Buhl, Idaho

Dear Mr. Brown:

In reply to your letter of February 27, 1956, requesting if Water Right No. 19106 has been sold or transferred, to whom, when and where.

We wish to state that License No. 19106 was issued to C. C. Stombaugh. After a License has been issued on a Water Right this Department does not keep record of any subsequent ownership. This Water Right is appurtenant to the land to which it was made a part and cannot be transferred for use on other lands except by going through this Department by transfer proceedings.

There is no record in this Department that this water right has been transferred.

Dear Mr. Stombaugh:

We acknowledge receipt of the deposition of yourself and two witnesses, also affidavit of publication from the Buhl Herald, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken in this matter, however, the law requires that a field examination be made by an engineer from this Department. We cannot say just when this examination will be made, since this Department has but one field engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination, so that you may arrange to show him over the grounds.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 19106

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On June 12, 1943, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Buhl, Idaho before A. J. Amos, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly.

Gentlemen:

We thank you for checking copy of notice of beneficial use proof under the above numbered application, in the name of C. C. Stambaugh.

In the fifth paragraph, we find that there is one omission in the copy-- that is, after "Twp. 9", in the last line of this paragraph should be inserted the word "South". Will you please make this correction in your subsequent issues?

Also in the very first line, there seems to be a letter omitted-- the "t", in the word "at"-- followed by 10 A.M.

We thank you for your co-operation in this matter.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No. 19106 you are required to complete your diversion works on or before June 12, 1942. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
E. V. BERG

Re: Application 26558 - C. C. Stombaugh

Gentlemen:

Your letter of April 18 in re above entitled matter has been referred to me for answer. The engineering department of the Twin Falls Canal Company states that the water which is sought to be appropriated is now being used by the Twin Falls Canal Company and the application should, therefore, not be granted.

Gentlemen:

We have an application for permit to appropriate the waters of a spring in the NW¹/₄ of Section 7, Township 9 S., Range 15 E. This description indicates that the land is a little more than a mile southeast of the City of Buhl on the Twin Falls Project.

Knowing the situation there, I wondered what your attitude would be towards this; whether you claim all the water arising in this project as being a tributary to the Canal Company operations or whether this is a natural spring over which you would have no jurisdiction or make no objection.

I will hold up permit for a few days awaiting an answer from you.
