Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will contact you at the time set for examination so that you may show him over the grounds. After his report is on file in this office you will be further notified as to fees due. Before the issuance of your license.

Dear Sir:-

In re: Ether Fairchild
permit No. 16397

Ether Fairchild has referred your letter of August 31st in regard to proof of application of water to beneficial use under permit No. 16397, to me.

It appears that a mistake was made in the application for permit, approved November 23, 1925. This mistake consisted in an error as to the legal subdivision in which the point of diversion was located, and also with respect to the description of the land upon which the water was to be used.

In the application the point of diversion was given as the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 14, Twp 9 S., R. 14 E. B. M., Twin Falls County, Idaho. The true description should have been: SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 14, Twp. 9 S., R. 14 E. B. M., Twin Falls County, Idaho.

In the application for permit, the land was described as follows: The NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 10, and the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 11, all in Twp. 9 S., Range 14 E. B. M. This land should have been described as follows: The NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 10, and the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 11, all in Twp. 9 S., Range 14 E. B. M.

These errors appear both in the original application for permit and the certificate of completion of works, and possibly in other papers of record in your office. I am wondering if these papers could not be amended in accordance with the facts as above stated.

Mr. Fairchild desires an extension of time in which to complete his diversion works, or rather to apply water to beneficial use. He has only been able to place about forty acres of the land under cultivation, because of financial difficulties occasioned by low prices. Kindly advise as to method of procuring extension of time in which to make final proof.

Yours very sincerely,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Ether Fairchild
Buhl, Idaho

Boise, Idaho,

August 9, 1929

Dear Sir:—

Under the terms of your permit No.....**16397**.....you are required to complete your diversion works on or before.....**Nov. 23, 1929**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

GEO. N. CARTER
Commissioner of Reclamation.
