Dear Mr. Higginson:

I had no intention of allowing Permit No. 83-7008 to elapse. During the summer while I was out of town, a member of your department or from the area office called my wife for directions to the pond site. I assumed this was for the purpose of determining the pond had been completed properly and would constitute proof of its existence. This was of some relief to me as I was not sure what would constitute adequate proof. I hope this error shows reasonable cause for re-instatement of the permit.

Sincerely,

Gentlemen:

One of the conditions of approval of your water Permit No. 83-7008 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
