Dear Mr. Hardy:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Buhl Herald, all submitted in proof of ~~completion of work and~~ beneficial use on Permit No. 26237.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Re: Permit No. **26237**

Date: **Jan. 3, 1962**

Earl M. Hardy & Alfred R. Iverson
1224 Vista Ave.
Boise, Idaho

Dear Sirs:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 26237 is due not later than March 8, 1962. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works ~~and Application of~~
~~Water to Beneficial Use~~ under Permit No. 26237. The proofs are to be
made at 10:00 o'clock A.M., on the 24th day of April, 1961, ~~1960~~
before J. D. Sites, 1218 Vista Ave., Boise, Notary Public.

As of this date we have mailed the Notice to the Buhl Herald
with instructions to publish it once a week for four consecutive weeks prior to
the date set for final proof and then mail the affidavit of publication and
statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Mr. Hardy:

Enclosed are two Forms 8 and one Form 11 with instructions, and your check for \$5.00. Your check was sent to this office to pay for the Certificate of Completion of Works pursuant to your deposition on Form 6.

We regret that you were sent the wrong form to make proof of completion of works. Such proof must be preceded by publication of a legal notice for four weekly issues of a paper printed in the County wherein the works are situated.

The two copies of the notice should be mailed so it would be in this office at least one week prior to the first publication, also complete the Form 11 and enclose with the notice. Both names of the owners should be shown in the notice.

Dear Sir:

Under the terms of your permit No. 26237 you are required to complete your diversion works on or before March 8, 1961. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Gentlemen:

Returned herewith are your application for permit to appropriate public waters of the State of Idaho and attached check for \$5.25 filing fee.

Your application cannot be approved as the water to be diverted is yours under Permit 26237. The water under Permit 26237 does not become public water until it reaches the natural stream.

The application will be approved if the point of diversion is shown similar to the point of diversion in Permit 26237. That would mean you could divert an extra amount of water from a common source of supply.

Dear Mr. Hardy:

We enclose a form of application for Permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in this application. In order to complete your water right, two proofs are required as follows:

First, proof of Completion of Works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such Beneficial Use. The additional time required for making this proof should be stated under Question 13 of the application.
