POINT OF DIVERSION AMENDMENT ✓

Comes now Mildred Jones and represents to the State Reclamation Engineer of the State of Idaho: That she is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-25517. That the point of diversion is described in said Permit as being located: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 1; NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 12, T 13 S., R 16 E., B.M. That she now requests that the point of diversion be changed to a point located: NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 6, T 13 S., R 17 E., B.M. That the reason for desiring to make such change is as follows: It was thought this would be a better location for the development of sufficient water for the irrigation of my desert entry and the well has been drilled in this location and I would like my permit to show this change. That no one will be injured by such change and such change will be made at permit holders own risk. Signed at Boise, Idaho this 15th day of July, 1966.

Dear Mrs. Jones:

We acknowledge receipt of the depositions and affidavit of publication in the Twin Falls Times-News, Twin Falls, Idaho submitted as proof of completion of works and beneficial use on Permit G-25517.

Before a certificate and license of water right can be issued, a field examination must be made by a representative from this department. We cannot tell just when this examination will be made, but our field examiner will try to contact you at the time he makes the examination so that you may show him the system.

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 25517 are due not later than **July 11, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Re: Permit G-25517, Mildred Jones

Dear Sir:

With reference to the above water permit, please be advised that this was applied for in connection with my desert land application Idaho Serial #05750. This entry has not been allowed as yet due to an appeal that was filed and the case is in a suspended state.

I hereby respectfully request that this permit be suspended until my desert entry is allowed. At that time, I will inform you of the date of allowance so the permit can be given five years from that time.

Very truly yours,

Mildred Jones

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25517 are due not later than **March 18, 1960.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
