Total number of acres irrigated:						** 50.3

CONDITIONS OF APPROVAL AND REMARKS

1. Use of water under this water right will be regulated by the watermaster of State Water District No. 47-0.
2. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

MICROFILMED

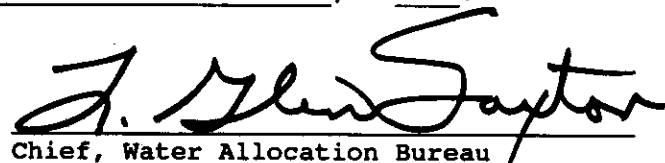

MAR 11 1999

TRANSFER NO. 5020
WATER RIGHT NO(S). 47-00119/47-00154

CONDITIONS OF APPROVAL AND REMARKS

3. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
4. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
5. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
6. Prior to diversion of water under this approval, the right holder shall provide a means of measurement and lockable controlling works from all authorized points of the diversion that is acceptable to the watermaster and will provide suitable control of the diversions.
- * 7. The total instantaneous diversion of water from all points of diversion under Transfer 5020 shall not exceed 2.40 cfs.
- ** 8. Rights 47-00119 and 47-00154 when combined shall not exceed a total annual maximum diversion volume of 201.2 af at the field headgate and the irrigation of 50.3 acres.
9. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion.
10. No structure in the stream channel shall constitute a migration barrier to fish indigenous to this stream.

Dated this 27th day of November, 1998.

RECEIVED

APR 22 1998 APPLICATION FOR TRANSFER OF WATER RIGHT

PART 1

Department of Water Resources

Name of applicant David W. Crockett Phone 423-4545
Post Office address 2678 Rock Creek Rd, Hansen, ID 83334

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☒ Other Describe present P/U & P/D
2. Describe the reason for the proposed changes Convert from gravity to sprinkler irrigation on my northernmost field by installing a pump in Rock Creek. The old headgate in Sec. 24 washed out in 1984, & was replaced with south pumping site. The west ditch comes out in Sec. 13, not Sec. 14 as originally described.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

- | Right Number | Priority | Amount (cfs/ac-ft) | Nature of Use | Period of Use |
|-----------------|------------------|--------------------|---------------|----------------------------|
| <u>47-00119</u> | <u>1-9-1881</u> | <u>0.80 cfs</u> | <u>Irrig.</u> | <u>4-1</u> to <u>10-31</u> |
| <u>47-00154</u> | <u>3-14-1892</u> | <u>1.60 cfs</u> | <u>"</u> | <u>"</u> to <u>"</u> |
| | | | | to |
| | | | | to |
2. Total amount of water being transferred 2.40 cubic feet per second and/or _____ acre-feet per annum.
3. Source of water Rock Creek tributary to Snake River
4. Point(s) of Diversion:

Lot	1/4	1/4	1/4	Sec.	Twp.	Rge.	County	Local name for diversion ^(west side)
✓	NE	SE	SE	11	12S	18E	Twin Falls	New pump to be installed (portable)
✓	SW	SW	NW	13	"	"	"	Existing portable pump (east side)
✓	~~NW~~	NW	SW	"	"	"	"	Headgate & ditch (west side)
	SW							

5. Lands irrigated or place of use:

Twp.	Rge.	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
12S	18E	11																10.5	10.5
		13						7.3	23.1	1.6									31.9
		14	7.3			0.6													7.9

MICROFILMED
MAR 11 1999

Total acres 50.3

PART 1

6. General Information:

- a. Description of diversion system Existing headgate & ditch waters land on west side of Rock Creek. A portable pump will be moved between two sites to ^{sprinkle} water land on both sides of Rock Creek. The gravity system will be maintained for use as needed.
- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? N/A Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
N/A
- d. Remarks:
This farm has always been irrigated.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

RECORDED
JUN 1 9 1896

RECORDED

3rd. That the grantors and predecessors in interest of H. G. Youngs, on the 1st day of July 1885, diverted from Rock Creek in Cassia County Idaho, 40 inches, measured under a four inch pressure, of the waters of said stream, for domestic purposes and for the irrigation of the N.1/8 of N.W.1/4 and W.1/2 N.E.1/4 of Sec. 26 in Tp. 12 S. of R. 17 E. of Boise Meridian; but that said rights were abandoned by this plaintiff H. G. Youngs.

4th. That said defendant Patrick Garrity on the 31st day of May 1874, appropriated 20 inches, and on the 31st day of May 1878 appropriated 20 inches of the waters of Rock Creek for the irrigation of the N.E.1/4 S.W.1/4 S.1/2 N.W.1/4 & Lot 3 of Sec. 1 Tp. 12 S. R. 18 E.; and on the 30th day of April 1883 appropriated 12 inches of said water for the irrigation of Lot 1 and S.W.1/4 of N.E.1/4 Sec. 1 Tp. 12 S. R. 18 East; and on the 30th day of April 1874 appropriated 35 inches of said water for the irrigation of the E.1/2 S.W.1/4 of Sec. 34 Tp. 11 S. R. 18 E.; all of said water measured under a four inch pressure; and said water has been used for said purpose of irrigation and for domestic purposes continuously each year since several dates above mentioned.

5th. That Thomas Atkins, on the 31st day of May 1887, diverted from Rock Creek, in Cassia County Idaho, 50 inches, under a four inch pressure, of the waters of said stream, and appropriated the same for irrigation and domestic purposes, on the S.E.1/4 S.E.1/4, N.1/2 S.E.1/4 & N.E.1/4 S.W.1/4 Sec. 27 Tp. 11 S. R. 18 E. Boise Meridian, and has used said water for said purposes continuously each season since, except when interrupted by the wrongful act of others.

6th. That E. M. Crockett on the 9th day of January 1881, diverted from said Rock Creek, 40 inches under a four inch pressure of the waters of said stream, and appropriated the same for irrigation and domestic purposes on the S.E.1/4 of S.E.1/4 Sec. 11 and W.1/2 N.W.1/4 Sec. 13 & N.E.1/4 N.E.1/4 Sec. 14 Tp. 12 S. R. 18 East Boise Meridian and has used said water for said purposes continuously and each season since during the irrigating season, except when interrupted by the wrongful acts of others.

JUN 1 9 1936

amount of water herein awarded to such parties in a substantial manner and place the same at the head of such ditch upon permanent and substantial supports, the lower end of said flume to be $\frac{3}{8}$ - of an inch lower than the upper end, the water to run through said box without obstruction, the water in said box not to be at any time at greater depth than 9 inches at the head gate in said box or flume, and that no person or persons shall receive or divert any of the waters of said Rock Creek except through said flume or box, the amount in inches under a four inch pressure to which each party is entitled, to be indicated by the number of square inches in the cross section of the water measured at a point $8\frac{1}{4}$ feet below the headgate in such box or flume.

It is further ordered that each and every party to this action and their successors and assigns and each of them, are hereby perpetually enjoined from diverting or in any way interfering with any of the waters of said Rock Creek except in the quantity and in the order and in the manner in which they or each of them are herein decreed to be entitled thereto.

RE: Water Rights 47-00119/47-00154 (Transfer 5020)

Dear Mr. Crockett:

Enclosed is the copy of your approved Transfer of Water Right for the above referenced water rights (Transfer 5020). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer. Also, please be advised that the accompanying transfer approval should be considered and treated as a **preliminary order** of the department issued pursuant to section 67-5243, Idaho Code. Enclosed are instructions for responding to **Preliminary Orders** if you are in disagreement with the approved transfer.

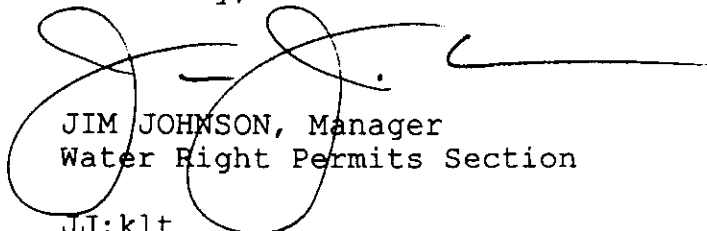

As of July 1, 1996, all water right owners are required to report any change in water right ownership and any change of mailing address to the department.

If you have acquired any other water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to record the ownership and/or address change with the department.

If you acquired other water rights or changed your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes in a timely manner could result in a \$100 late filing fee. You can contact any office of the department for more information. If you have any questions concerning your water right listed above you can contact me at (208) 327-7947.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

MAR 11 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MAR 11 1999

MEMORANDUM

TO: Files 47-00119 & 47-00154

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5020

DATE: November 30, 1998

Transfer 5020 adds and identifies three (3) points of diversion and changes the place of use to reflect the historical use under Rights 47-00119 and 47-00154.

The applicant is adding a pump and converting gravity to sprinkler irrigation in one of the fields. The gravity system will continue to be used as needed. Investigation by region staff and discussion with the watermaster found that the junior right is a high water right available only the early part of the season, and that when the gravity system is used the high diversion rate is required for conveyance losses. The region staff deferred further analysis until the SRBA investigation of the associated claims. The transfer approval limits the total volume delivered at the field headgate.

Diversion volume and season of use were identified according to current standards. Recommended conditions include watermaster control, measuring & lockable devices, irrigation overlap, fish screens, stream channel structure limits and standard transfer conditions.

MAR 11 1999

FROM: Allen Merritt 

DATE: March 10, 1998

TO: Transfer File No. 5020
In the Name of: Marian L. Crockett
and
Transfer File No. 5021
In the Name of David W. Crockett

RECEIVED

APR 28 1998

SUBJECT: Review and Recommendation

Department of Water Resources

Both of these transfers deal with adding points of diversion and clarification of the historical place of use of the water rights. Both are in the same area and are owned by the same family so should be reviewed together. *Note that after the transfer was filed by Marian she died; Marian was David's mother. Also, originally transfer 5021 as drafted created questions of ownership of rights involved. After negotiation between family members this appears to be resolved and transfer amended to reflect agreement.

Both files are well documented; however, transfer 5020 indicates an excess flow above 1"/acre when the high water right 47-00154 is added in. On this date I talked with Chuck Helman, watermaster on Rock Creek, and he indicates that the 1892 water is considered a high water right. He indicated that in 1994 it was cut off around June 1; in 1996 on July 1; and this year on July 10th. He indicated that with flood irrigation David Crockett has no excess water.

RECOMMENDATION

I recommend that both transfers be approved subject to following conditions:

7061
-All rights are subject to SRBA review. The department defers the review of the excess flow analysis of right 47-00154 until the SRBA process and may limit use when combined with 47-00119 to no more than 1"per acre or what can be beneficially used.

100
-Under control of watermaster of water district 47-0.

200
-Measuring devices and control works acceptable to the department and watermaster must be maintained at all points of diversion. (All pump diversions must be screened to prevent taking of fish)

MICROFILMED

MAR 11 1999

Recommended conditions for Crockett transfer

WIS The pump intake shall be placed in a screened box with mesh size not to exceed .25 inch.

No structure in the stream channel shall constitute a migration barrier to fish indigenous to this stream.

RE: Ownership of water right 47-00116

Dear Claimants:

As you know the department is presently processing application for transfer #5021 filed by Marian Crockett for a portion of right No. 47-00116. This application was advertised without protest. In reviewing the Snake River Basin Adjudication (SRBA) claims associated with right No. 47-00116, it is found that the following claims have been filed:

SRBA Claim No.	Claimant	Amount (CFS)
A47-00116	Broken Diamond	1.60
A47-00116A	Marian Crockett	1.00*

*Note that SRBA Claim No. A47-00116A is for 1.80 cfs total which is described as a combination claim of all of right 47-00117 (0.80 cfs) and portion of right 47-00116 (1.00 cfs).

Noting that right No. 47-00116 was decreed to A.D. Norton for a total of 1.60 cfs, there is an apparent ownership dispute revolving around this right. The department requests that both claimants or their representatives provide documents which clearly demonstrate or evidence their chain of title of their ownership back to the original decreed owner. Such documents may include copies of deeds, sales agreements, etc. Please submit your evidence of ownership by October 1, 1997. The department will review and utilize the evidence provided in approval or denial of the pending transfer application and also in formulating the recommendations of the above SRBA claims to the SRBA court. If you fail to respond you may jeopardize any right you may have in the use of this water.

If you have questions, please feel free to contact our office.

Sincerely,

Allen Merritt, PE
Southern Region Manager

RE: 47-00116 (A47-00116,-00116A)

Dear Mr. Crockett,

Prior to final recommendation of the application for transfer, in the name of Marian L. Crockett, there needs to be clarification regarding the diversion rate of the above right.

The original claim in the name of A.D. Norton, 47-00116, has a diversion rate for 1.60 cfs. During the claims taking for the adjudication process, both the Crockett's and the Helman's claimed a diversion rate matching and/or exceeding the original claimed rate.

The right in the name of Marian L. Crockett, A47-00116A, claims a diversion rate of 1.80 cfs. The right in the name of Broken Diamond Ranch, A47-00116, claims a diversion rate of 1.60 cfs.

The competition for the same claim will need to be resolved prior to the approval of the transfer. All the dated material you submit to our office will be necessary to verify the development of the claim(s). Additional information regarding historical use will be most helpful.

I appreciate your patience and perseverance to resolve this matter. If you have any questions, please don't hesitate to call our office.

Sincerely,

Georgia Satterlee

Crockett, David

SUBJECT: (A)47-00117 and 47-00177
phone call (.) walk-in (x 15 May 1997)

Chuck Helman to David Crockett dated 03-25-97
RE: Concern Adjudication Claim(s) not filed for above rights.

There is an adjudication claim for A47-00117 (4-1-1880 0.80cfs).
However, there is not an adjudication for 47-00177
(07-13-1907 0.80cfs).

The acres irrigated in 47-00177 are already claimed in (A)47-00117, except the 4 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec 1, T12S, R18E, which may be part of the 10 acres claimed A47-00116A (pending T47-00116B claims only 2.7 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$).

Question for Watermaster: Is this claim with a priority date of 07/13/1907 deliverable?
If so, the claimant would be at an advantage to file a late claim for \$50.00 plus \$1 per acre not claimed already (\$54 $\pm$).

supplement thereof, for two consecutive weeks,
commencing with the issue dated March 20, 19 97,
and ending with the issue dated March 27, 19 97.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except
Monday, both of which newspapers prior to consolidation had been published under said names in said city and county
continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since
such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said
newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be
published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each
issue thereof, Thursday is announced as the day on which said legal notices will be published.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published in your newspaper. We have inserted the required publication dates. If time allows, please submit a galley proof for review before publication.

We have attempted to submit this legal as camera ready. Please call me at your earliest convenience and prior to your staff re-typing the legal if it does not meet your specifications so I can possibly make adjustments.

If you cannot publish the notice on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Very truly yours,

Mary Baldwin
Sr. Secretary

NOTICE OF PROPOSED CHANGE OF WATER RIGHTS

Notice is hereby given that DAVID W. CROCKETT AND MARIAN L. CROCKETT, C/O DAVID W. CROCKETT, 2678 ROCK CREEK RD; HANSEN ID 83334 have filed two (2) transfer applications pursuant to Section 42-222, IDAHO CODE. The purpose of the transfers is to add diversion points, show present diversion points and place of use as applicants convert from gravity to sprinkler irrigation.

Transfer No. 5020 involving Water Right No. 47-00119 (0.80 cfs) with a priority date of 1/9/1881 and Water Right No. 47-00154 (1.60 cfs) with a priority date of 3/14/1892 will be diverted from Rock Creek tributary to Snake River. Proposed diversions are within SE1/4SE1/4, S11 via a portable pump on the West side; SW1/4NW1/4, S13 via a portable pump on the East side; and NW1/4SW1/4, S13 via headgate and ditch on the west side; all T12S, R18E. A total of 2.40 cfs of water is being transferred to irrigate 50.3 acres within parts of Sections 11, 13 and 14, T12S, R18E; Twin Falls County.

Transfer No. 5021 involving Water Right No. 47-00116B (1.0 cfs) with a priority date of 4/1/1880 and Water Right No. 47-00117 (0.80 cfs) with a priority date of 4/1/1880 will be diverted from Rock Creek tributary to Snake River. Proposed diversions are within SW1/4SW1/4, S01 via headgate on East side and a pump on West side; SE1/4SE1/4, S11 via a portable pump on the West side; SW1/4SW1/4, S12 via Headgate and ditch on East side; and NW1/4SW1/4, S13 via headgate and ditch on the west side; all T12S, R18E. A total of 1.80 cfs of water is being transferred to irrigate 88.9 acres within parts of Sections 1, 2, 11 and 12, T12S, R18E; Twin Falls County.

A protest against approval of any particular transfer must be filed with the Department of Water Resources, Southern Region, 1341 Fillmore St., Suite 200; Twin Falls, ID 83301 together with a protest fee of \$25.00 on or before April 7, 1997. (Each transfer requires a separate protest). The protestant must also send a copy of the protest to the applicant.

Re: Applications for Transfer No. (5020 (47-00119, 47-00154) and
5021 (47-00116B, 47-00117)

Dear Mr. Crockett:

The Department of Water Resources acknowledges receipt of the
Applications for Transfer referenced above.

This office has scheduled advertising the applications in The Times
News for 3/20 & 3/27/97.

The advertisement(s) will be published for two weeks, and a period
of ten days following the second publication will be allowed for
the submittal of protests.

If an application is protested, you will be sent a copy of the
protest. The protest must be resolved before the application is
approved or denied. If the protest is not resolved voluntarily,
this Department will conduct a conference and/or hearing on the
matter.

The department's review process may have to include field
investigation and verification of the claims which is required as
part of the Snake River Basin Adjudication.

In addition, before Transfer No. 5021 can be sent to the State
Office for final processing, you must authorize the addition of the
point of diversion for Section 12, T12S, R18E on the original
application by placing your initials beside the entry.

Please feel free to contact this office if you have any questions
regarding this procedure.

Very truly yours,

Georgia Satterlee
Water Resource Agent

Re: Two Applications for Transfer-Crockett

Dear Mr. Helman:

Enclosed are copies of two Applications for Transfers of Water Rights within your District, and Watermaster's Recommendation Forms.

Section 42-222 of the IDAHO CODE requires that the watermaster must be advised of proposed changes in water rights in the water district and must notify the Department of his recommendation on the application.

Please complete the enclosed recommendation forms and return them to this office.

Processing of an application can be completed in 20 days, therefore, your prompt response to this request will be appreciated.

If you have any questions about the applications, please contact this office or the applicant.

Very truly yours,

MEMO TO FILE

FROM: Georgia Satterlee
DATE: 10 February 1997
RE: Transfer per 47-00119/47-00154

Field Exam Pre-Transfer

On 29 January 1997, I met with David Crockett at 0900 hours. Regarding this transfer, there are three points of diversion which irrigate approximately 50 acres.

The Points of Diversion

The first point of diversion, a headgate (photo page 1/5), is the diversion point which is located south of all the other diversion points. The headgate is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 13, T12S, R18E. The headgate feeds into a CMP that travels underground for about 1200 feet. It daylights into a concrete lined ditch that runs 150 feet (photo page 1/5, bottom page). The concrete ditch runs into a dirt ditch that carries water northerly running mostly parallel to Rock Creek Road. The ditch supplies water to flood irrigate Field (1) and other fields northerly.

The second diversion point is a pump located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13, T12S, R18E, (photo page 3/5). The pump information is: Berkeley 20 horsepower pump, Model #B8TPM, Serial #8141193. This pump supplies water to hand lines and sprinklers which irrigate Field (2) (photo page 2/5).

The third and last point of diversion, a pump, which irrigates Field (3) is located in NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11 (photo pages 4-5/5). Although the service pole was there, the pump was not available. No information regarding pump model and/or serial numbers obtained. Handlines and sprinklers are used to irrigate Field (3) (photo pages 4-5/5).

The Places of Use:

The irrigated fields are numbered (1)-(3), please see the quad map (Scale 1"=2000') included.

Field (1)=approximately 8 acres in the NE $\frac{1}{4}$ of Section 14, T12S, R18E (Photo page 2/5).

Field (2)=approximately 32 acres in the NW $\frac{1}{4}$ of Section 13, T12S, R18E (Photo page 2/5 bottom page).

Field (3)=approximately 11 acres in the SE $\frac{1}{4}$ of Section 11, T12S, R18E (Photo pages 4-5/9).

When water is abundant, usually early in the season, Field (1) can be flood irrigated from a dirt ditch which runs on the west edge of field, parallel with Rock Creek Rd. However, the predominant irrigation method is pumping from designated points of diversion to hand lines and sprinklers.

All the above information seems to be in order and is recommended for approval.

RE: Conveyance Loss

The conveyance loss was calculated for the accumulated rate. Please see the sheet titled Conveyance Loss - Worstell. The calculated loss is 0.05 cfs which is insignificant. However, David submitted to the department the 1982 report from Thomas Trout, an Agricultural Engineer. Mr. Trout did measurements of the ditches in the Rock Creek area. In Trout's report, he points out the loss from the Crockett ditch, which is significant.

I feel the 1982 report plus the conveyance loss worksheet validates the reason why approximately 2"/acre is necessary for this transfer.

Crockett, David

T# 5020

December 21, 1982

David Crockett
Route #1
Hansen, ID 83334

Dear Mr. Crockett:

If you recall, this fall I measured the water loss from your irrigation ditch. I measured the water with flumes in an approximately 3/4 mile section starting at the head gate. On the day I visited (8/9) you were getting about 0.8 cfs (40 in) of water through your gate and losing 41% of that to seepage and leakage from the measured ditch section. This comes to a loss of 55% per mile of ditch. About 26% of that loss was leakage from two cuts above the hay field.

Water losses from 10 other ditches in the area ranged from 0 to 30% per mile length and averaged 19% per mile. One-fifth of that average loss was visible leakage usually at gates or checks. Generally, steeper and deeper ditches lost very little water while higher, flatter ditches had high losses. Head ditches generally lost more water (about 3 times as much) as strictly conveyance ditches.

Thank you for allowing me to measure flows on your ditch. If you have any other questions, please feel free to contact me.

Sincerely,

Thomas Trout
Agricultural Engineer

Marian Crockett Transfer per 47-00116A,-00117
phone call (x) walk-in (.)

He can meet w/ me next Wednesday 29 January @ 1330 hrs. I will bring both his transfer and the transfer in his deceased mom's name. After the saw mill, proceed 3 miles past, to his home. Also, his house is 1/2 mile past the 2nd cattle guard on Rock Creek Rd. The color of his house is blue-green. I told him if it doesn't work out and he can't meet me, I can go do a drive by without him and do the best I can with what I can figure out.

Dear Mr. Crockett;

Per our discussion, I have prepared applications for water transfers for both your property and your mother's place. Based on recent aerial photos, I have listed the land that is presently irrigated. If the applications are satisfactory, they should be signed before a notary and returned to me for processing. A processing fee of \$100. per transfer is also required. We also need proof of ownership of the subject property, such as deeds or recent tax notices.

If the applications are not satisfactory, please contact me. I will be out of the office until May 28.

Sincerely,

James E. Stanton
Sr. Water Resource Agent
