RE: Permit No.26024

Florence N. Washburn
10565 Ashton Avenue
Los Angeles 24, California

Dear Madam:

You will note on your Permit that proof of Application of Water to Beneficial Use is due on or before October 21st, 1957.

When you are ready to make these proofs you should notify this office and then we can proceed with the necessary steps to complete the record of your Appropriation, which are authorization to publish your intention to make the proofs, including the name of the newspaper in your county, the Notary before whom you and your two disinterested witnesses will appear and the time and place for making proof.

The Notice is then advertised and the proofs made. If there are no protests, an engineer from the Department will make an inspection and if everything is in proper shape a License and Certificate of Water Right can be issued.

There is no good reason to record a Certificate of Completion of Works in the County and it is not necessary to record the License and Certificate of Water Right in the County, although some owners do have them recorded.

Very truly yours,

MARK R. KULP

RE: Permit No. 26024

Mr. Frank Palmer
Kimberly
Idaho

Dear Mr. Palmer:

We acknowledge receipt of the Depositions of yourself and two witnesses in Proof of Beneficial Use on Permit No. 26024 of Mrs. Florence Washburn.

However, the affidavit of publication should have accompanied these depositions and is a necessary part of the proof. The Buhl Herald was instructed to send this affidavit of Mrs. Washburn. If she has not received it, we suggest she take the matter up with the Buhl Herald at once.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you or Mrs. Washburn, whichever you designate, at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Miss Washburn:

We acknowledge receipt of your note of August 6, 1956, with Proof of Completion of Works and Notice of publication for Proof of Beneficial Use enclosed. Also enclosed was your check in the sum of \$5.00 the fee for the Certificate of Completion of Works.

Assuming that you would not be able to obtain two disinterested witnesses in California who are familiar with the terms of Permit No. 26024 and also the work done under this Permit it seems to us unless you intend to be back in Idaho it will be impossible for you to make your deposition and also the depositions of the two witnesses before one Notary Public.

Therefore, if you remain in California it will be necessary for you to give the Power of Attorney to some one in Idaho who is familiar with the terms of the Permit and the work done to represent you in making Beneficial Use Proof

Due to the fact that you are making these proofs in advance of the date given and we have ample time we shall hold the Notice for publication of Beneficial Use Proof until we receive a reply from you.

In answer to this letter please give us a date for making Proof of Beneficial Use allowing time for the publication of once a week for four consecutive weeks and with your permission we will change the date on the notice of August 7th, to the date you set. Also give name of Notary Public before whom the person to whom you give the Power of Attorney and your two disinterested witnesses shall appear to make this Beneficial Use Proof.

The proof for completion of works seems to be in order and as soon as the Certificate is issued and recorded in this department same will be forwarded to you.

Please let us know what your intentions are in regard to the above so that we will be fully advised.

Very truly yours,

Boise, Idaho

Dear ~~Miss~~ **Madam:-**

Under the terms of your permit No. 26024 you are required to complete your diversion works on or before October 21, 1956 I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Re: Permit No. 26024

Florence Washburn
Los Angeles 24, California

Dear Miss Washburn:

We acknowledge receipt of your letter of July 10, 1956, re making of proofs on the above captioned Permit.

Proof of completion of works should be made on Form 6 enclosed, executed before a Notary Public and returned to this department with the statutory fee of \$5.00.

Proof of beneficial use requires publication of a notice in a local newspaper once a week for four weeks before proof is made. Notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom proof is to be made. Both copies of Form 10 to be returned to this department together with Form 11 which is authorization for us to have the notice published at permit holder's expense in the designated county newspaper. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Permit No. 26024
Appropriation of Public Waters

Mr. Mark R. Kulp
State Reclamation Engineer
Department of Reclamation
Boise, Idaho

Dear Mr. Kulp:

You enclosed with your letter to me of October 26, 1955, the approval of my application 33892 covering the appropriation of certain public waters for use in irrigating certain land I own, as described in the application. The above was given as permit No. 26024.

The necessary water lines, pump, motors, etc., required to use this public water have been installed and the rights granted under the permit are now being exercised. The completion date set forth in the permit was October 21, 1956. The obligation to complete 1/5 of the work on or before April 21, 1956 was met prior to that date.

I notice that in the pamphlet entitled "Regulations and Instructions" issued by the Department of Reclamation, that Article 8 states:

"Proof of completion of works or application to beneficial use may be made any time prior to the time limit fixed by the permit."

Will you kindly let me know what evidence or proof is required. Also whether any newspaper publication is required.

If publication is necessary, will you kindly furnish me with a copy of the approved form.

Your early reply will be greatly appreciated.

Dear Mrs. Washburn:

We are sorry that there has been so much delay in processing your application for permit to appropriate .9 second foot or 45 inches of water from "O" Coulee Drainage Ditch in Twin Falls County, but before the application could be approved, we had to take the matter up with the Twin Falls Canal Company as there is a question as to whether or not this is actually public water.

You understand, of course, that all permits for waste water are subject to the right of the original owner to cease wasting same.

We enclose Permit No. 26024 and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

Dear Mr. Kulp:

Reference is made to your letter of September 16, 1955, to the Twin Falls Canal Company, with reference to the Application for Permit to appropriate public waters of the State of Idaho filed by Mrs. Florence N. Washburn, to appropriate 45 miner's inches, with source of supply stated as Cooley Drainage Ditch with point of diversion in the SE corner of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 18, Township 10 North, Range 17 East, B.M.

Mr. Alfred Peters, Manager of the Canal Company, informs us that the waters in the Cooley Drainage Ditch, known to the Company as the "O" Coulee, comes from seepage and waste water draining from lands irrigated in Section 19, Township 10 South, Range 17 East, B.M. and Section 24, Township 10 South, Range 16 East, B.M. The "O" Coulee, a few hundred yards below the proposed point of diversion, enters the "LL" Coulee which flows northerly about a mile into Dead Man's Creek. Mr. Peters informs us that the "O" Coulee and the "LL" Coulee are below any point of diversion of the Twin Falls Canal system and the water in the coulees flows at an elevation which is too low at the present time for any use by the canal company and now runs to waste into Dead Man's Creek so far as the Canal Company is concerned.

We see no objection to granting this permit, subject, however, to the prior appropriation of the Twin Falls Canal Company. To state our position more specifically, the canal company has no objection to the temporary use of this water on the lands described in the application, which water at present runs to waste into Dead Man's Creek, providing that it is distinctly understood that it is subject to the prior right of the canal company and its stockholders to use this water in the Twin Falls Canal Company system if at some future time it could be so utilized and subject to the right of the canal company or its stockholders to cease wasting this water, and it is suggested that in the event a permit is issued that it be issued subject to the foregoing.

Very truly yours,

Clifford E. Fix

Gentlemen:

The Department of Reclamation is in receipt of an Application for Permit to appropriate the Public Waters of the State of Idaho, consisting of 45 miner's inches, with source of supply stated Cooley Drainage Ditch, tributary of Dead Mans Creek, with point of diversion in the SE corner of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 18, Township 10 North, Range 17 East.

From said Application we are unable to determine whether this water is unappropriated water or water belonging to the Twin Falls Canal Company as being in part of their system.

We would appreciate a statement from your company stating whether or not said water in said Cooley which enters the SE corner of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 18, Township 10 South, Range 17 East, water flowing East in said Cooley whether it is part of your irrigation system or not and if the Twin Falls Canal Company has any objection to Mrs. Florence N. Washburn filing on said water for supplemental irrigation of the SW $\frac{1}{4}$ of Section 18, Township 10 South, Range 17 East.

Thanking you for your information, we are,

Very truly yours,

Dear Mr. Kulp:

I would like to file an application for the appropriation of certain public waters, now wasting, for agricultural irrigating purposes.

In this connection, I am enclosing your Application for Permit (Form No. 1) and have given the required information.

I am also enclosing a linen tracing showing my land to be irrigated in the SW-1/4 of Section 18, Twp 10-S, Range 17-E.

If and when this application is approved, I shall promptly thereafter proceed with installation of the pipe line, submit proof of completion by affidavit before a Notary Public, and then publish the proof in a County newspaper once a week for four successive weeks.

If my application is not complete, kindly let me know and I shall comply.

Yours very truly,

Florence N. Washburn

Dear Madam:

We enclose herewith a form of application for permit to appropriate the public waters of the State of Idaho together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right, two proofs are required as follows:

First, proof of Completion of Works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense, and at the time set for proof, depositions are to be executed by yourself and two witnesses in proof of such Beneficial Use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

Dear Mr. Williams:

A representative of this Department has made an examination of the works covered by your Permit No. 26017/47-2295 and has found the following:

Source: Rock Creek, tributary to the Snake River

Amount of water that can be recognized as beneficially used under Idaho law: 6.0 cfs

The maximum quantity diverted shall not exceed 2,911 acre feet, or *4.0 acre feet per acre, per year.

Point of diversion: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 20, Twp. 11 S, Rge. 18 E, B.M.

Beneficial use: Irrigation of 765 acres (see attached description)

Priority established: December 9, 1957 (late proof)

* Subject to the condition that the maximum volume per year shall not exceed 4.0 acre feet per acre when combined with License No. 25408/47-2464.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Dear Mr. McEldowney:

Pursuant to your letter dated July 9, 1969, I have talked with Mr. Williams and requested that he get the corrected information to me so that we may complete this matter as soon as possible. To date I have not received the information from him concerning the corrected description of the land where the water is used. I am today writing to him requesting that he get this information at the earliest possible date so that we may complete this matter.

As soon as I receive the additional information these documents will be completed and returned to you.

Sincerely yours,

Dear Mr. Coleman:

Enclosed please find a copy of the affidavit submitted as proof of beneficial use of the water under the above referenced permit and a copy of the permit itself. You will notice that Mr. Williams has submitted proof on lands different than those listed on the permit.

If Mr. Williams is actually irrigating the lands indicated on the affidavit, he will be required to submit an amendment with a statutory fee of \$5 changing the lands under the permit. The Department however, has caused a legal notice to be published at Mr. Williams expense with the lands given as those listed for the permit. Mr. Williams will be required if the affidavit is correct, therefore, to publish at his expense a legal notice correcting the original. There will be a \$10 fee for this readvertisement.

Also, we have enclosed a form to be used by Mr. Williams in assigning the permit from his personal name to the name of the corporation. Please complete this form and return it to the Department.

Very truly yours,

Donald W. McEldowney

Re: Permit No. 26017

Dear Keith:

W. T. Williams was in my office and discussed with me the matter involving the proof of beneficial use on permit number 26017 which he holds for the diversion of 6 second feet of water from Rock Creek.

Mr. Williams has completed the proof of application of water to beneficial use in my presence and I am enclosing herewith this proof.

Would you please advise me if any additional items are necessary to be submitted to your office for issuance of the license with regard to this water right. Since Mr. Williams obtained the permit he has incorporated his operation and transferred all of his land to the corporation. The proof enclosed indicates the corporation as the owner of the right. If you need an executed assignment in your file in order to have the license issue in the name of the corporation, please send me the necessary forms and I will obtain Mr. Williams' signature on them.

If any additional information is needed, please feel free to contact me.

Dear Mr. Williams

One of the conditions of the approval of your permit
26017/47-2295 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
October 15, 1968.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Re: Permit No. 26017/47-2295

W. T. Williams
Route 2
Tahoe Falls, Idaho

Dear Mr. Williams:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

DEPARTMENT OF RECLAMATION

Re: Permit No. **26017**

Date:

Aug. 1, 1966

**W. T. Williams
Route #2
Twin Falls, Idaho**

Dear **Mr. Williams:**

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. **26017** is due not later than **Oct. 13, 1966**. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Re: Permit No. 26017

To W. T. Williams
Rt. #2
Twin Falls, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 26017
to appropriate the Public Waters of the State of Idaho, have not been complied with as to

Completion of Works due October 13, 1960

you are hereby notified in compliance with Sec. 42-311, Idaho code that said Permit No. 26017
is hereby held for cancellation.

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from
date of this notice why said Permit should not be cancelled.

Said Permit No. 26017 claims the use of 6.0 cubic feet per second of the
waters of Rock Creek with point of diversion located
SW 1/4, Sec. 20, T. 11 S., R. 18 E.B.M., and
was approved October 13, 1955

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the
21st day of November, 1960

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

August 1, 1960

ReL Permit No. 26017

W. T. Williams
Route #2
Twin Falls, Idaho

Dear Sir:

Under the terms of your permit No. 26017 you are required to complete your diversion works on or before October 13, 1960. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

GEO. N. CARTER

Dear Mr. Williams:

We are in receipt of your Application for Permit to appropriate water from Rock Creek.

In checking over Permit No. 25408 we find that we gave the point of diversion in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20, Township 11 South, Range 18 East, B. M.

In file No. 25408 we find that you sent to this Department a sketch map showing the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 19, Township 11 South, Range 18 East, B. M.

This sketch map was signed by Engineer, R. I. Long. We have no reason to believe that your point of diversion, since survey, is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 19, therefore, we are enclosing herewith an Application for Amendment to Change the point of diversion on Permit No. 25408 which you may, if correct, sign and return to this Department and with your permission we will change the point of diversion from the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 20 as shown on the Application to the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 19.

We are enclosing a sketch map made up in this Office for your information, and will request that you return same with the enclosed Form of Application for Amendment to Permit No. 25408.

Very truly yours,

MARK R. KULP
