- The site plan shows a rectangular plot bounded by McKinley Street to the north and a dirt road to the east. The plot contains a new building footprint (FFE 4905.50) with associated parking areas (Employee Parking, Handicapped Parking Sign). A new well is located near the building. Various utility lines are shown, including raw water from a well, potable water from the city, fiber optic lines, and telephone lines. A septic system is detailed, including a 1,500-gal septic tank, effluent pipe, oil/sewage separator, and a replacement drainfield. Property corners are marked with wooden hubs or rebar foundations. Existing fences and chainlink fencing are also indicated. Dimensions for various segments are provided throughout the plan.

RE: Permit No. 47-16815

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMO

FROM: Allen Merritt 

DATE: October 29, 2001

TO: Permit No: 47-16815

In the Name of: **Salmon Tract Rural Fire Protection District**

SUBJECT: Review and Recommendation

This application was filed to allow drilling of a well to fill fire trucks. A new fire station is proposed to be developed at the site and the domestic needs will be supplied by the municipal system. The well may be utilized as a backup for the City of Rogerson.

The application was processed without protest.

Recommendation

I recommend that the application be approved subject to the following conditions:

1. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
2. The issuance of this right does not grant any right-of-way or easement across the land of another.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. If the proposed well is to be used as backup for the municipal water works for the City of Rogerson, the well shall comply with applicable construction and operation standards for public water supply systems of the Department of Environmental Quality.
5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

Re: Application for Permit No. 47-16815 for Salmon Tract Rural
Fire Protection District

Hi Doug/Mary:

Our office reviewed the above water right application for permit from the IDWR New Water Rights Filing Report dated 10-03-2001 (copy attached).

Our Master Title Plat (MTP) (copy attached) indicates the POD described:

T14S R10E S17 NENENE

may be missing a lot # (our MTP indicates a Lot #1 in the NENENE)

BLM does have problem with this claim. We are providing this for your information.

Thank you.

Have a nice day!

Re: Application for Permit No. 47-16815

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office has scheduled advertising the application in the Times News for 10/4 & 10/11/01. A period of ten days following the second publication will be allowed for the submittal of protests. (10/22/01, 2001)

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. If a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

In addition, we acknowledge receipt of the executed Assignment of Application for Permit as referenced above. The change has been made to our computer database. Enclosed please find a printout for your information and records. Please check the accuracy on these documents.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Mary A. Baldwin
Administrative Assistant

Re: Review notes

Date: 8-9-01

The well to be drilled under this application is also intended to be used as a back-up well for the City of Rogerson. The Rogerson City Water District has filed a transfer to add this POD and POU to their water right 47-7381.

Water right 47-7381 was the only overlap found.

This application is intended to fill fire trucks only. Domestic water for the fire station will be supplied from the City of Rogerson's system.
