all possible to comply.

Sincerely,

Paul E. Newton
