Re: Water Right Permit #83-7075

Dear Ms. Milligan:

Thank you for your letter and telephone call requesting an extension of time for the Huckleberry Heights sanitary sewer approval. There appears to be some confusion, however.

Your request for an extension on the water right permit should be filed with the Idaho Department of Water Resources, as noted on the form. That address is:

State of Idaho
Department of Water Resources
4055 Government Way
Coeur d'Alene, Idaho 83814
Attn: Robert G. Haynes, P. E.
Regional Supervisor

The Division of Environment is responsible for reviewing and approving plans and specifications for any water and wastewater construction or modification to community systems. It was my understanding that your request was for an extension on our approval to construct the sanitary sewer.

I hope this clears up the misunderstanding.

Sincerely,

DIVISION OF ENVIRONMENT

By copy of this letter, we are advising the applicant, the City of Elk River, of your withdrawal of protest.

Dear Mr. Haynes:

Re: Water Permit No. 83-7075
Our Letter Dated 9-2-83

In answer to your letter of September 12 we wish to reiterate that our protest was based on an error in the publication of the legal description of the above referenced water permit. The township was shown as 42N whereas it should have been 40N. This is the only problem we have with this permit so this is the only correction that is required. We hereby remove our protest.

Connie Adams of the Clearwater Economics development Assn. has contacted us by phone and they are aware of the correct interpretation of our original correspondence.

Sincerely,

Ruth B. Polumsky

Gentlemen:

Enclosed is a copy of a protest filed against the approval of a permit pursuant to the above-referenced application. The Department suggests you contact the protestants directly in an effort to determine the nature of the protest and attempt to resolve the protest.

If you do not advise us within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, IDAHO CODE):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

You will be notified at a later date of the time and place of the conference and/or hearing. If we can be of any assistance, please contact us.
