The above-captioned water right was claimed by the United States Department of Interior, Bureau of Land Management as a "dual based" water right, meaning the water right was claimed both pursuant to state law and as a federal reserved water right pursuant to Public Water Reserve (PWR) 107. On September 11, 2002, following a hearing held pursuant to Idaho Code section 42-1411A(14) regarding the factual basis for the federal reserved water right claim, a *Special Master's Report and Recommendation* together with *Findings of Fact and Conclusions of Law* was filed for the above-captioned water right. The *Special Master's Report and Recommendation* recommended that the federal basis for the claim be decreed as recommended and that the state basis for the same claim be disallowed and not confirmed in any partial or final unified decree. No Challenges were filed to the *Special Master's Report and Recommendation* and the time for filing Challenges has now expired.

Pursuant to I.R.C.P. 53(e)(2) and *SRBA Administrative Order 1*, Section 13f, this Court has reviewed the Findings of Fact and Conclusions of Law contained in the *Special Master's Report* and wholly adopts them as its own.

ORDER OF PARTIAL DECREE FOR FEDERAL RESERVED WATER RIGHT,
ORDER DISALLOWING STATE LAW BASIS FOR SAME WATER RIGHT

Therefore, IT IS ORDERED that water right 31-11288 is hereby **decreed** as set forth in the attached *Partial Decree Pursuant to I.R.C.P. 54(b)*.

IT IS FURTHER ORDERED that the state law basis for the same water right is hereby **disallowed** and shall not be confirmed in any partial decree or in any final unified decree entered in SRBA Case No. 39576, in whatever form that final decree may take or be styled.
