SYSTEM MEASUREMENT

ANNUBAR - ANNUBAR RESULTS WERE INCONCLUSIVE, BECAUSE OF THE LOCATION OF THE MEASUREMENT PORT. TURBULENCE WITHIN SYSTEM CREATES A READING MUCH TOO HIGH.

THEORETICAL - AN ACCURATE WATER LEVEL AT THE TIME OF THE FIELD EXAM WAS IMPOSSIBLE TO DETERMINE. WELL HAS AN OBSTRUCTION BETWEEN THE LEVELS OF 90 ft AND 130 ft.

FOR CALCULATION USED DYNAMIC PUMPING LEVEL INCLUDED ON PROOF OF BENEFICIAL USE FORM. (242 ft.)

OWNER APPROXIMATED PSI - RATING AT 70. SYSTEM DOES HAVE SOME PRESSURE GAUGES, BUT MANY ARE BROKEN AND NOT LOCATED IN THE RIGHT POSITIONS.

$$Q = \frac{(8.8)(.7)(400 \text{ hp})}{242 \text{ ft} + (2.31 \times \frac{65}{70} \text{ psi})} = \boxed{6.28 \text{ cfs}}$$

RE: PERMIT NO. 37-08679

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 37-08679

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

This permit authorizes the appropriation of trust water. Trust water is defined as that portion of a particular hydropower water right which exceeds certain minimum stream flows established by state action, and is held in trust by the State of

Idaho for the use and benefit of the people within the state.
Conditions pertaining to a term review, annual use fee and
jurisdiction of the permit are trust water conditions.

RE: APP. NO. 37-8679/Trust Water Processing

DATE: 2-21-91

This trust water filing has been forwarded to the state office by the region for out of sequence processing. There appears to be sufficient information in the file providing evidence of development prior to October of 1984. I have also reviewed a 1983 infrared photo on file with the department and have found that all of the acreage under the application appears to have been irrigated at that time. The 1986 IDWR classification of irrigated acreage also confirms irrigation of the same lands at that time.

Due to evidence of prior development, the application may be approved out of sequence. The application will be considered a trust water filing due to the post 1984 priority date, but the acreage will not be counted as trust acreage due to the pre-1984 development.

Re: Application for Permit No. 37-08679

Dear Applicant (s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned the above referenced identification number. Please refer to this number in all further correspondence.

This office will be advertising the application in the Lincoln County Journal on 11/7 & 11/14/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Gary Funderburg

RE: Irrigation Pump #0555

Dear Mr. Hubsmith:

Upon your request I am writing this letter to verify that the above pump has been in use since 1976. In that year, Mr. Steve Shaw signed an irrigation electric service agreement with Idaho Power guaranteeing a minimum annual payment to Idaho Power for its special investments in extending its lines and facilities to the customer to supply him with pumping power service. Mr. Shaw signed a ten (10) year agreement with Idaho Power. I can verify that Mr. Shaw did exceed the agreed upon annual payment for each of those ten (10) years, thus verifying irrigation pump usage for those ten (10) years.

Dear Mr. Hubsmith:

Enclosed are the application materials you requested. I've filled in all the pertinent information, including point of diversion, rate of diversion and place of use. The point of diversion is the same well as your existing rights, and the place of use is as follows:

- 40 acres in NESW, Sec 19
- 40 acres in SWSW, Sec 19
- 11 acres in SESW, Sec 19
- 29 acres in SESW, Sec 19 (Amended from permit 37-7268)
- 7 acres in NESW, Sec 30
- 7 acres in NWSE, Sec 30

The 14 acres in Sec. 30 are the two north corners of your South 160-acre pivot tract.

During my field exam visit on July 24, 1990, I understood that all 40 acres in both the NESW and NWSE were being irrigated; however, existing rights cover only 33 in each tract. Thus, the total new acreage is 105 acres.

If you have any questions, comments, or changes to make, please feel free to call our office at 734-3578.

Cordially,

Chuck Brockway
