Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspapers, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due before the issuance of your license.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

S. T. HAMILTON, Agent
John S. Courley
Twin Falls, Idaho
Dear Sir:—

Boise, Idaho, July 9, 1934

Under the terms of your permit No. 17715 you are required to complete your diversion works on or before Sept. 8, 1934. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

R. W. FARIS

Commissioner of Reclamation.

Dear Mr. Faris:-

Herewith please find application, John S. Gourley, for appropriation of water. This water is from the foot of rim rock, Snake River Canyon, and is picked up after any possible place of use by Twin Falls Canal Company, and beyond any point where the same might be diverted into the system.

I think it is a clear case of appropriation of wild water.

I enclose Cashier's check, Twin Falls Bank and Trust Company, \$5.00, in payment of fee.
