CONDITIONS OF APPROVAL AND REMARKS

1. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
2. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
3. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
5. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
- * 6. The total instantaneous diversion of water from all points of diversion under Transfer 5279 shall not exceed 4.10 cfs, nor total combined annual volume of 900.0 af.
- ** 7. Rights 47-02263, 47-08007B and 47-08261 when combined shall not exceed the irrigation of 347 acres.
- ** 8. Right 47-02263 is limited to the irrigation of 70 acres within the place of use described above in a single irrigation season.
- ** 9. Right 47-08007B is limited to the irrigation of 87 acres within the place of use described above in a single irrigation season.
- ** 10. Right 47-08261 is limited to the irrigation of 190 acres within the place of use described above in a single irrigation season.
11. The period of use for the irrigation described in this approval for Rights 47-08007B and 47-08261 may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/31 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
12. Rights 47-08007B and 47-08261 are for the use of trust water and are subject to review 20 years after the issuance of the permits to determine availability of water and to re-evaluate the public interest.

RE: TRANSFER OF WATER RIGHTS 47-02263/47-08007B/47-08261
(Transfer 5279)

Dear Water Right Holder(s):

Enclosed is the copy of your approved Transfer of Water Rights for the above referenced water rights (Transfer 5279). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as an **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

for Kay Walker

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below.**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

CERTIFICATE OF SERVICE

All documents intended to be part of the Department record in connection with a preliminary order shall be served upon the representatives of each party of record. Every document filed with and intended to be part of the agency record must be attached to or accompanied by proof of service by the following or similar certificate.

I HEREBY CERTIFY (swear or affirm) that I have this day of _____, served the foregoing (name(s) of document(s)) upon all parties of record in this proceeding, (by delivering a copy thereof in person: (list names)) (by mailing a copy thereof, properly addressed with postage prepaid, to: (list names)).

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when (a) the petition for reconsideration is disposed of, or (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

RIGHT TO HEARING

Pursuant to Section 42-1701A(3), Idaho Code, unless the right to a hearing before the Department is otherwise provided by statute, any person aggrieved by any decision, determination, order, or action of the Department or any applicant for any permit, license, certificate, approval, registration, or similar form of permission required by law to be issued by the Department, who is aggrieved by a denial or conditional approval ordered by the Department, and who has not previously been afforded an opportunity for a hearing on the matter shall be entitled to a hearing before the Department to contest the denial or conditional approval upon filing with the Department, within fifteen (15) days after receipt of the denial or conditional approval, a written permission stating the grounds for contesting the action by the director and requesting a hearing.

APPEAL OF FINAL ORDER TO DISTRICT COURT

If a preliminary order becomes final, any party aggrieved by the final order or orders previously issued in the case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which (a) a hearing was held, or (b) the final agency action was taken, or (c) the party seeking review of the order resides, or (d) the real property or personal property that was the subject of the agency action is located. The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal. See Sections 67-5270 through 67-5273, Idaho Code.

Re: Ownership

.....

I called the Twin Falls County Assessor's Office (@736-4010) today to find out who owned the property under this transfer. The assessor stated that all this property is owned by the Lantings. She said there were several of them with lands in the legal descriptions I gave her (SW1/4, S4; S1/2NW1/4, S1/2, S5; S1/2NE1/4, SE1/4, S6; E1/2NE1/4, S7; E1/2NE1/4, NESE, S8; Twp. 13S, Rge. 16E). I did not request further breakdown of the ownership.

INTEROFFICE MEMORANDUM

TO: TRANSFER FILE NO. 5279
FROM: KELLY K CHRISTENSEN *KKC*
SUBJECT: ADJUDICATION REVIEW OF TRANSFER
DATE: 12/23/98

Only 47-02263 is part of the adjudication process and therefore my analysis is primarily limited to the analysis of this right only. GIS rectified photography is not available at this time, therefore no mapping has been done.

As the ground has been in CRP, 47-02263 is recognized as valid for the licensed rate and acres. This right should therefore be conditioned to the irrigation of 70 acres within the PPU. This right should also be limited to the same combined limit of 347 acres when combined 47-08007B and 47-08261. As licensing data indicate a system capacity greater than the combined rates for the three rights, no combined diversion rate limits are required.

SUBJECT: Review and Recommendation

This transfer proposes creating a PPU of 749 acres with three licensed rights totalling irrigation of 347 acres. Two wells are identified for use with these rights.

The application was advertised without protest.

I recommend that the transfer be approved subject to the following conditions:

- Subject to SRBA.
- Subject to measuring and reporting if requested by IDWR.
- Current shares in Salmon River Canal Co. shall be utilized as primary right for portion of land and be maintained on land and utilized to the fullest extent possible in conjunction with diversion of groundwater.
- In any one year no more than 347 acres shall be irrigated within the 749 acre PPU from groundwater.

Re: Application for Transfer No. 5279 (47-02263, 47-08007B, 47-08261)

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office has scheduled advertising the application in the Times News for 06/18 and 06/25/98. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

The department's review process may have to include field investigation and verification of the claims which is required as part of the Snake River Basin Adjudication.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Permit No. G-22636

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. R. C. Henstock, 65 years of age, reside southwest of Hollister three and one-half miles, on NW 1/4 Sec. 9-13-16, occupation farmer with post office address R.F.D. 1, Twin Falls, Idaho.

Ques. 2. Are you acquainted with William J. Lanting, the holder of Permit No. G-22636? How long have you known him and where does he reside?

Ans. Yes, I have known him over 25 years. He lives on the NE 1/4 Sec. 8-13S-16 across the road west from my home, 3 1/2 S.W. of Hollister, Idaho, in Twin Falls County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22636, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Underground source of supply, diverted from 12" well approximately 365 feet deep, turbine pump with 4" column and 10 H.P. Electric motor, water conveyed by system of ditches to places where the same is used for irrigation.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The ditches are adequate to carry three second feet.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver four tenths second feet. I estimate the same based upon my knowledge of water gained through over forty years experience in irrigation.

G-22636

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water from this well is used for irrigation on the NE 1/4 Sec. 8 and the South half of the Southeast Quarter of Section Five, all in Township 13 South, Range 16 EBM, in Twin Falls County, Idaho. All cultivated land and the water being used to supplement water delivered by Salmon River Canal Co. No improvements so far as I know have been added to the place as the result of the water from the well.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Volcanic Ash. One miners inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have irrigated from this well at times for Mr. Lanting; I live across the road from him and have seen him using this water for irrigation on the land above described every year since 1953 in May when the pump was installed.

(Signed) R. C. Herstock

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 5th day of March, A. The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Leonard B. Peters, 54 years of age, I live four miles south and one-half west of Hollister, Twin Falls County, Idaho, stockman and farmer, Rt. 1., Twin Falls, Idaho.

Ques. 2. Are you acquainted with William J. Lanting, the holder of Permit No. G-22636? How long have you known him and where does he reside?

Ans. I know William J. Lanting and have known him for all his life, he being 39 years of age. He lives in Twin Falls County, Idaho, 3 1/2 miles southwest of Hollister, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22636, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well in NE 1/4 Sec. 8, Twp. 13, Range 16 EBM. 360 feet deep, 12" in diameter with turbine pump with 4" column installed in the well powered by 10 HP Electric motor with system of ditches conveying water pumped to land irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The ditches are adequate to carry atleast 3 second feet, including the water produced by this well and I have seen that much in the ditches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 20 inches of water at the various times I have been at the well according to my best estimate. I have been active in irrigating all my adult life and rely upon my experience in the use of water in fixing this estimate.

G-22636

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~The water pumped from this well is used by Mr. Lanting in irrigating NE 1/4 Sec. 8 and the South half of the Southeast Quarter of Section 5 in T13S. Range 16 EPM in Twin Falls County, Idaho. This water is used to supplement water delivered by Salmon River Canal Company and all the three forties are irrigated and farmed. The land is cultivated land and rotated in various crops. No improvements have been added as the direct result of the use of this pump water~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Volcanic Ash and should have one miners inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this pump in operation every year since the pump was installed one or more times during the irrigation season and have noticed its output and observed the results of its use in crops growing on the land.

Dear Mr. Smith:

We have your letter of January 8, 1954, enclosing duplicate notices for publication in connection with Permit No. 22636 in the name of William J. Lanting.

We note that these proofs are being made for only .4 of a second foot of water or 20 inches to be used on 120 acres of land where as the original is for 3.2 second feet or 160 inches for use on a larger acreage.

We remind you that if proof is made on only .4 of a second foot, a larger amount of water cannot be claimed later on this same permit.

We are therefore writing you before sending the notice to the newspaper for publication to be sure that your client is prepared to prove up on only .4 second foot of water.
