Dear Mr. Holmes:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28826 shows the well(~~S~~) is (~~278~~) capable of conveying 84 miner's inches, or 1.78 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 5.00, we will issue the Certificate of Completion of Works for 1.78 c.f.s. and the License and Certificate of Water Right for 1.78 c.f.s. confirming the right, with priority of June 29, 1960 to the use of subterranean water with the point of diversion in SW1/4SW1/4, Sec. 31, T. 9 S, R. 15 E, B.M. for municipal purposes.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. Holmes:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the **BUHL HERALD**, all submitted in proof of completion of works and beneficial use on Permit No. **E-28826**

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-28826

April 1, 1965

City of Buhl
Buhl, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G-28826 are due not later than June 30, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

State Reclamation Engineer

Dear Mr. Hepworth:

Returned herewith are application and copy of application for permit.

First - The fee for 5.0 c.f.s. is \$6.00, being \$5.00 for the first cubic foot per second plus \$0.25 for each additional c.f.s. or fraction thereof.

Second - We want one copy of application and two maps. The maps to show the works, including the area to be served in this case.

Third - We believe the water is to be used for municipal purposes rather than being limited to domestic use. Commercial use of water and flushing streets could hardly be called domestic use, to name two of many odd uses.

Fourth - Under 6, or under Remarks, the place of use should be shown, such as City of Buhl and vicinity.

Time under 12 has been changed to 5 years; however the proofs can be made at any time.

Kindly return one Form 1 with two maps which show the area to be served, with the fee of \$6.00, and the application will be processed.
