Mr. Ernest A. Reinke

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above-numbered permit, also of the affidavit of proof of completion of works under the permit.

There is a \$5.00 fee due in connection with your completion of works proof, and as soon as we are in receipt of this fee a certificate of completion of works will be issued.

Before final action can be taken in the matter of the beneficial use proof, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.
