Dear Mr. Brockway:

The department received your request, submitted on behalf of Visser Holsteins, to extend the term the Water Supply Bank ("bank") lease for the above referenced water rights from December 31, 2003 to December 31, 2006. Please consider that the offered water rights will remain leased to the bank.

Several items to keep in mind in connection with the lease of a water right to the bank are as follows:

1. There is no rental payment to the owner of the water right if the right or a part thereof is not rented from the bank.
2. While a right is in the bank, the owner of the right may not use the right even if the right is not rented.
3. A right accepted into the bank stays in the bank until the Board releases it or until the lease term expires.
4. While a water right is in the bank, forfeiture provisions are stayed.
5. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right.
6. The lessor may be required to provide evidence of availability of the surface water source prior to rental of the right.

Upon receipt of an application to rent water under the Salmon Falls rights, the

department will seek comment from Charlie Runyon, the water master on Salmon Falls Creek, relative to water availability.

Additionally, the documentation of Limited Power of Attorney submitted with the application does not recognize right nos. 47-2316B and 47-2316C. If you will provide documentation of power of attorney with respect to these rights, department records will be updated accordingly. If you have questions, please feel free to contact me.

Dear Mr. Marshall:

P
This letter is to notify you as a permit holder in the Blue Gulch area that a portion of the land west of Salmon Falls Creek has been declared a critical ground-water area and closed to further appropriation of ground water. This designation went into effect December 9, 1970 and will remain until it is shown that ground-water withdrawals do not exceed the estimated natural recharge to the area.

A public hearing will be held at the Buhl Senior High School, January 7, 1971 at 8:00 P.M., to accept any testimony or comment regarding the closure. A copy of the notice and hearing and description of the area is enclosed for your information.

Kimberly Advertiser

Gentlemen:

We received the proof on the above numbered permits for publication and find the following corrections:

We must show 4.0 twice in the opening paragraph, in paragraph 2, and paragraph 3, as there is 4.0 cubic feet per second of water for each permit. Also in paragraph 6 it should read September 12, 1960, for each permit.

When these corrections have been made, would you please send us a copy for our files of the corrected notice?

Thank you.

Very truly yours,

DECISION

Assignee: Lorena M. Guentz : Desert Land Entry

Assignor: Lawrence R. Mietsner:

Assignment Approved

On Nov. 4, 1953, the above entryman (Assignor) was
allowed Desert Land Entry, Idaho 03454, on the following lands:

T. 10 S., R. 13 E.
Sec. 9: S $\frac{1}{2}$

On Sept. 14, 1959, the entryman filed a deed assigning
all of his right, title and interest in the above entry to Lorena
M. Guentz (Assignee) of Hampe, Idaho. The
Assignee has filed an affidavit showing that he is qualified to accept
an assignment of and hold a desert land entry.

A review of the case file indicates the entry is now in
good standing so far as the record shows. However, this office
does not attest to the full compliance with the desert land laws
as presently reflected by the case record.

The assignment is hereby approved and the records of this
office are noted to show that the Assignee, Lorena M. Guentz,
is the entryman for the lands assigned and described under Desert
Land Entry, Idaho 03454. The remaining compliance to be met
on this entry and the due dates are checked below:

☐ First annual proof ☐ Third annual proof
