NOTICE FOR PUBLICATION

Notice of Proof Application of Water to Beneficial Use.

Notice is hereby given that at 10 a. m. on the 24th day of February, 1928, at Twin Falls, County of Twin Falls, State of Idaho, before Harry Benoit, notary public, proof will be submitted of the application to beneficial use of one (1) cubic foot per second of the waters of Mule creek in accordance with the terms and conditions of Permit No. 12189 heretofore issued by the State Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Harold A. Jones, Rogerson, Idaho.

The use to which said water has been applied is irrigation and domestic use.

The amount applied to beneficial use is one (1) cubic foot per second.

The place where said water is used (if for irrigation, give full and accurate description of the land irrigated): The SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Sec. 20; and the NE $\frac{1}{4}$ of NW $\frac{1}{4}$, Sec. 29, in Twp. 16 S., R. 16 E., B. M.

The right to take water from such works is based upon Permit No. 12189.

The source of supply from which such water is diverted is Mule Creek, which is a tributary of Shoshone Creek.

The date of the priority which said user is prepared to establish is May 10, 1916.

GEO. N. CARTER,
Commissioner of Reclamation.

Re: Permit No. 12189 - Harold A. Jones

Mr. Harry Benoit,
Attorney at law,
Twin Falls, Idaho.

Dear Sir:-

Referring to your letter of the 9th inst. would say that the depositions of the holder and two witnesses will be the proof of completion of the works upon which the permit will be reinstated and the certificate issued. These depositions should, therefore, show that the works are completed and when they were completed, also, give a description of the works of diversion.

When this proof has been made, the holder may proceed with the proof of beneficial use of the water, upon which the final license is issued. Notice of this proof is required to be published for a period of four weeks prior to the date of making proof and the depositions of holder and two witnesses again made upon the proper forms which will be furnished from this office. Further instructions as to this proof will be given when required.

Gentlemen: Re-Permit 12189-Harold A. Jones:

Under date of January 5th you were kind enough to forward me a copy of permit. Under date of December 31st you forwarded me deposition blanks for the purpose of submitting proof. Would you be so kind as to advise me just what procedure is to be followed at this time. Apparently Mr. Jones's father handled this matter while he was in the service and his father has since died. He does not seem to be able to give me sufficient information, and I would like to know whether this is merely for the purpose of showing cause why the permit should not be cancelled, or whether it is for the purpose of making proof of completion of works.

If it is necessary merely to show cause, will the depositions which you forwarded to me properly executed be sufficient?

An early reply will be appreciated.

Re: Permit 12183-Harold A. Jones.

Mr. Harry Benoit,
Attorney at law,
Twin Falls, Idaho.

Dear Sir:-

Referring to your letter of the 29th inst would say that the time within which to show cause why the above permit should not be canceled will be extended to January 10, or a reasonable length of time thereafter, if necessary. These cancellation notices are being sent out merely to clear our records of lapsed permits and not because there is any question to the right to the use of the water.

The files show that, on May 24, 1918, the holder filed an application for extension of time for completion of works to one year from the time of his discharge from military service. He will, therefore, not be required to show proof that the works were completed by May 27, 1918, the date specified in his permit, but he should file depositions of himself and two witnesses showing the date, or season, when the works were completed.

We are enclosing deposition blanks. The statutory fee of \$5.00 should accompany the proof when submitted.

Feb. 1, 1918.

Dear Sir:—

Under the terms of your Permit No.-----**12189**-----, you are required to complete your diversion works on or before-----**May 27, 1913**----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
