ATTENTION: Mr. W. H. Pierce, Director

Dear Mr. Pierce:

In accordance with your letter of February 3 we are sending to the Twin Falls Times-News, notice for completion of works and beneficial use proof to be made on Permit No. G-23929 March 17, 1955, with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

At the time set you should appear before Mr. E. M. Rayborn, Notary Public, together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the enclosed depositions.

I am sorry that I will not be able to be in Twin Falls at the time for making these proofs but it will not be necessary for any one from this department to attend; but after the proofs are made, an inspection will be made by a field engineer from this department. This will probably be Mr. E. N. Humphrey, Deputy State Reclamation Engineer, who you may remember as having been with the Department of Agricultural Engineering at the University.

I will be very glad to see you sometime when I am at Twin Falls in order that you may show me your new research center.

With all good wishes.

Dear Mark:

Enclosed are duplicate notices for proof of completion and application of water to beneficial use under permit No. G 23929 issued to Associated Seed Growers, Inc. at the request of Mr. W.C. Hemmingway.

We have indicated 2 P.M. March 17th at the offices of Atty. E.M. Rayborn, 126 2nd St. E. Twin Falls as time and place for presentation of proof.

I am somewhat of a novice at this sort of thing and I don't know whether or not you will be present at this hearing; but I am rather hoping that you will be as the last time I saw you must have been at least as long ago as 1937 before I left the Plant Pathology Department at Moscow.

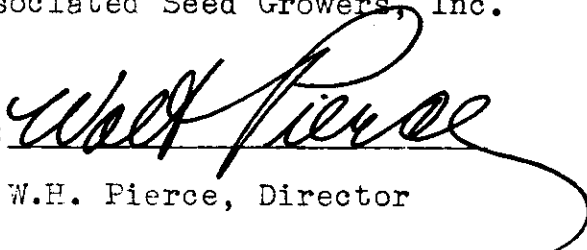

I would be very glad to see you and show you our new Research Center together with the irrigation well and other facilities. We are located one mile East of Filer on US-30 and sincerely hope that you will drop in sometime when you are in this area.

I am wondering just what type of proof of beneficial use of water that your office prefers. If you could advise me on this point we will attempt to assemble the necessary proof for presentation at the time and place indicated.

Sincerely,

Mr. Mark Kulp

Dear Mr. Kulp:

We understand that one must secure a permit in order to drill a well in the State of Idaho. We therefore are seeking permission to drill a 6" domestic well and an 8" irrigation well on 13 acres of property recently purchased by us located on Highway 30 just $\frac{1}{2}$ mile east of the fairgrounds at Filer.

This property will be the site of a Research Center contemplated by our company. We are placing a building 150' x 50' in the middle of the 1320 feet frontage, so we will need a domestic well of 6" in diameter to supply water for the personnel and research needs.

The 8" irrigation well will be placed near the south-east corner of the property and will furnish about 20 inches of water to supplement our 13 shares of water purchased with the 13 acres of land. This additional water will make it possible to set up irrigation experiments in which case it will be necessary to have water available when and where we need it.

I am enclosing a description of the property so that you will know just where these two wells are to be located. I would like to have the description returned at your convenience. We would like to start drilling the wells as soon as possible.
