NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 10th day of October, 1958, at Jerome, County of Jerome, State of Idaho, before Mrs. Nelson A. Peirce, Notary Public, proof will be submitted of the application to beneficial use of 0.64 cubic feet per second of the waters of un-named springs in accordance with the terms and conditions of Permit No. 20205 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Dean M. and Lola E. Olsen, Jerome, Idaho.

The use to which said water has been applied is Turkey Hatchery, Brooder, Motor Hotel heating and baths.

The amount applied to beneficial use is 0.64 c.f.s.

The place where said water is used is SE $\frac{1}{4}$, NW $\frac{1}{4}$ of Sec. 31, Twp. 8 S., Rge. 14 E., B.M.

The right to take water from such works is based upon Permit No. 20205.

The source of supply from which such water is diverted is Un-named Springs.

The date of priority which said user is prepared to establish is October 6, 1947.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 20205

Comes now DEAN M. and LOLA E. OLSEN, and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 20205, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

SE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec.31, T. 8 S., R. 14 E., B. M.

That an additional amount of water is not asked for, and that the rights of others will be not be adversely affected by such change.

Signed at Jerome, Idaho this 3rd day of July, 1959.

s/ Dean M. Olsen
s/ Lola E. Olsen

Date of Receipt at Department of Reclamation July 7, 1959

APPROVAL OF STATE RECLAMATION ENGINEER

I, Geo. N. Carter, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. 20205. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

SUBJECT LOCATION OF HOT SPRING

When the field examination was made the location of the spring was believed to be within the NEMW S.31. AND THIS LOCATION was used on the license.

However a review of the U.S.G.S. map when the transfer (3232) was filed, showed that the springs were actually within SWNE S.31. The transfer shows the corrected location.

MEMORANDUM

TO: File 47-2242

FROM: Jim Johnson

DATE: February 26, 1986

RE: Transfer No. 3232

The purpose of this memo is to provide a brief background to identify reasons for the recommendation of approval of this transfer.

The transfer application requested the addition of a point of diversion utilizing water from an existing geothermal artesian well. The right had originally been licensed as using 0.64 cfs from a spring source. Although a spring is normally considered surface water, the field examination reported that substantial work had been done to improve the flow including drilling of a 43 ft. hole in the spring area. In addition, a 1½hp centrifugal pump had been installed to supplement the natural flow.

In light of this information, no additional consideration was given to the apparent addition of a groundwater source to a surface water right. Emphasis was given to information stated on the transfer application that water flowing from the spring has not been diverted since the diversion structures were destroyed in 1984 by a Salmon Falls Creek flood.

The spring currently flows unused into Salmon Falls Creek. If the transfer is approved without consideration to the unused spring flows, the water diverted from the well under this right would result in a net increase of water taken from the Banbury Hot Springs Area. In light of the potential of regulation of water rights in this area, the net increase in flow could cause a junior water right to be cut off or reduced by the amount of the right (0.64 cfs).

Therefore, to provide for minimum impact to existing water rights, the following conditions are recommended if the transfer is approved:

1. Measuring devices shall be installed at the springs to determine discharge.
2. The amount of water diverted under this transfer from the well located in the NW¼NE¼, Sec. 31, Twp 8S, Rge 14E, shall not exceed 0.64 cfs minus the amount of water flowing from the springs located in the SW¼NE¼, Sec. 31, Twp 8S, Rge 14E.

Per telecon w/ LEAH STREET (TWIN FALLS OFFICE)
She informed me that chemical analysis of water flowing from the spring was almost identical to groundwater used by Bob Ring who was located near-by. Also spring flow measurements taken in 1972 and 1979 show decline in discharge. However, it is not known if the measurements were accurate.

Also, A well log copy of Olsen's well is being sent.

Re: Permit No. 20205

Mr. Dean Olson
Mrs. Lola E. Olson
Jerome, Idaho

Dear Mr. & Mrs. Olson:

Our field engineer's report on his inspection of proof for application of water to beneficial use under the terms of Permit No. 20205 shows the un-named springs are capable of conveying 20 miner's inches (.4 c.f.s.) of water for the use of a motel, bath houses and home.

Upon receipt of the statutory fee of \$5.00 we will issue the License and Certificate of Water Right confirming the right with priority of October 15, 1947 to the use of .4 second feet of subterranean water from an un-named spring, with the point of diversion in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 31, for use in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 31, T. 8 S., R. 14 E., B. M.

We enclose an amendment to the land list to be signed and returned to this office, which includes the NW $\frac{1}{4}$ NE $\frac{1}{4}$, of Sec. 31, as the main place of use in this forty.

Please sign the amendment and return with fees mentioned above.

REPORT OF ENGINEER

Permit No. 20205

This proof is for Beneficial Use In Water District No. _____1. Name of applicant Dean M. Olsen & Lola E. Olsen, Jerome, Idaho2. Source of water supply: Un-named springs3. Location of point of diversion: Is in the NE corner of SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31
T. 8 S. R. 14 E. County of Twin Falls

4. Describe works as they exist, giving dimensions and capacities of same: This has always been a large hot water spring. It was dug out about 15 to 20 feet deep and cement lined with a cap and pipe on the top. In a few weeks time it began to grow wet for some distance around and lost much of its pressure head. This set up was discarded.

5. Water is used for: Bath and motel heating6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 31, Twp. 8 South, Range 14 East, B. M.

Next a well drill was used and put a hole 42' deep in the spring. There is an 8" pipe casing extends approx. 10' above the ground. This enables a free flow thru a 1400' pipe line of 30 gpm which is not enough. So a centrifugal pump 2 1/2" x 2" driven by a 1 1/2 hp. hor. motor was put into the line. It can be controlled by switch from the place of use.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Water was checked by catching a 10 gal can full in 4 sec. and allowing some extra for add. water that was not coming thru the pipe line. There is water in seven individual baths (public both hot and cold. House and office is also heated by this water. House is in process of being built. This will be a motel and bath establishment when completed. Two to three hundred dollars per mo now for baths.

This examination was made on the 22 day of June, 19 59

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 20205

Mr. Dean M. Olsen
Jerome, Idaho

Dear Mr. Olsen:

This acknowledges the Notice of Proof of application of water to Beneficial Use under Permit No. 20205, to be made at 10:00 A. M. on the 10th day of October, 1958, before Mrs. Nelson A. Peiros, Notary Public.

As of this date we have mailed to the Twin Falls News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's Seal has been placed on each, and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Idaho

Dear ~~Sir~~ Mr. and Mrs. Olson:

Under the terms of your Permit No. 20205 you are required to make proofs of completion of works and application of water to beneficial use on or before October 15, 1958.

We enclose Form 6 to be filled in and sworn to by you before a Notary Public, and returned to this department on or before the above date, for making proof of completion under the permit. Upon receipt of this affidavit, provided same satisfactorily shows the completion of works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper will will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Re: Water Rights Assignment to Ernest L. Green

Dear Mr. Carter:

In regards to the question of the validity of the above assignment, we would recommend that some authority of the appropriate probate court would be necessary.

It would be best if a certified copy of the order appointing administratrix and a certified copy of the order of the probate court confirming the transfer of the water right be obtained. Assuming that these will be provided and filed along with the attached assignment, we feel the assignment could then be recognized.

It appears that Ernest E. Green also retains an interest in the right. The fact that the certificate of completion of works was not issued jointly to Ernest L. Green and Ernest E. Green would not dissolve the interest of Ernest E. Green ipso facto. Therefore, an assignment from Ernest E. Green will also be necessary in order to complete the transfer.

DEPARTMENT OF RECLAMATION

RE: Permit No. 20205

Date August 1, 1958

Ernest L. and Ernest E. Green
Buhl
Idaho

Dear Sir^s:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 20205 is due not later than October 15, 1958. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Re: Permit No. 20205

Mr. Graydon W. Smith
Attorney General
Statehouse,
Boise, Idaho

Dear Mr. Smith:

The enclosed assignment raises a point as to the legal title of one of the assignors, namely Ernest L. Green, deceased.

This permit No. 20205 was originally given to Lon L. Green, the applicant, October 15, 1947.

Lon L. Green assigned to Ernest L. Green, a widower (same person as E. L. Green) and Ernest E. Green, July 15, 1950.

Certificate of Completion of Works was issued to Ernest L. Green who made the Deposition of Holder April 7, 1953. It appears to me that this certificate should have been issued jointly to Ernest L. Green and Ernest E. Green, however the same was not done.

Now comes Dean M. Olson with the enclosed assignment asking to have it recorded on the permit. It occurs to me that the signature of Viola Leckie as administratrix of the Ernest L. Green estate is alone possible not sufficient evidence of her authority to convey the undivided interest of Ernest L. Green deceased, in this permit, and that the same has been legally conveyed to Dean M. Olson.

I am informed by Mr. Olson that there were nine heirs to the estate of Ernest L. Green, that the estate was probated and has been closed. Mr. Olson also states that he has deeds and other instruments showing that he is now the full owner of this permit, No. 20205.

Will you please advise what, if any, further evidence should be furnished by Mr. Olson supporting the fact that he has, through the probate of the estate or other conveyances, come into the sole possession of this permit.

Dear Sir:

I herewith enclose to you the Proof of Completion of Works of E. L. Green and the supporting affidavits of Acel Fairchild and Lon L. Green, showing that the diversion work was fully completed before October 25, 1952. I trust this will be sufficient.

The work and diversion was completed before October 25, 1952 and actual diversion of the full capacity of the spring was made before October 25, 1952. Recent development, however, has put the full amount of the water to use as a hatchery, as contemplated in the Permit at the time the application was made.

We acknowledge receipt of your letter of January 13, 1953, enclosing affidavit of E. L. Green for proof of completion of works under Permit No. 20205, accompanied by your check for the \$5.00 fee.

This proof was due on or before October 25, 1952, and we note Mr. Green's statement that the works were completed at that time. However, since the proof is several months past due, which renders the permit liable to cancellation, it will be necessary to furnish affidavits of two witnesses in support of the fact that the works were completed within the statutory limit.

These proofs should be made on the forms enclosed and should definitely state that the works were completed by October 25, 1952.

Department of Reclamation,
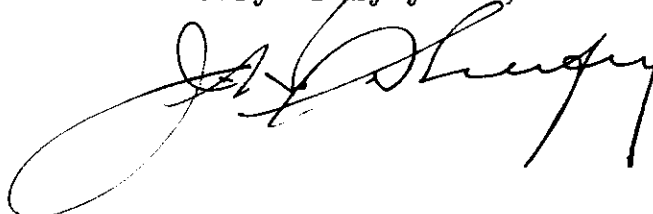

Boise, Idaho.
Attention: Mark R. Kulp.
Engineer.

Dear Mr. Kulp:

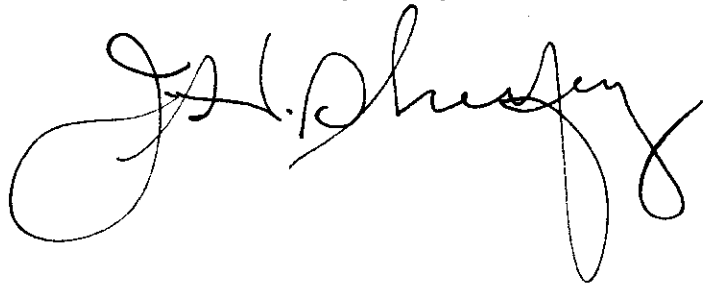

Mr. Ernest L. Green of 412 13th Ave. , Buhl, Idaho, the holder of permit No. 20205, has lost all of his data concerning this filing, and it has been impossible to make the required report of completion of the work.

Will you have your office mail me a copy of the permit so Mr. Green can give you the necessary information to show completion of the work.

If you will have someone in your office give me this information, I will appreciate it, also send bill for the furnishing of the information.

Very truly yours,

JHS:HR

RE: Permit No. 20205

Mr. Ernest L. Green
Buhl
Idaho

Dear Mr. Green:

We acknowledge receipt of your affidavit in proof of completion of works on Permit No. 20205.

We return your affidavit for the following corrections:

1. Question 3 should give the point of diversion to a legal subdivision, section, township and range.
2. Your application and permit states that the water is also to be used for ~~motel~~-hotel heating, but this is not mentioned under Question 5.

There is also a fee of \$5.00 required in connection with this proof.

Very truly yours,

MARK R. KULP

PROOF OF COMPLETION OF WORKS

Mr. Ernest L. Green
412 13th Avenue
Buhl, Idaho

Boise, Idaho **August 1, 1952**

Dear Sir:-

Under the terms of your Permit No. **20205**.....you are required to complete your diversion works on or before.....**October 25, 1952**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

RE: Permit No. 20205

Mr. E. L. Green
412 13th Avenue
Buhl, Idaho

Dear Mr. Green:

We have approved your application for extension of time for completion of works on Permit No. 20205 to October 25, 1952, which is the maximum of 5 years allowed by statute. This approval should be attached to the original permit of which it now forms a part.

The records in this department show that the original permit holder, Lon L. Green, assigned this permit to Ernest L. Green (or E.L. Green) and Ernest E. Green, but we understand, from a letter received from him that he is now a co-owner of the permit and we also note that he has filed the application for extension of time along with you.

If an interest in Permit No. 20205 has been reassigned by Ernest L. and Ernest E. Green to Lon L. Green, the enclosed form of assignment should be executed and returned to this department for record, accompanied by the 50 cents recording fee.

Very truly yours,

Dear Mr. Green:

Reference is made to your letter requesting an extension of time for completion of works on Permit No. 20205.

Our records show that this permit has been assigned by you to Ernest L. and Ernest E. Green, and if you are now a co-owner, it will be necessary to have Messrs. Ernest L. and Ernest E. Green assign a portion to you on the enclosed form which should be executed before a Notary Public and returned to this department with the 50 cents recording fee.

Meanwhile we enclose a form of application for extension of time for completion of works which could be allowed to October 25, 1952.

SIR:

Application which has been filed under the above number is herewith returned for correction in the following particulars:

1. Question 4 gives point of diversion in the Northwest corner of Section 32 but the distance, and also the sketch map would show it in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 31. Which is right?
2. Question 5 gives place of use as SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 31, but the distances and the sketch map would show it in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of this section. Which is right? Also the sketch map would seem to indicate two places of use- the other in the NE $\frac{1}{4}$ NE $\frac{1}{4}$. Please explain, under "Remarks"
3. State ownership of the land on which the springs are located. If you own the land, state so under "Remarks". If the land is owned by another, the affidavit of permission at the bottom of the third page must be executed by the owner.

You are allowed 60 days from date of first return for correction, as stamped in second line on back of application, to file completed application. If received after that date application can be refiled under a new number with later priority, requiring additional fee.
