Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The man who measured it said there was 85 inches of water being pumped

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 85 inches now being used according to the man who measured it with a weir. The man who installed the pump and motor said if Blick wanted more water he could put on an extra bowl and a larger motor

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All of the water is used for irrigation of land in lots 2, 3, and 4 in section 19, Township 10 South, Range 14 E. B. M. I estimate that there was a little over 100 acres in crop and irrigated this year of 1960 and Blick has told me he will put the rest in next Spring.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is the same kind as other land in this vicinity and in the Twin Falls Tract It should have 1 inch per acre for cultivated crops

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

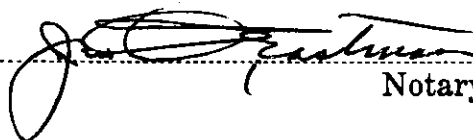

Ans. I have no interest in the works

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live and operate a farm adjoining this land on the South and have seen the entire development almost daily since it was started

Re: Permit No. **G-28085**
George L. Blick

Mr. Jess O. Eastman,
Buhl, Idaho.

Dear Mr. Eastman:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. **G-28085**, in the name of **George L. Blick**. Final Proof is to be made before you, as Notary on the 12th day of September, 1960, at 10:00 o'clock A.M., at 1012 Main St., Buhl, Idaho.

As of this date we have mailed the Notice to the Buhl Herald with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
