OFFICE OF THE STATE ENGINEER

BOISE, IDAHO.

October 24, 1918.

In the matter of the application of Edwin Damman for Re-instatement of lapsed permit No. 11846, under H. B. 53, Laws of 1917.

Mr. S. T. Hamilton of Twin Falls, Idaho, makes the following statement regarding the history of the land proposed to be irrigated by said permit:

I examined the abstract of title to the 120 acres of land described in the permit and found that the land had been filed on in the early history of the Twin Falls Tract and 80 acres proved up on by one person and 40 acres by another person, and patent was received to the land from the State of Idaho; that after proof, the land was deeded to the Twin Falls Land and Water Company, and the water contract cancelled, the land being then considered as too rocky and rough for farm purposes. The water was put upon other lands by the Company. Later the Twin Falls Land and Water Company sold the land to Edwin Damman, who made application for the permit under consideration, and has since removed the rock from the land and improved same so that it is now a cultivable farm with comfortable house, barn, garage, and other out-buildings, and the land under cultivation from the ditch described in the permit. The improvement of the land has been accomplished by the use of the water for which license is asked under the permit. The land is arid in character and could not be used for farm purposes without irrigation.

OF THE
STATE OF IDAHO.

In the matter of the reinstatement)
of lapsed Permit No. 11846, under) Order Reinstating
H. B. 53, Laws of 1917.) Permit No. 11846.

On the 9th day of September, 1918, this office served notice on the holder of Permit No. 11846 to show cause why such permit should not be cancelled under the provisions of House Bill No. 53, Session Laws of 1917, Page 11, on the ground that the proof of completion of works had not been made on the date required.

The holder appeared and offered proof that said works had been completed within the required time and that he was proceeding in good faith.

After an examination of the proof submitted and the filing of a statement by S. T. Hamilton and due consideration of the facts, the State Engineer is satisfied that the holder of said permit has proceeded in good faith and that he had the works of diversion completed at the time they were required in the permit.

Wherefore it is hereby ordered that said Permit No. 11846 be reinstated and a certificate of completion of works issued.

Witness my hand and the seal of my office, at Boise, Idaho, this 24th day of October, 1918.

Sept. 13, 1918.

State Engineer,
Boise, Idaho.

Dear Sir:-

Enclosed find blank
forms as to permit 11846
filled out.

I find two receipts for
P.O. money order of five dollars
each and make out to the
State Engineer, as follows.

No. 167039 - Feb. 27-1918.

No. 166753 - Jan. 9-1918.

I would thank you to look these
up and see what they were for, and
whether your office received them. Truly

11846

Edwin Damman

Re: Permit No. **11846**-----

To ~~Edwin Dorman~~-----

~~Twin Falls, Idaho.~~-----

It appearing to the State Engineer that the terms and conditions of Permit No. **11846**-----, to Appropriate the Public Waters of the State of Idaho, have not been complied with as to ~~proof of completion of works by December 22, 1917,~~-----

you are hereby notified, in compliance with H. B. 53, approved February 28, 1917, that said Permit No. **11846**----- is hereby held for cancellation.

You are hereby required to show cause before the State Engineer on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. **11846**----- claims the use of **2.4**----- cubic feet per second of the waters of ~~an unnamed creek~~-----, with point of diversion located ~~in SW 1/4 Sec. 26, T. 9 S., R. 15 E., B.M.~~-----, and was approved ~~December 22nd~~-----, 19**15**..

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, this **9th**----- day of **September**-----, 19**18**..

State Engineer.

Re Permit No. 11846.

Mr. Edwin Damman,
Twin Falls, Idaho.

Dear Sir:--

Replying to your letter of the 7th inst. would say that your affidavit for proof of completion of works under the above permit has just been received here for the first time. The proof, however, could not be accepted at this late date unless you proceed under House Bill No. 53, Laws of 1917, providing for the reinstatement of lapsed permits. If the works of diversion were fully completed within the time specified in the permit, you can proceed under this statute, the first step being notice of cancellation, which is herewith enclosed, with letter for your reply. When this letter has been returned to us, deposition blanks for yourself and two witnesses will be mailed to you, with rules and regulations for procedure. The affidavit for proof, with money order for fees in the sum of \$5.00, and application for extension of time for beneficial use of water, are herewith returned to you.

You state in your letter that you are the holder of Permit No. 12574. This must be an error in writing the letter as this permit is held by L.H. Osborn and is for water in Idaho county. You, no doubt, refer to your permit No. 11574, under which proof of completion of works was made and certificate issued.

Very truly yours,

FRED A. WILKIE,

State Engineer.

State Engineer,

Dear Sir:-

Since receiving your letter stating that proof of works on permit 11846 had not been made I have been going over my papers some, etc. and I am wondering where the trouble can be. I know I have sent in several proofs of works - that is my memory. Do you suppose it possible that some mistake or oversight might have occurred in your office? I am the owner of permit No.

11846

12574, completion of work required Sept. 4, 1917. Please look it up and see whether your records show whether proof was made. — Your office does not accept bank checks and so it is not as easy for me to keep a record of, for I usually do that by check book stub. Also I have seldom registered my letters. Sometimes I have obtained paper money and pinned it to my letters. — Aside from memory I find something in my papers that indicates proof money sent. — Sorry to trouble you. Would thank you for a line on the matter. Truly yours

Edwin Damman — Twin Falls — Idaho.

Re Permit 11846.

Mr. Edwin Damman,
Twin Falls, Idaho.

Dear Sir:--

Replying to yours of the 2nd inst., relative to above permit, would say that the record of the permit here gives December 22, 1917, as the date for completion of works. As this proof was not made, the permit lapsed, hence the application for extension of time for beneficial use of water could not be accepted. The application was therefore returned to you unapproved.

Very truly yours,

FRED A. WILKIE,

State Engineer.

Dear Sir:

I herewith return
my application for extension
of time under permit no.
11846 for the reason that I
do not understand your
letter to me of Aug. 30 re-
turning the application. I
think, perhaps, it might have
been a mistake in re-
turning it. In comparing
my application with my
permit I find that the
date for beneficial use of

water in permit id is
Dec. 22, 1918 instead of
Sept. 4, 1918 as given in
my application.

I That I was living up
to the permit unusually
well, and That I was
showing the best of faith
in the matter and should
be disappointed to find that
I had been negligent in
any particulars. I bought
my easements, made some
good ditches, and to make
things still better abandoned
the pump and, ^{pump} in a lot of
12 in. wood pipe so as
to siphon the water to the

high point.

Thanking you in advance
to look this matter up again
and give me a reply, I re-

Re Permit 11846.

Mr. Edwin Dammann,
Twin Falls, Idaho.

Dear Sir:--

As an application for extension of time under a permit is required to be filed within thirty days after the date specified in the permit for proof, the enclosed application is herewith returned unapproved. This proof, however, will be accepted when made a later date than specified in the permit, but the date of priority will be brought down accordingly.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Edwin Lamman
Twin Falls, Idaho.

Boise, Idaho, Oct. 5, 1917.

Dear Sir:—

Under the terms of your Permit No. ~~11846~~-----, you are required to complete your diversion works on or before ~~Dec. 22, 1917~~-----, I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J. H. SMITH,
State Engineer.

Dear Sir:

I hold permit (to appropriate water for irrigation) No. 11846 recorded in Book 40, Page 11846, and am required by the terms of the permit to begin work not later than Feb. 20, 1916.

I would very much appreciate it if you will please ~~exp~~ extend the time for beginning work to the 7th. of March. If that is a

later date ~~that~~ than you can
grant. I hope you can at
least extend it to March 1st.
