Dear Mr. Darrow:

This letter is to notify you as a permit holder in the Blue Gulch area that a portion of the land west of Salmon Falls Creek has been declared a critical ground-water area and closed to further appropriation of ground water. This designation went into effect December 9, 1970 and will remain until it is shown that ground-water withdrawals do not exceed the estimated natural recharge to the area.

A public hearing will be held at the Buhl Senior High School, January 7, 1971 at 8:00 P.M., to accept any testimony or comment regarding the closure. A copy of the notice and hearing and description of the area is enclosed for your information.

Very truly yours,

Mr. Jess O. Eastman,
Buhl, Idaho.

Dear Mr. Eastman:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-28837, in the name of John H. Darrow. Final Proof is to be made before you, as Notary on the 7th day of July, 1965, at 10:00 o'clock A.M., at 1012 Main St., Buhl, Idaho, Idaho.

As of this date, we have mailed the Notice to the Buhl Herald Buhl, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Gentlemen

I have just received your letter of the 27th. in
reply to my inquiry of the 26th. regarding the above Captioned
filing.

I am hereith enclosing two of your Form No. 36 and the
other Form No. 11.

I just called the Buhl Herald and if you can mail the
necessary form to the Heral on Monday the notice of proof will
appear in their June 3rd. issue which will gave them four
issues to run the notice so proof can be made by the 30th. of
June.

Dear Mr. Eastman:

Returned herewith is above noted permit. We have copies of all permits and you should not send them to this office.

Mr. Darrow can make proofs of use of the water from the well. After inspection by this office, he will be notified of the amount we can show on the license.

Usually water from a waste coulee is not a reliable water source and full production from the well may be necessary.

Generally we allow a full inch per acre from surface source and same from subterranean source as the owner will probably prefer to save money by not operating the pump unless the water is necessary.

RE: Permit #28837 G
John H. Darrow
And License # 21259
Howard Darrow

Dear Carl:

John H. Darrow called at my office yesterday and asked me to help him in completing his filing under permit # 28837. G

Back in 1949 his father Howard Darrow was issued a License # 21259 for 1.2 second feet or 60 inches of water appurtenant to the NE-NE-22-10-13 and the W $\frac{1}{2}$ -NW-NW-23-10-13, water coming from a waste coulee.

At that time Howard Darrow was the owner of the entire 120 acres. After Howard died, his son John H. Darrow purchased the interest of his sisters and became the owner of the entire 120.

In June of 1960 John had a well drilled and made a filing # G 28837 for 1.6 cubic feet or 80 inches of water appurtenant to the N $\frac{1}{2}$ -NW-23-10-13, final proof for which is due June 30, 1965.

I explained to John that he could only have one inch per acre for the entire 120 and suggested that he refer the matter to you before completing his final proof for the reason that the two filings together covered a double filing on water for the W $\frac{1}{2}$ -NW-NW of 23-10-13.

Besides these filings John has 120 shares of water in the Twin Falls Canal Company appurtenant to this 120. However he also owns more than ~~###~~ 200 acres of land without a water right that is approximately seven miles up the Twin Falls Canal system and he can irrigate at least 120 acres from the Canal system so he transfers the 120 shares of Canal water each season from his home place to the dry land. The Canal Company is agreeable to the transfer as a seasonable transfer. Later he expects to make a permanent transfer of the 120 shares to his other land which I am satisfied the Canal Company will gladly make for him.

I am herewith enclosing John's Permit and you have his authority to correct the amount of water to 1.2 cubic feet or 60 inches. The cost of the well and pump was \$ 5,700.00 instead of \$ 4,000.00 as estimated in the Permit. You may also change this if you think it best.

Will it be possible to get a weeks extension of time to have all the papers complete and back to your office.

Very truly yours,

John O. Eastman

John H. Darrow
Route #2
Buhl, Idaho

Dear Mr. Darrow:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28837 are due not later than **June 30, 1965**

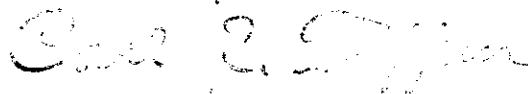

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

State Reclamation Engineer
