CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

Dear Water Right Holder(s):

Enclosed is a copy of the Water Right License issued on the above referenced permit. Thank you for sending us the new Proof of Beneficial Use form. If you have any questions, please contact me within 10 days of receipt of this license.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

RE: Permit No. 84-07266

Dear Mr. Harbaugh:

This letter acknowledges receipt of your letter dated March 18, 1994 requesting withdraw of Proof of Beneficial Use filed September 25, 1992 on the above referenced permit.

Proof of Beneficial Use on this permit was originally due September 1, 1997. That development period has not expired; therefore, we have voided the previously submitted Proof of Beneficial Use and discarded the field examination report.

You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the September 1, 1997 completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

If you have any questions or require further assistance, please feel free to contact me directly at 327-7947.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over a circular stamp or seal.

Dear Al:

This letter is to acknowledge my error in requesting the field examination of beneficial use that was conducted last year, and I request a withdrawal of that exam. As discussed with you on the phone, our plans to build a home should take place in about five years. My permit states that proof of construction of works and application of water to beneficial use shall be submitted on or before September 1, 1997. As our house plans become more final, I may request in a separate letter an extension of that date.

We plan to complete our fencing this summer, which will enable us to put our horse on the property, fulfilling the stockwater use stated on the permit. Also, we will continue to plant fruit trees and other landscaping vegetation, utilizing water (domestic) to maintain them.

Thank you for your assistance.

Sincerely,

A handwritten signature in cursive script that reads "George O. Harbaugh".

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 84-07266

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 84-07266

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

BRENDA MILLER

Re: Water Appropriation Application

#

84-7266

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To appropriate the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
